|------------|----------------------------------------------------------------------------|-----------|
| <b>1</b>   | <b>Introduction</b>                                                        | <b>13</b> |
| <b>1.1</b> | <b>How this book and approach to destination management came about</b>     | <b>14</b> |
| <b>1.2</b> | <b>Destination management and marketing at a dead end street</b>           | <b>16</b> |
| 1.2.1      | The amalgam – the big hash                                                 | 17        |
| 1.2.2      | Participative planning and fickle actors – the good, the bad, and the ugly | 19        |
| 1.2.3      | Me-too syndrome, blind flight, and toothless marketing                     | 21        |
| 1.2.4      | Destination management – still more a creative art than science            | 24        |
| <b>1.3</b> | <b>How to read and use this book</b>                                       | <b>26</b> |
| <b>2</b>   | <b>The SGDM – principles and framework</b>                                 | <b>29</b> |
| <b>2.1</b> | <b>Theoretical background and principles</b>                               | <b>30</b> |
| 2.1.1      | Multiple subsystems and their variability                                  | 30        |
| 2.1.2      | Flows generated by visitors and activating supply systems                  | 32        |
| 2.1.3      | Variable geometry                                                          | 36        |
| 2.1.4      | Networks, interdependencies, and collaborative business systems            | 41        |
| <b>2.2</b> | <b>SGDM – A circular model</b>                                             | <b>44</b> |
| 2.2.1      | Follow the visitors & draw the maps                                        | 45        |
| 2.2.2      | Overlap the maps & strategize                                              | 49        |
| 2.2.3      | Explore the networks & identify the levers                                 | 51        |
| 2.2.4      | Fill in the processes & share the tasks                                    | 53        |
| 2.2.5      | Arrange the resources & negotiate accountability                           | 55        |
| 2.2.6      | Install for ongoing update & facilitate the process                        | 59        |
| 2.2.7      | Reflection on the SGDM's six steps                                         | 64        |
| <b>2.3</b> | <b>SGDM boosting innovation</b>                                            | <b>65</b> |
| <b>3</b>   | <b>Implementation – the SGDM in practice</b>                               | <b>67</b> |
| <b>3.1</b> | <b>Stepwise insights and recommendations</b>                               | <b>68</b> |
| 3.1.1      | Steps 1 and 2: SVFs and variable geometry                                  | 68        |
| 3.1.1.1    | Draw the maps first                                                        | 68        |
| 3.1.1.2    | Draw visitor flows, don't enumerate services                               | 69        |
| 3.1.1.3    | Use the visitor day as a point of reference                                | 71        |
| 3.1.1.4    | The more SVFs we identify, the better                                      | 72        |
| 3.1.1.5    | Reconstruct with a lack of knowledge                                       | 72        |
| 3.1.1.6    | Involve informants                                                         | 73        |
| 3.1.1.7    | Revise old beliefs                                                         | 74        |
| 3.1.2      | Steps 3 and 4: Networks, marketing processes, and tasks                    | 75        |
| 3.1.2.1    | Many SVFs have their own momentum                                          | 76        |
| 3.1.2.2    | Plenty of other SVFs operate as "niches"                                   | 77        |
| 3.1.2.3    | Prioritize and concentrate efforts on a few selected SVFs                  | 77        |
| 3.1.2.4    | The DMO doesn't play a central role                                        | 78        |
| 3.1.2.5    | Continue matching networks and the marketing processes with the maps       | 79        |
| 3.1.2.6    | Combine horizontal with vertical analysis of the marketing processes table | 80        |
| 3.1.3      | Steps 5 and 6: Arrangements and continuous update                          | 81        |
| 3.1.3.1    | Projects vs. master plan, bottom-up vs. top-down                           | 82        |
| 3.1.3.2    | Accept variety and relax                                                   | 82        |
| 3.1.3.3    | When negotiating new tasks, consider different coordination mechanisms     | 83        |
| 3.1.3.4    | The Destinorama as a new planning philosophy and environment               | 85        |

|            |                                                                                                                                                                                        |            |
|------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>3.2</b> | <b>Working with the SGDM brings about a change in mindset.....</b>                                                                                                                     | <b>89</b>  |
| 3.2.1      | Different content.....                                                                                                                                                                 | 89         |
| 3.2.2      | Another kind of process.....                                                                                                                                                           | 90         |
| 3.2.3      | Different metrics.....                                                                                                                                                                 | 91         |
| <b>4</b>   | <b>Consequences.....</b>                                                                                                                                                               | <b>97</b>  |
| <b>4.1</b> | <b>Consequences for tourism enterprises (private sector).....</b>                                                                                                                      | <b>98</b>  |
| 4.1.1      | Defining the portfolio of experience areas – The case of Grimselwelt (CH).....                                                                                                         | 98         |
| 4.1.2      | Assessing the market potential for a new attraction – Historic Museum Thurgau, Romanshorn (CH).....                                                                                    | 100        |
| 4.1.3      | Exploring the effects of a new infrastructure and deriving new business opportunities for the region – The case of the new ski area connection between Arosa and Lenzerheide (CH)..... | 102        |
| <b>4.2</b> | <b>Consequences for the public sector.....</b>                                                                                                                                         | <b>103</b> |
| 4.2.1      | Involving state representatives and specifying their needs – Baselland (CH).....                                                                                                       | 104        |
| 4.2.2      | Defining the new rules of the game in a state act – Appenzell Ausserrhoden (CH).....                                                                                                   | 105        |
| 4.2.3      | Evaluating support for projects and initiatives – St.Gallen (CH).....                                                                                                                  | 106        |
| <b>4.3</b> | <b>Consequences for DMOs.....</b>                                                                                                                                                      | <b>107</b> |
| 4.3.1      | Six archetypical problems that affect present day tourism organizations.....                                                                                                           | 107        |
| 4.3.1.1    | Simplistic belief models.....                                                                                                                                                          | 109        |
| 4.3.1.2    | Poorly focused and non-specific activities.....                                                                                                                                        | 112        |
| 4.3.1.3    | One-sided competences.....                                                                                                                                                             | 122        |
| 4.3.1.4    | Precarious sources of funding and vague mandates.....                                                                                                                                  | 125        |
| 4.3.1.5    | Ineffective corporate governance.....                                                                                                                                                  | 127        |
| 4.3.1.6    | Unrealistic self-concept.....                                                                                                                                                          | 128        |
| 4.3.2      | Halfhearted or failed institutional reforms.....                                                                                                                                       | 134        |
| 4.3.3      | A logic of change for DMOs.....                                                                                                                                                        | 135        |
| <b>5</b>   | <b>Outlook.....</b>                                                                                                                                                                    | <b>141</b> |
| <b>5.1</b> | <b>The flow-based perspective – a new paradigm?.....</b>                                                                                                                               | <b>142</b> |
| <b>5.2</b> | <b>A new agenda.....</b>                                                                                                                                                               | <b>146</b> |
| 5.2.1      | Ideas for further research.....                                                                                                                                                        | 146        |
| 5.2.1.1    | Effective travel decisions.....                                                                                                                                                        | 146        |
| 5.2.1.2    | Processes of social influence (before and during the trip).....                                                                                                                        | 147        |
| 5.2.1.3    | Systemic relevance and intervention.....                                                                                                                                               | 147        |
| 5.2.2      | Advice for practitioners.....                                                                                                                                                          | 148        |
| 5.2.2.1    | No one owns tourists and tourism.....                                                                                                                                                  | 148        |
| 5.2.2.2    | Locals are “tourists” too.....                                                                                                                                                         | 149        |
| 5.2.2.3    | Managing and marketing to what end and in what way.....                                                                                                                                | 149        |
| 5.2.2.4    | What is the actual benefit of destination brands?.....                                                                                                                                 | 150        |
| 5.2.2.5    | Who bears accountability for what?.....                                                                                                                                                | 152        |
| 5.2.2.6    | Are marketing platforms really useful?.....                                                                                                                                            | 153        |
| 5.2.2.7    | DMOs closer to tourism than to politics.....                                                                                                                                           | 156        |
| 5.2.2.8    | DMO managers, more than the jacks-of-all-trades.....                                                                                                                                   | 156        |
| 5.2.2.9    | A DMO is neither a DMC nor the public administration.....                                                                                                                              | 157        |
