Africa

12

African snapshots

A look at mega dam projects in Ethiopia and small dam failures in Sudan

14

Innovations and challenges in LHWP Phase II

Showcasing modern tunnelling practices

Workforce development

16

The ripple effect

Addressing workforce challenges

20

All kitted out

Highlighting the Hydropower Knowledge Sharing and Succession Planning Toolkit

22

Airwave bridges the skills gap

Airwave's AI platform brings decades of knowledge into the hands of the next generation

Digitalisation

24

Smarter hydro through software

How digital tools are transforming operations

26

Digitalised solutions

Innovative advances

28

Off grid but never alone

Revolutionising lone worker safety in the hydro industry.

Projects

30

Rebuilding underwater: the hidden engineering of the Ituango Dam

Exploring the complex underwater rehabilitation efforts to restore Colombia's flagship energy infrastructure

32

Unlocking distributed hydropower

IWP&DC learns more about InPipe Energy's scalable solution for pressure recovery

Condition monitoring

34

New paradigms for tailings dam monitoring

How integrating strain and seismic sensing with fibre optics can help monitor the performance of tailings dams

Design

36

Out in the cold

Insight into cold weather impacts on dams

Q&A

38

KGSI strengthens US presence

KGS Group International Inc is driving innovation and local engagement.
