Contents

Introduction

PART 1 IMPLEMENTING MOBILE DEVICES

1 Thinking about going mobile

Why use mobile devices?
Mobile learning and 21st century skills
Getting the classroom ready

2 Getting started

Preparing the way
Acceptable use policies
Staying safe
Using apps

PART 2 TAKING THE FIRST STEPS

3 Take out your devices

Text messaging
Emoji
Games
Audio recording

4 A photo tells a thousand words

Selfies
Combining photos
Adding text

Sharing photos
Bringing coursebooks to life
Making more of photos

5 QR codes: a versatile classroom tool

What is a QR code?
Making and sharing QR codes
Creating your own content
Student QR codes

6 Audio recording

Voice recognition
Making recordings
Podcasting

PART 3 MOBILE DEVICES: PROJECTS AND BEYOND

7 Digital storytelling

Why digital storytelling?
Planning a digital story
Trailers as digital stories
Assessing students' digital stories

8 Video and animation

Short-form video
Creating longer videos
Avatars
App smashing
Animation

9 Multimodal approaches and alternative realities

Adding links, videos, and text to an image
Augmented reality
Virtual reality

10 Tools for the teacher

Screen recording
Flipped learning
Mobile devices and informal assessment
Using digital coursebooks

Glossary
Useful apps and websites
