<b>PART I OVERVIEW OF ART THERAPY RESEARCH</b>	<b>1</b>
<b>1 Art Therapy Research Ideas, Tools, and Steps in the Process</b>	<b>3</b>
How is Art Therapy Knowledge Constructed?	3
Designing a Research Study	4
Step One: Identifying the Research Question	7
Step Two: Reflexively Mapping Social Identities and Concepts	10
Step Three: Developing the Problem Statement	12
Step Four: Search and Review the Literature	14
Step Five: Determining Methodology and Research Approach	18
Step Six: Methods, Tools, and Resources for Conducting the Study	22
Step Seven: Implementing the Study within Ethical Standards	26
Step Eight: Reporting and Disseminating Results	28
Beyond the Steps: Creativity in Research Planning	28

## PART II ART THERAPY RESEARCH METHODOLOGIES 55

<b>3 Quantitative Strategies for Art Therapy Research</b>	<b>57</b>
Purpose: Cause-and-Effect Relationships	58
Manipulation and Measurement of Variables	58
Control	61
Random and Non-random Sampling	61
Systematic, Preplanned Structure	62
Designing Quantitative Art Therapy Research	64
The True Experiment and its Between-Group Variations	66
Quasi-Experimental Studies	70
Non-experimental Research	72
Correlational Research	73
Survey Research	74
Data Analysis in Quantitative Research	76

<b>4 Generating Art Therapy's Evidence Base</b>	<b>83</b>
Purpose: Processes and Outcomes of Care	84
Levels of Evidence	85
Efficacy vs. Effectiveness	86
How to Conduct Treatment Effectiveness Research	88
Phase One: Creative Innovation and Observation of Effects	88
Phase Two: Develop the Protocol	89
Phase Three: Single-Subject Experimentation	91
Phase Four: Conduct a Controlled Study	92
Mixed Methods Research	94
Program Evaluation Research	96
Planning a Program Evaluation	97
Steps in Program Evaluation	97
Systematic Reviews: Analyses of Research Evidence	102
