About Your Guide ix
Orientation xii
Key terms xiv
The Landscape xvi
The Field xvi
Taxonomy xvi
The Territory xxiv
The Observed xxviii
The Game Wardens xxix

1 Artificial intelligence law 1
1.1 AI-specific laws 1
1.2 Product safety, torts, and criminal laws 3
1.3 Property laws 6
1.4 Trade secrets, confidentiality, and security 16
1.5 Anti-discrimination 18
1.6 Privacy and defamation 19
1.7 Publicity 21
1.8 GDPR and other data processing regulations 21
1.9 Data residency and retention 28
1.10 Contracts and industry standards 30

2 Starting an AI law compliance program 32
2.1 Take charge 32
2.2 Govern 35
2.3 Assign accountability 36

2.4 Work effectively with internal stakeholders and outside advisors 36
2.5 Mind tools and automation 38
2.6 Prepare a task list 40
2.7 Take stock of AI and laws 42
2.8 Prioritize 44
2.9 Identify key legal requirements 47
2.10 Execute 52

3 Drafting documentation 53
3.1 Why are you creating the document? 53
3.2 Who is your audience? 58
3.3 Differentiate categories of documentation 60
3.4 Legal advice, risks, and compliance efforts 66
3.5 Notices 70
3.6 Warnings 72
3.7 Consent 72
3.8 Records of processing activities (RoPAs), data maps, and flowcharts 84
3.9 Agreements 86
3.10 Protocols 86

4 Assessing impacts and mitigating risks 88
4.1 Impact, harm, and risk 88
4.2 Quantifying and qualifying risk and harm 89
4.3 Reasons to assess AI impacts and risks 89
4.4 Risks of harm and liability 90
4.5 Insurance 91
4.6 Risks of particular sanctions and remedies 91
4.7 Protect privilege and confidentiality when drafting impact assessments 96
4.8 Specifically required impact and risk assessments 97
4.9 AI risks from A to Z 99
4.10 Risks of Not Developing, Providing, and Using Artificial Intelligence 127

5 AI agreements **129**
5.1 Organization of agreements, clauses, and annexes 129
5.2 What does the seller offer? 131
5.3 What are the primary obligations of the buyer? 133
5.4 What secondary obligations does each party or both parties take on? 136
5.5 Who should own what? 137
5.6 What information is confidential and how should either party secure it? 138
5.7 What will each party do for the other if things go wrong? 139
5.8 How should each party be liable? What limits should apply? 146
5.9 Choice of law and dispute resolution 148
5.10 Force majeure 148

6 Protocols **149**
6.1 Sample protocol on acceptable use of generative AI 150
6.2 Sample protocol on the use of AI-generated and open source code 152
6.3 Sample protocol on data acquisition and usage for AI development 159

7 Maintaining and auditing compliance **162**
7.1 Recurring obligations and change management 162
7.2 Retire and expire documentation and processes 163
7.3 Taking over or auditing an existing compliance program 164
7.4 Developing audit controls 165
7.5 Technical AI performance, quality, and security checks 166
7.6 Compliance tools and automation 166
7.7 Due diligence in M&A 166
7.8 Due diligence on vendors 168
7.9 Continuing employee education 169
7.10 Monitoring new developments 169
