POLISH AND TENSE-LOGICAL SYMBOLS	viii
----------------------------------	------

INTRODUCTION	ix
--------------	----

TRANSLATION

Book I

1. Introductory Remarks: Monists and Pluralists	1
2. Infinite Divisibility	3
3. Generation <i>Simpliciter</i>	8
4. Alteration	14
5. Growth	15
6. Contact	21
7. Acting and Being Affected (1): Like and Unlike	23
8. Acting and Being Affected (2): Empedocles and the Atomists	26
9. Acting and Being Affected (3): Actuality and Potentiality	31
10. Mixing	32

Book II

1. The Elements and Prime Matter	37
2. The Primary Contrarieties	38
3. The Contrarieties and the Elements	40
4. Reciprocal Transformation of the Elements	41
5. No First Element	43
6. Refutation of Empedocles	46
7. Formation of Homoeomers	49
8. Each Element Present in Every Homoeomer	51
9. Causes of Generation and Corruption	51

CONTENTS

10.	Efficient Cause of Generation and Corruption	54
11.	Necessity in the Sphere of Generation and Corruption	57
	NOTES	60
	APPENDIX: Prime Matter in <i>De Generatione et Corruptione</i>	211
	BIBLIOGRAPHY	221
	GLOSSARY	225
	INDEX	229

POLISH AND TENSE-LOGICAL SYMBOLS

Polish	Russellian	English
Np	$\sim p (\neg p)$	It is not the case that p
Kpq	$p \cdot q (p \& q)$	p and q
Apq	$p \vee q$	p or q
Cpq	$p \supset q (p \rightarrow q)$	If p then q
Epq	$p \equiv q (p \leftrightarrow q)$	p if and only if q
$\Pi x \phi x$	$(x) (\phi x)$	For every x , ϕx
$\Sigma x \phi x$	$(\exists x) (\phi x)$	For some x , ϕx
Lp	$\Box p$	Necessarily, p
Mp	$\Diamond p$	Possibly, p
Pp		It has been the case that p
Fp		It will be the case that p
