SECTION 1	
Introduction	1

Introduction or why we should conserve biodiversity	3
---	---

SECTION 2	
Threats to biodiversity	11

1 Residential and commercial development	17
<i>Summary</i>	22

2 Agriculture	24
<i>Industrial agriculture</i>	24
<i>Shifting agriculture</i>	28
<i>Summary</i>	31

3 Energy production and mining	32
<i>Mining</i>	32

	<i>Oil drilling</i>	35	
	<i>Guano mining</i>	37	
	<i>Summary</i>	39	
4	Transport and service corridors		40
	<i>Roads and railways</i>	40	
	<i>Power lines</i>	44	
	<i>Shipping lanes</i>	45	
	<i>Flight paths</i>	45	
	<i>Summary</i>	46	
5	Biological resource use		47
	<i>Hunting and harvesting</i>	47	
	Indirect effects of biological resource use	50	
	<i>Fishing</i>	51	
	Indirect effects of fishing	54	
	<i>Trapping for the pet trade</i>	54	
	<i>Logging and wood harvesting</i>	55	
	<i>Bush rock collection</i>	59	
	<i>Summary</i>	59	
6	Human intrusions and disturbance		61
	<i>Recreation</i>	61	
	<i>Off-road driving</i>	63	
	<i>War and civil disturbance</i>	64	
	<i>Summary</i>	64	
7	Natural system modification		65
	<i>Fire</i>	65	
	<i>Fencing</i>	67	
	<i>Inappropriate water management</i>	71	
	<i>Loss of prey</i>	76	
	<i>Summary</i>	79	
8	Invasive species		80
	<i>Invasive animals</i>	80	
	<i>Invasive plants</i>	86	
	<i>Diseases</i>	87	
	<i>Hybridisation</i>	90	
	<i>Summary</i>	95	

9	Pollution	97
	<i>Pesticides</i>	97
	<i>Heavy metals</i>	100
	<i>Agricultural runoff</i>	101
	<i>Plasticosis</i>	101
	<i>Sound pollution</i>	102
	<i>Light pollution</i>	104
	<i>Summary</i>	105
10	Geological and climate threats	107
	<i>Geological events</i>	107
	Volcanoes	107
	Earthquakes and tsunamis	108
	Avalanches and landslides	108
	<i>Climate change and severe weather</i>	109
	Shifting bioclimate	109
	Droughts	110
	Temperature extremes	112
	Storms and flooding	112
	Sea level change	114
	Climate change winners	114
	<i>Summary</i>	115
11	Other threats	117
	<i>Death by 1,000 cuts</i>	117
	<i>Disconnection from Nature</i>	118
	<i>Weak scientific understanding</i>	119
	<i>Inadequate funding</i>	122
	<i>Research problems</i>	123
	<i>Summary</i>	125
12	Conclusion to threats to biodiversity	127
SECTION 3		
	Conserving biodiversity	131
13	Land/water protection	133
	<i>Site/area protection</i>	133
	Protected area creation	133
	Types of protected areas	135
	<i>Category Ia – strict nature reserve</i>	135

	<i>Category Ib – wilderness area</i>	136
	<i>Category II – national park</i>	137
	<i>Category III – natural monument or feature</i>	139
	<i>Category IV – habitat or species management area</i>	139
	<i>Category V – protected landscape or seascape</i>	140
	<i>Category VI – sustainable use of natural resources</i>	141
	Transfrontier parks	142
	Kgalagadi	143
	KAZA	143
	Indigenous protected areas	144
	Protected area focus	145
	Protecting protected areas	145
	<i>Resource/habitat protection</i>	146
	Corridors	146
	Stepping stones	148
	Buffer zones	149
	<i>Summary</i>	150
14	Site management	153
	<i>Site management</i>	153
	Sustainable agriculture	154
	Conservation fences	155
	Disease management	158
	<i>Managing invasive species</i>	158
	Harvesting	158
	Shooting	159
	Baiting	161
	Trapping	162
	Biological controls	163
	<i>Mesopredator suppression</i>	164
	Gene drives	165
	<i>Habitat/natural process restoration</i>	166
	Revegetation	166
	Artificial housing	167
	Restoring natural processes	168
	<i>Fire protection</i>	170
	<i>Summary</i>	172

Harvest management 174
Trade management 176
Limiting population growth 177
Species recovery 180

Manual pollination 180
 Supplementary feeding 180
 Disease treatment 181
 Species translocation 181
 Reintroduction 183
 Genetic reinforcement 187
 Genetic rescue 189

Ex-situ conservation 190

The role of *ex-situ* institutions 191
 Captive breeding 192
 Education 193
 Ex-situ research 194
 Ex-situ successes 194

The trouble with zoos 196

Storage of material for restoring populations in the
 future 197
 Seed banks 197
 Gene banking and cryopreservation 198

De-extinction 199

Summary 200

Education and awareness 204
 Formal education 204
 Awareness and communication 205
Research 206
Monitoring 207
Law and policy 209
 Monitoring and enforcement 213
Incentives 213
 Market forces 215
 The role of business 219
 Biodiversity offsetting 219
Summary 222

SECTION 4	
Conservation success stories	225
17 Examples of conservation success stories	227
<i>The white rhino</i>	227
<i>Scotia Wildlife Sanctuary</i>	230
<i>Iberá, Argentina</i>	233
<i>Addo and predators in South Africa's Eastern Cape</i>	233
<i>The European bison</i>	236
<i>Snares to Wares to stop poaching</i>	238
<i>Restoring Gwynedd</i>	238
<i>Green-and-golden bell frogs at Kooragang Island</i>	239
<i>Tigers in India</i>	240
<i>Metapopulation management of African wild dogs</i>	242
<i>Summary</i>	244
SECTION 5	
Societal changes needed to conserve biodiversity	247
18 Big picture changes we need	249
<i>New economic/political philosophy or working within Capitalism?</i>	249
<i>Urbanisation to the rescue</i>	252
<i>Role of religion</i>	253
<i>Confronting population growth</i>	255
<i>Behaviour change</i>	257
<i>Educating society</i>	258
<i>Pulling our weight</i>	260
<i>Facilitating conservation action and research</i>	261
<i>Appropriate benchmarks of success</i>	262
<i>The fallacy of killing two conservation birds with one stone</i>	265
<i>Community support</i>	268
<i>Decisive action</i>	269
SECTION 6	
Conclusion	273
Conclusion	275

Appendix 1: Species referred to in the text and their conservation status	277
Appendix 2: Traditional owners of the sites mentioned in the text	287
References	292
Index	309

2.0.1	Definitions of the property types within the IUCN Red List	9
2.0.2	List uses are ten years or three generations – whichever is longer	9
2.0.3	IUCN threat and the most applicable potential response	10
2.0.4	Map of South Africa's Western Cape Province showing locations mentioned in the text	14
2.1	Map of Australasia showing locations mentioned in the text	19
2.2	The south-west corner of Western Australian and the pale of the vast Wheatbelt bioregion that has largely been cleared of trees	27
2.3	Map of Asia showing locations mentioned in the text	30
2.4	Map of East Africa showing locations mentioned in the text	36
2.5	Map of South Africa's Eastern Cape Province showing locations mentioned in the text	38
2.6	Map of Australia's east coast showing the area protected under national parks (dark shading) and state forests (pale shading)	58
2.7	Photographs of examples of the vegetation within quokka swamps after fire burnt the area: 1 month ago, 12 years ago, and over 20 years ago	66
2.8	Map of South Africa's Kruger National Park region showing locations mentioned in the text	68
2.9	Unvalidated index of abundance of <i>Sorex</i> at Scotia Sanctuary and population estimates of bridled nailtail wallabies	83
2.10	Map of UK showing locations mentioned in the text	91
