

Contents

Contributors xiii

Introduction xix

Section I

General

1. Reproductive anatomy and physiology 3

Timothy J. Evans and Vekataseshu K. Ganjam

2. Pharmacokinetics in pregnancy 33

*Gregory J. Anger, Wanying Dai and
Micheline Piquette-Miller*

3. Physiologically based pharmacokinetic models in reproductive and developmental toxicology 47

*Kannan Krishnan and
Sandrine Fleur Chebekoue*

4. Adverse Outcome Pathways in reproductive and developmental toxicology 63

*Shihori Tanabe, Magdalini Sachana
and Rex FitzGerald*

Section II

Toxicity testing models, safety evaluation, and regulatory aspect

5. Juvenile toxicology testing 75

Alan M. Hoberman and Elise M. Lewis

6. Relevance of animal testing and sensitivity of end points in reproductive and developmental toxicity 93

Efstathios Nikolaidis

7. Alternative methods to animal experimentation for testing developmental toxicity 107

*David Pamies, Carmen Estevan,
Eugenio Vilanova and Miguel A. Sogorb*

8. Use of computational toxicology tools to predict *in vivo* endpoints 127

Marilyn Helen Silva

9. Guidelines for reproductive and developmental toxicity testing and risk assessment of chemicals 147

Poorni R. Iyer and Susan L. Makris

10. Reproductive toxicity: *in vivo* testing guidelines from OECD 165

*Carmen Estevan, David Pamies,
Miguel A. Sogorb and Eugenio Vilanova*

11. *In vitro* biomarkers of developmental neurotoxicity 179

*Magdalini Sachana, John Flaskos and
Alan J. Hargreaves*

12. Reproductive and developmental safety evaluation of new pharmaceutical compounds 211

Ramesh C. Garg, William M. Bracken, Alan M. Hoberman, Brian Enright and Belen Tornesi

13. Using zebrafish to assess developmental neurotoxicity 239

Stephanie Padilla, Bridgett N. Hill, Jessica Legradi and Nils Klüver

14. *Caenorhabditis elegans* as a model to assess reproductive and developmental toxicity 253

Daniel C. Williams, Denise C. Bailey and Vanessa A. Fitsanakis

15. Postmarket surveillance and regulatory considerations in reproductive and developmental toxicology: a Food and Drug Administration perspective 265

Susan Bright-Ponte

Section III

Nanoparticles and radiation

16. Developmental toxicity of engineered nanomaterials 285

Luisa Campagnolo, Peter Møller, Nicklas R. Jacobsen and Karin S. Hougaard

17. Effects of ionizing radiation on reproduction and development 307

Roger O. McClellan

Section IV

Gases and solvents

18. Reproductive and developmental toxicity of solvents and gases 339

Suryanarayana V. Vulimiri, M. Margaret Pratt, Shaila Kulkarni, Sudheer Beedanagari and Brinda Mahadevan

Section V

Drugs of abuse and addiction, smoking, and alcohol

19. Developmental neurotoxicity of drugs of abuse 359

Pushpinder Kaur Multani, Nitin Saini, Rajkumar Singh Kalra, Ramesh Kandimalla and Vandna Saini

20. Effects of alcohol on embryo/fetal development 379

Consuelo Guerri and María Pascual

21. Cigarette and E-cigarettes smoking and reproductive and developmental toxicity 395

Arturo Anadón, Irma Ares, María Rosa Martínez-Larrañaga and María Aránzazu Martínez

Section VI

Pharmaceuticals, nutraceuticals, and food additives

22. Thalidomide 423

Neil Vargesson

23. Retinoids 439

Begum Yurdakok-Dikmen, Ayhan Filazi and Sinan Ince

24. Safety of cannabis- and hemp-derived constituents in reproduction and development 455

James Akingbasote, Sandra Szlapinski, Andrew Charrette, Corey J. Hilmas and Najla Guthrie

25. Caffeine 489

Carina Rodrigues Boeck and Rosane Souza Da Silva

26. Melamine and cyanuric acid 503

Karyn Bischoff

27. Ionophores 513

*Meliton N. Novilla, Ramesh C. Gupta,
Rajiv Lall and Ajay Srivastava*

Section VII

Metals

28. Boron 531

*Sinan Ince, Ayhan Filazi and Begum
Yurdakok-Dikmen*

29. Arsenic, cadmium, and lead 547

Jayant Patwa, Abha Sharma and S.J.S. Flora

30. Mercury 573

*Mingwei Ni, Xin Li, Ana Paula Marreilha dos
Santos, Marcelo Farina, João Batista Teixeira
da Rocha, Daiana S. Avila, Offie P. Soldin,
Lu Rongzhu, Dejan Milatovic and
Michael Aschner*

31. Manganese 587

*Dejan Milatovic, Ramesh C. Gupta, Zhaobao
Yin, Snjezana Zaja-Milatovic, Mirjana
Milosevic Brockett and Michael Aschner*

32. Selenium 603

*Jeffery O. Hall, T. Zane Davis and
Ramesh C. Gupta*

Section VIII

Pesticides, industrial, and other
environmental contaminants33. Organophosphates and
carbamates 617

*Ramesh C. Gupta, Robin B. Doss, Begum
Yurdakok-Dikmen, Jitendra K. Malik, Snjezana
Zaja-Milatovic and Dejan Milatovic*

34. Chlorinated hydrocarbons and
pyrethrins/pyrethroids 641

*Jitendra K. Malik, Manoj Aggarwal,
Starling Kalpana and Ramesh C. Gupta*

35. Herbicides and fungicides 665

P.K. Gupta

36. Brominated flame retardants 691

*Prasada Rao S. Kodavanti, Tammy E. Stoker,
Suzanne E. Fenton and Margarita
Curras-Collazo*

37. Polychlorinated biphenyls,
polybrominated biphenyls,
polychlorinated dibenzo-*p*-dioxins,
and polychlorinated
dibenzofurans 727

*Prasada Rao S. Kodavanti, Matthew C. Valdez,
Jae-Ho Yang, Margarita Curras-Collazo and
Bommanna G. Loganathan*

38. Reproductive toxicity of polycyclic
aromatic hydrocarbons 759

*Aramandla Ramesh, Kenneth J. Harris and
Anthony E. Archibong*

39. Bisphenol A—toxicity and risk
assessment update with academic
and regulatory perspectives and
physiologically based pharmacoki-
netic modeling 779

*Anna M. Fan, Wei-Chun Chou
and Pinpin Lin*

40. Ethylene glycol 803

Szabina A. Stice and Edward W. Carney

41. Perfluorooctane sulfonate and
perfluorooctanoic acid 815

*Ozgur Kuzukiran, Ilker Simsek, Ayhan Filazi
and Begum Yurdakok-Dikmen*

42. Traffic-related air pollution and the
developing brain 833

*Lucio G. Costa, Jacqueline M. Garrick, Khoi
Dao, Ashley Phillips, Judit Marsillach and
Toby B. Cole*

43. Environmental pollutants and
embryonic implantation and
embryonic development 845

*Roberto González-Martín and
Francisco Dominguez*

44. Personal care products and cosmetics 867

Changqing Zhou, Catheryne Chiang, Emily Brehm, Genoa R. Warner and Jodi A. Flaws

45. UV screening chemicals 911

Klara Matouskova and Laura N. Vandenberg

Section IX

Phytotoxins and mycotoxins

46. Toxic plants 933

Kevin D. Welch, Benedict T. Green, Dale R. Gardner, Clinton A. Stonecipher and Daniel Cook

47. Fumonisin 955

Jane Gelineau-van Waas

48. Aflatoxins, ochratoxins, and citrinin 983

Ramesh C. Gupta, Robin B. Doss, Rajiv Lall, Ajay Srivastava and Anita Sinha

49. Trichothecenes and zearalenone 1003

Ramesh C. Gupta, Robin B. Doss, Rajiv Lall, Ajay Srivastava and Anita Sinha

Section X

Special topics

50. Drugs and chemical contaminants in human breast milk 1019

Arturo Anadón, María Rosa Martínez-Larrañaga, Irma Ares and María Aránzazu Martínez

51. Stem cells in developmental toxicity testing 1053

Pushpinder Kaur Multani and Nitin Saini

52. Embryonic and fetal toxic lesions and stem cell therapy 1071

V.B. Popov, G.A. Protasova, L.V. Shabasheva and N.S. Khlebnikova

53. Epigenetics in reproduction and development 1091

Kausik Ray

54. Mitochondrial dysfunction in reproductive and developmental toxicity 1103

Carlos M. Palmeira, Ivo F. Machado and João Ramalho-Santos

55. Cell signaling mechanisms in developmental neurotoxicity 1117

Chunjuan Song, Arthi Kanthasamy and Anumantha Kanthasamy

56. Neuroinflammation and oxidative injury in developmental neurotoxicity 1129

Dejan Milatovic, Snjezana Zaja-Milatovic, Mirjana Milosevic Brockett, Richard M. Breyer, Michael Aschner and Thomas J. Montine

57. Effects of stress on reproductive function and fetal development 1141

Kavita Gulati, Suresh Kumar Thokchom, Nishant Rai and Arunabha Ray

Section XI

Endocrine disruption

58. Endocrine disruption 1163

Timothy J. Evans

59. Role of endocrine disruptors in male infertility and impact of COVID-19 on male reproduction 1183

Manesh Kumar Panner Selvam and Suresh C. Sikka

Section XII

Infertility and teratogenicity

60. Toxicology of reproduction process and problems of male infertility 1197

V.B. Popov, G.A. Protasova, L.V. Shabasheva, Yu V. Golubentseva and P.P. Beltyukov

61. Environmental pollutants and neural tube defects 1221

Aiguo Ren

62. Teratogenicity 1245

Vincent F. Garry and Peter Truran

63. Micro-CT and volumetric imaging in developmental toxicology 1261

Xiaoyou Ying, Norman J. Barlow and Arun Tatiparthi

Section XIII

Toxicologic pathology

64. Toxicologic pathology of the reproductive system 1289

Moges Woldemeskel

Section XIV

Placental toxicity

65. The placental role in developmental programming 1325

Rohan M. Lewis, Jane K. Cleal and Keith M. Godfrey

66. Strategies for investigating hemochorial placentation 1339

Stephen J. Renaud

67. The significance of ABC transporters in human placenta for the exposure of fetus to xenobiotics 1355

Ali Mustafa Mohammed, Heidi Sahlman and Kirsi H. Vähäkangas

68. Placental toxicity 1373

Rekha K. Gupta and Ramesh C. Gupta

69. Placental pathology 1399

Drucilla J. Roberts and Vanda Torous

Section XV

Domestic and wildlife species

70. Endocrine disruption in wildlife species 1423

Robert W. Coppock and Margitta M. Dziwenka

71. Teratogenesis in livestock 1443

Robert W. Coppock and Margitta M. Dziwenka

72. Reproductive and developmental toxicity in avian species 1461

Robert W. Coppock and Margitta M. Dziwenka

- Index 1487
