Why I wrote this book vii

A: Setting the scene 1

- 1 What is AI? 2
- 2 What is generative AI? 6
- 3 AI and language learning 10
- 4 AI and creativity 14
- 5 Technology and the hype cycle 18

B: AI in language teaching and learning 22

- 6 Learning a language with AI 23
- 7 Teaching with generative AI 26
- 8 Personalising content for learners 30
- 9 Practising English with chatbots 34
- 10 Learning with augmented reality 38
- 11 Learning with virtual reality 42
- 12 Understanding real-time learner engagement through AI 46
- 13 Understanding emotion in texts with AI 50
- 14 Developing writing skills with AI 54
- 15 Assessing learners with AI 58

C: The big questions 62

- 16 Can AI support language learning? 63
- 17 What does AI mean for teachers? 67
- 18 How can we make AI fair? 71
- 19 How can we make AI accessible to all? 75
- 20 Who owns the data? 79
- 21 Does AI help learners cheat? 83
- 22 Whose content does AI use? 87
- 23 Who creates AI? 91
- 24 Can we control AI? 95
- 25 How can we become critical users of AI? 99

D: Self-development and AI 103

- 26 Considering wellbeing and AI 104
- 27 Carrying out action research into AI 108
- 28 Developing learner autonomy with AI 112
- 29 Developing your teaching with AI 116
- 30 What does the future hold? 120
