
Table of Contents

intro	Introduction to survey data manual
svy	Introduction to survey commands
lincom for svy	Estimate linear combinations after survey estimation
ml for svy	Pseudo-maximum-likelihood estimation for survey data
nonlinear for svy	Nonlinear combinations, predictions, and tests for survey data
svy estimators	Estimation commands for complex survey data
svydes	Describe survey data
svymean	Estimate means, totals, ratios, and proportions for survey data
svyset	Set variables for survey data
svytab	Tables for survey data
test for svy	Test linear hypotheses after survey estimation
