Introduction

1

1 Educational Neuroscience: Why Is Neuroscience Relevant to Education?

3

MICHAEL S. C. THOMAS AND DANIEL ANSARI

2 An Introduction to Brain and Cognitive Development: The Key Concepts You Need to Know

23

IROISE DUMONTHEIL AND DENIS MARESCHAL

SECTION 1

Development and Variation: Genetic and Environmental Factors

51

3 What Has Behavioural Genetic Research Told Us About the Origins of Individual Differences in Educational Abilities and Achievements?

53

GEORGINA DONATI AND EMMA MEABURN

4 Socioeconomic Disparities in Achievement: Insights on Neurocognitive Development and Educational Interventions

88

DANIEL A. HACKMAN AND DAVID J. M. KRAEMER

SECTION 2

Discipline-Specific Abilities: Literacy, Numeracy, and Science

121

5 Neuroscience in Reading and Reading Difficulties

123

XIUHONG TONG AND CATHERINE MCBRIDE

6 Reading Acquisition and Developmental Dyslexia: Educational Neuroscience and Phonological Skills	144
USHA GOSWAMI	
7 Sources of Variability in Mathematical Development	169
BERT DE SMEDT	
8 Lifespan Conceptual Development in Science: Brain and Behaviour	195
ANDY TOLMIE AND SELMA DÜNDAR-COECKE	
 SECTION 3	
Discipline-General Abilities: Executive Functions, Social and Affective Development	223
9 The Development of Executive Functions in Childhood and Adolescence and Their Relation to School Performance	225
SABINE PETERS	
10 Understanding Emotional Thought Can Transform Educators' Understanding of How Students Learn	244
MARY HELEN IMMORDINO-YANG AND REBECCA J.M. GOTLIEB	
 SECTION 4	
Leading Methods for Cognitive Enhancement	271
11 Action Video Games: From Effects on Cognition and the Brain to Potential Educational Applications	273
IRENE ALTARELLI, C. SHAWN GREEN, AND DAPHNE BAVELIER	
12 Mindfulness and Executive Function: Implications for Learning and Early Childhood Education	298
ANDREI D. SEMENOV, DOUGLAS KENNEDY, AND PHILIP DAVID ZELAZO	
13 The Neuroscience of Sleep and Its Relation to Educational Outcomes	332
RACHEL SHARMAN, GABY ILLINGWORTH AND CHRISTOPHER-JAMES HARVEY	

14 The Effectiveness of Aerobic Exercise for Improving Educational Outcomes	361
CATHERINE WHEATLEY, THOMAS WASSENAAR, AND HEIDI JOHANSEN-BERG	
15 The Cognitive Benefits and Disadvantages of Bilingualism Across the Lifespan and Implications for Education	388
JACQUELINE PHELPS AND ROBERTO FILIPPI	
16 Music Training, Individual Differences, and Plasticity	415
E. GLENN SCHELLENBERG	
SECTION 5	
Into the Classroom	443
17 Towards a Science of Teaching and Learning for Teacher Education	445
PAUL HOWARD-JONES, KONSTANTINA IOANNOU, RUTH BAILEY, JAYNE PRIOR, TIM JAY AND SHU YAU	
18 Educational Neuroscience: Ethical Perspectives	474
VICTORIA KNOWLAND	
19 Educational Neuroscience: So What Does It Mean in the Classroom?	500
DEREK BELL AND HELEN M. DARLINGTON	
Conclusion	527
20 Key Challenges in Advancing Educational Neuroscience	529
MICHAEL S. C. THOMAS, IROISE DUMONTHEIL AND DENIS MARESCHAL	
Index	544
