

Content

Chapter 1

Introduction 7

Chapter 2

Outline of research questions, objectives and study context..... 11

2.1 Study region and temporal scope 13

Chapter 3

Methodology and applied analytical tools and computational techniques 15

3.1 Input data..... 15

3.1.1 Archaeological data..... 15

3.1.2 Narrative, historical, and epigraphic sources 17

3.1.3 Environmental and natural-scientific data..... 17

3.2 Tools and techniques employed for data collection, processing, analysis, and computational modelling 18

3.2.1 Collection and formalisation of attribute data..... 18

3.2.2 Formal statistics of attribute data 19

3.2.3 Spatial data and geostatistics..... 20

3.2.4 Web-map application..... 20

3.2.5 Computational modelling and complex systems 20

3.2.6 Network modelling 21

3.3 Absolute and relative chronologies and temporal resolution of archaeological data 21

3.3.1 Aoristic calculation and probabilistic modelling 23

Chapter 4

MARCOMANNIA dataset – an outline of the archaeological knowledge..... 27

4.1 Archaeological action 27

4.2 Data inputs and sources of information 29

4.3 Identification and differentiation of activity areas 29

4.4 Archaeological site-based data distribution 30

4.5 Uncertainty index 32

Chapter 5

Proxies on the development trajectories of the Middle Danube Germanic society 35

5.1 Residential areas (settlements) and pit houses..... 36

5.1.1 Input data 38

5.1.2 Baseline proxy of the settlement structure..... 39

5.1.3 Data quality and uncertainty evaluation 41

5.1.4 Probabilistic modelling of the temporal distribution of the residential areas..... 41

5.1.5 Pit houses..... 42

5.2 Funerary areas / burial grounds 47

5.2.1 Input data..... 48

5.2.2 Baseline proxy of the funerary areas 50

5.2.3 Burials and graves 51

5.3 The find categories of Germanic and Roman origin 53

5.3.1 Brooches 54

5.3.2 Roman coins 61

5.3.3 Metal vessels 73

5.3.4 Militaria..... 77

5.3.5 Tools 82

5.3.6 Samian ware 85

5.4 Technology and material aspects..... 90

5.4.1 Variability in material culture and technological implications..... 90

5.4.2 Material representation 92

5.5 Statistical evaluation of the proxies..... 97

5.5.1 Correlation 97

5.5.2 Multivariate statistical evaluation..... 100

Chapter 6

Spatiotemporal aspects of the Germanic settlement structures.....	103
6.1 Boundaries and internal structuring of the settlement territory	103
6.2 Regionality and spatial pattern in settlement structure	106
6.2.1 Input data and method.....	107
6.2.2 Spatiotemporal patterns in residential area data	110
6.2.3 Structures in spatiotemporal data	110
6.3 Spatial distribution of the Roman origin finds and socio-economic implications (Marek Vlach – Balázs Komoróczy)....	112
6.3.1 Input data.....	113
6.3.2 Spatial analysis and pattern identification	113
6.3.3 Explanatory potential of the spatial patterns.....	117
6.4 Development of the network properties of the Germanic settlement structure.....	120
6.4.1 Input data.....	121
6.4.2 Exploration of network structure properties.....	121
6.4.3 Structures and trends in residential area networks	124

Chapter 7

Demography of the Germanic populations of the ‘Marcomannic’ settlement zone.....	127
7.1 The floor area estimator and household size	127
7.1.1 Socio-economic implication of the floor area size (Gini coefficient)	130
7.2 Community size from the archaeological record	131
7.2.1 Input data	131
7.2.2 Burying population approach	132
7.3 Population size and its spatiotemporal dynamics	135
7.3.1 Regionality of the population size reconstructions	137
7.3.2 Implications to survival/recovery rate in archaeological data and estimates of original quantitative aspects	139

Chapter 8

Germanic society and its structure through the burial context.....	143
8.1 Theoretical basis of the funerary context and its interpretation possibilities towards the societal structure	143
8.2 Social dimension through wealth distribution	145
8.2.1 ‘Wealth index’ and social stratification scaling.....	146
8.2.2 Gini index and inequality	150
8.2.3 Structures in the composition of the grave goods.....	153
8.2.4 Weapons in burials context	158

Chapter 9

Middle Danube Germanic society during the Roman Period from the perspective of social anthropology	165
9.1 Brief outline of the chiefdom-type social organisation and its structure	165
9.2 Germanic society through the narrative sources	167
9.3 Comparative contexts and parallels	169
9.4 Organisation of power – Reges, Duces, and Principes	170
9.5 Coalitions and confederacies	175
9.6 Retinue (Warband)	176
9.7 Vertical (social) and horizontal (spatial) organisation structure.....	177
9.8 Demesnes, subsistence and economic aspects.....	179
9.9 Conflict and warfare	182

Chapter 10

Discussion and conclusions	185
