CONTENTS

List of contributors *xi*
Foreword *xxii*

SECTION I
Where you can start **1**

1 Ontology, epistemology, and axiology: Understand your philosophy and approach 3
Ole Jonny Klakegg and Ida Marie Tvedt

2 Critical engagement of previous research 19
Steven Nijhuis

3 Transforming "hunches" into an exciting research topic 29
Derek Walker and Beverley Lloyd-Walker

4 The construction of research aims and questions 41
Rodney Turner

5 Project management research ethics 50
Haukur Ingi Jónasson, Helgi Thor Ingason, and Thordur Vikingur Fridgeirsson

SECTION II
The value of mixing things up **61**

6 Mixed methods for strategising in project management research 63
Karyne Ang

7 Interview methodology for understanding projects, project management, and temporary organising 77
Anette Hallin, Åbo Akademi, and Jenny Helin

8 Case study research in project management 89
Rodney Turner

9 Action research and project management 101
Shankar Sankaran and Bob Dick

10 Experiment-based research in project and portfolio management 119
Catherine P. Killen

11 Creating surveys to test theory in a project context 130
Blaize Horner Reich and Andrew Gemino

SECTION III
Specific ideas for emergent environments **141**

12 A novel method for exploring collaboration in project meetings 143
Mona Abd Al-Salam, Catherine Killen, and Perry Forsythe

13 Narrative inquiry in project management research 157
Shankar Sankaran

14 Autoethnography: Bridging the project manager-researcher divide 169
Rafaella Dana Broft and Simon Addyman

15 An agile approach to the real experience of developing research methodology 181
Hany Wells and Hedley Smyth

16 Researching project impact in smart cities: Methodological considerations 193
Beverly Pasian

17 Integrating information modelling simulation for smart operation and management in hospitals 210
Yongkui Li, Yan Zhang, Xiyu Pan, and Yilong Han

18 Project management research in the era of artificial intelligence 222
Seyed Ashkan Zarghami, Jantanee Dumrak, and Roslyn Cameron

19 Collaborating for studying projects: The example of welfare technology introduction in Sweden 234
Lucia Crevani, Michela Cozza, and Silvia Bruzzone

SECTION IV
Analysing and publishing **247**

20 Critical thinking as a core project management research skill 249
Alexia Nalewaik

21 Analysing qualitative data 255
Francesco Di Maddaloni

22 Using text mining to validate qualitative findings 276
James Marion and Tracey Richardson

23 The urge to publish: Transforming your dissertation into publications 289
Darren Dalcher

24 Writing research papers 301
Kam Jugdev and John Wyzalek

SECTION V
Considering the future 309

25 Mentoring: An essential aspect of researcher development 311
Deepak Bajaj and Pooja Bajaj

26 The future of project management research is complex 320
Louis Klein
