

CONTENTS

Volume 20 No. 5

1997

- Phenylketonuria in Italy: distinct distribution pattern of three mutations of the phenylalanine hydroxylase gene
V. Guzzetta, G. Bonapace, I. Dianzani, G. Parenti, M. Lecora, S. Giannattasio, D. Concolino, P. Strisciuglio, G. Sebastio and G. Andria 619-624
- Mucopolidosis type IV: abnormal transport of lipids to lysosomes
R. Bargal and G. Bach 625-632
- Biochemical characterization of the S135L allele of galactose-1-phosphate uridylyltransferase associated with galactosaemia
L. Wells, J.L. Fridovich-Keil 633-642
- Human α -galactosidase A: high plasma activity expressed by the -30G→A allele
T.F. Fitzmaurice, R.J. Desnick and D.F. Bishop 643-657
- A new peroxisomal β -oxidation disorder in twin neonates: defective oxidation of both cerotic and pristanic acids
E. Christensen, S. Anken Pedersen, H. Leth, C. Jakobs, R.B.H. Schutgens and R.J.A. Wanders 658-664
- Peroxisomal localization of α -oxidation in human liver
M. Casteels, K. Croes, P.P. Van Veldhoven and G.P. Mannaerts 665-673
- Cardiac mitochondrial dysfunction and DNA depletion in children with hypertrophic cardiomyopathy
J. Marin-Garcia, R. Ananthakrishnan, M.J. Goldenthal, J.J. Filiano, A. Perez-Atayde 674-680
- Dihydropyrimidinase deficiency and congenital microvillous atrophy: coincidence or genetic relation?
B. Assmann, G.F. Hoffmann, L. Wagner, C. Bräutigam, H.W. Seyberth, M. Duran, A.B.P. Van Kuilenburg, R. Wevers and A.H. Van Gennip 681-688
- Primary hyperoxaluria type I: diagnostic relevance of mutations and polymorphisms in the alanine:glyoxylate aminotransferase gene (AGXT)
A.C. Tarn, C. von Schnakenburg and G. Rumsby 689-696
- The association between haematological manifestation and mtDNA deletions in Pearson syndrome
K. Muraki, S. Nishimura, Y. Goto, I. Nonaka, N. Sakura and K. Ueda 697-703
- Case Reports
- Heterogeneous presentation in Leigh syndrome
L. Vilarinho, C. Maia, T. Coelho, P. Coutinho and F.M. Santorelli 704-705
- Cobalamin E (cblE) disease: a severe neurological disorder with megaloblastic anaemia, homocystinuria and low serum methionine
C. Steen, D.S. Rosenblatt, H. Scheying, H.C. Braeuer and A. Kohlschütter 705-706
- Biotinidase deficiency with neurological features resembling multiple sclerosis
A. Tokatlı, T. Coşkun and İ. Özalp 707-708
