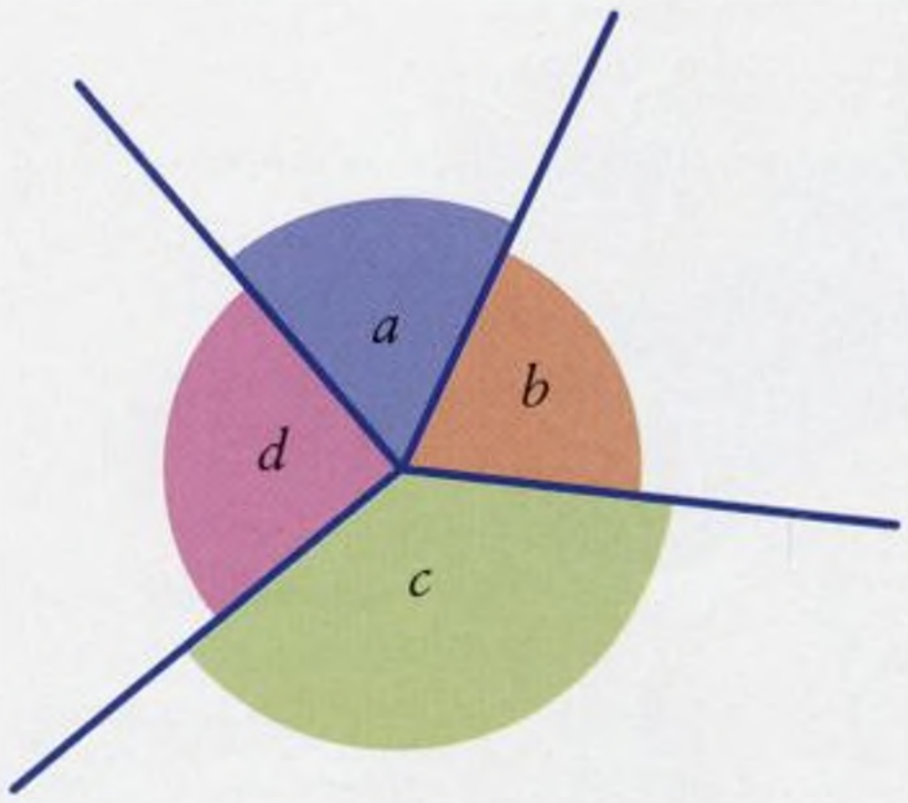
Contents

Number and arithmetic

10 Introducing numbers
11 Decimals
12 Written addition and subtraction
13 Adding and subtracting decimals
14 Negative numbers
15 Multiplying and dividing by 10, 100, and 1,000
16 Methods of multiplication
18 Methods of division
20 Mental addition and subtraction
21 Mental multiplication and division
22 Powers of numbers
23 Factors and multiples
24 Prime numbers
25 Prime factorization
26 Common factors and multiples
28 Order of operations



Angles and shapes

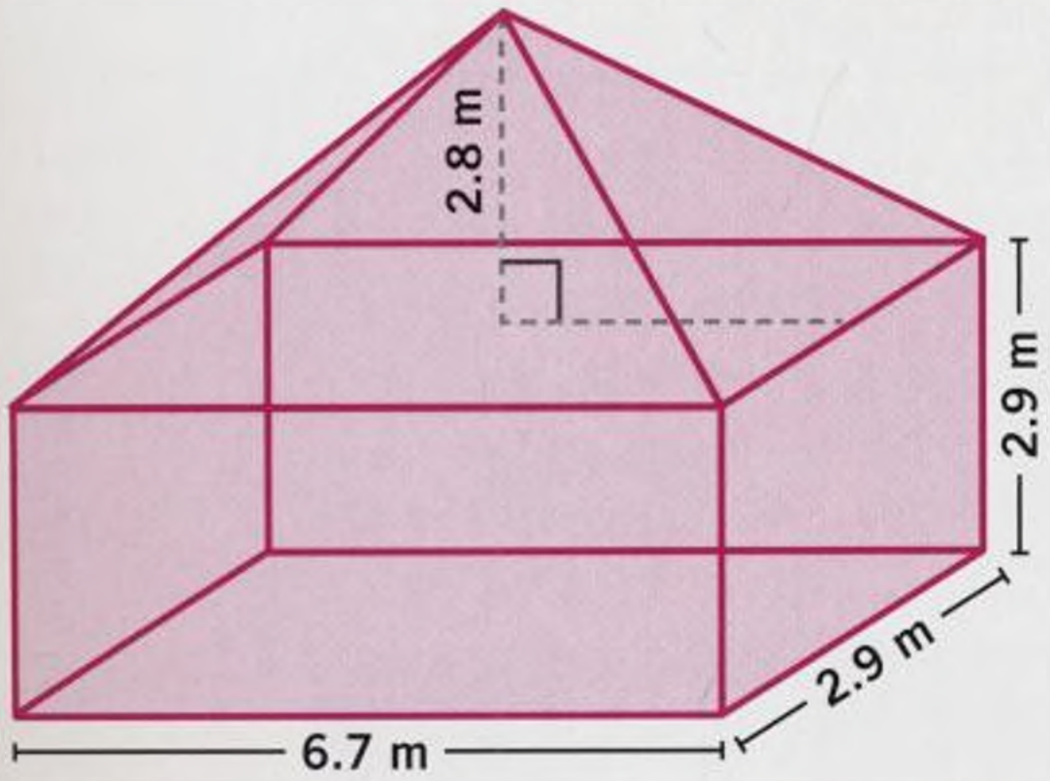
30 Angles
31 Angle facts
32 Angles and parallel lines
34 Measuring and drawing angles
35 Symmetry
36 Properties of triangles
37 Properties of quadrilaterals
38 Properties of polygons
39 Angles in a triangle
40 Angles in a quadrilateral
41 Exterior angles of a polygon
42 Interior angles of a polygon
43 Properties of a circle
44 Practice question: Working with angles

Fractions, decimals, and percentages

46 Fractions
47 Improper fractions and mixed numbers
48 Comparing fractions
49 Adding and subtracting fractions
50 Fraction of an amount
51 Multiplying fractions
52 Dividing fractions
54 Percentages
55 Fractions, decimals, and percentages
56 Percentage of an amount
57 Mental percentage calculations
58 Finding the percentage change
59 Percentage increase and decrease
60 Reverse percentages
61 Growth and decay
62 Compound interest
63 Recurring decimals
64 Recurring decimals and fractions

Measure

66 Metric units of measure and time
67 Imperial units of measure
68 Converting units of measure
69 Converting units of area and volume
70 Compound units of measure
72 Practice questions: Working with compound units
73 Perimeter and area
74 Area formulas
75 How area formulas work
76 Circumference and area of a circle
77 Length of an arc and area of a sector
78 Practice questions: Compound 2D shapes
79 3D shapes
80 3D cross-sections
81 Plans and elevations
82 Volume of a rectangular prism
83 Surface area of a rectangular prism
84 Volume and surface area of a prism
85 Volume and surface area of a cylinder
86 Volume and surface area of a pyramid
87 Volume and surface area of a cone
88 Volume and surface area of a sphere
89 Practice questions: Compound 3D shapes
90 Rounding and estimating
92 Bounds of accuracy



Introducing algebra

95 Algebraic terms
96 Expressions
97 Substitution
98 Exponents in algebra
99 Expanding parentheses
100 Expanding quadratics
101 Factoring
102 Factoring quadratics
104 Factoring harder quadratic expressions
105 The difference of two squares
106 Algebraic fractions
107 Adding and subtracting algebraic fractions
108 Multiplying and dividing algebraic fractions
109 Formulas
110 Rearranging formulas
111 Functions
112 Inverse functions
113 Composite functions

Powers and calculations

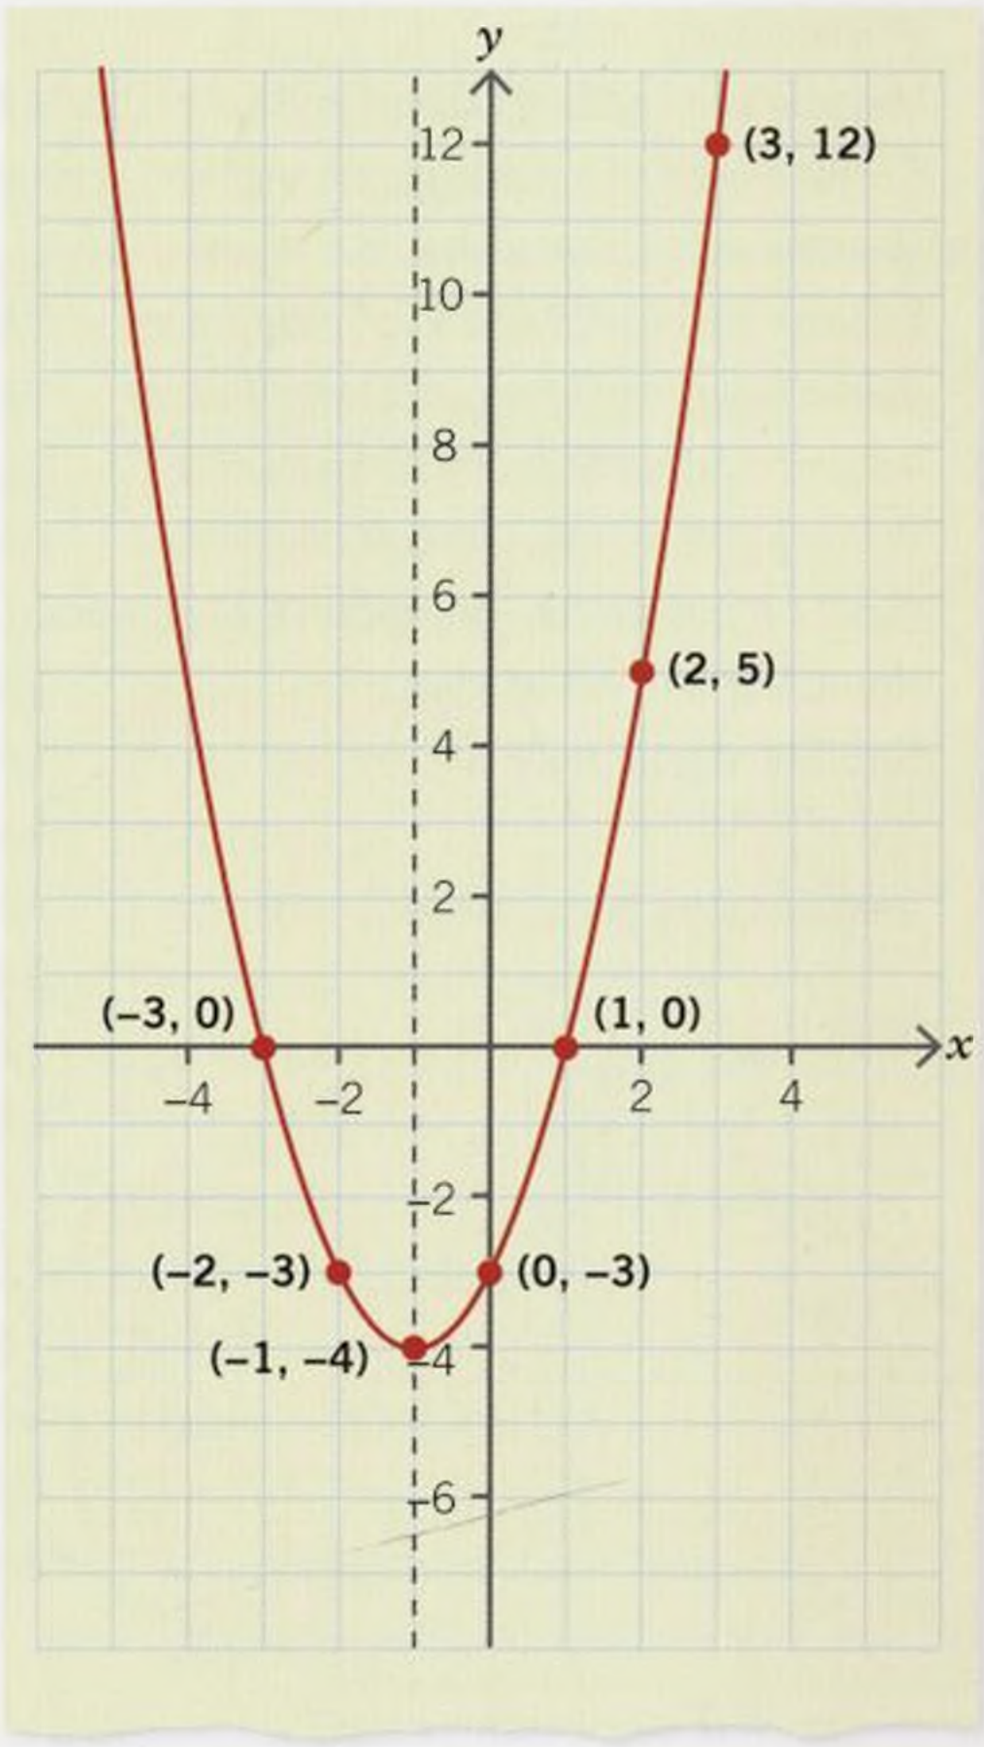
115 Higher powers and estimating powers
116 Roots
117 Negative powers
118 Multiplying and dividing with powers
119 Raising a power to a power
120 Fractional powers and roots
121 Practice questions: Calculating with powers
122 Irrational square roots and irrational numbers
123 Simplifying square root expressions
124 Irrational square roots in fractions
125 Exact calculations
126 Scientific notation
127 Multiplying and dividing with scientific notation
128 Adding and subtracting with scientific notation

Equations and graphs

130 Equations
131 Solving simple equations
132 Solving harder equations
133 Equations with parentheses
134 Simultaneous equations
136 Practice question: Real-world simultaneous equations
137 Solving simple quadratic equations
138 Solving harder quadratic equations
139 Completing the square
140 How to complete the square
141 The quadratic formula
142 Practice question: Choosing a method for quadratic problems
143 Trial and error
144 The coordinate grid
145 Linear graphs
146 Equation of a line
147 Parallel and perpendicular lines
148 Length and midpoint of a line segment
149 Quadratic graphs
150 Quadratics in the real world
152 Solving simple equations using graphs
153 Solving harder equations using graphs
154 Inequalities
155 Graphing linear inequalities
156 Quadratic inequalities

Ratio and proportion

158 Ratios
159 Dividing in a given ratio
160 Direct proportion
161 Inverse proportion
162 Unitary method
163 Scaling method
164 Proportion
165 Comparing proportions
166 Proportion equations
167 Practice questions: Ratio and proportion



Geometry

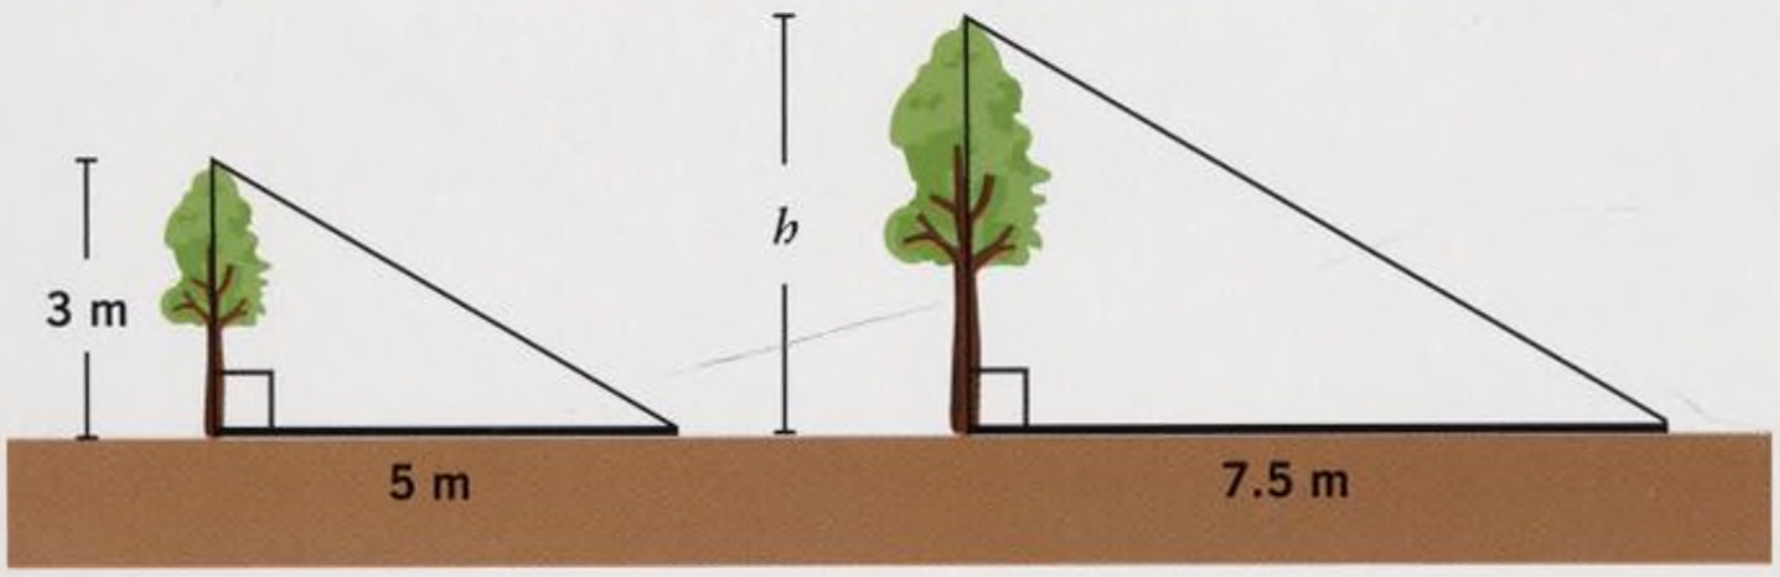
169 Vectors
170 Working with vectors
171 Adding and subtracting vectors
172 Multiplying vectors
173 Practice question: Vectors and geometry
174 Translations
175 Reflections
176 Rotations
177 Constructing rotations
178 Dilations
179 Fractional and negative dilations
180 Scaling area and volume
181 Practice questions: Combinations of transformations
182 Scale drawings
183 Bearings
184 Constructing perpendicular lines
185 Constructing angles
186 Loci
187 Practice questions: Using loci
188 Congruent and similar shapes
189 Congruent triangles
190 Similar triangles
191 Practice questions: Similarity and congruence
192 Constructing triangles
193 Circle theorems 1
194 Circle theorems 2

Trigonometry

196 The Pythagorean theorem
197 Trigonometry
198 Sine, cosine, and tangent
199 Finding lengths and angles
200 Special angles
201 The law of sines
202 The law of cosines
203 Area of a triangle
204 Practice question: Using trigonometry
205 Angles of elevation and depression
206 Pythagoras in 3D
207 Practice question: 3D trigonometry

Probability

209 Probability scale
210 Calculating probability
211 Mutually exclusive events
212 Counting outcomes
213 Probability of two events
214 Tree diagrams
215 Conditional probability
216 Conditional probability tables
217 Venn diagrams
218 Venn diagrams and probability
219 Relative frequency
220 Frequency trees
221 Probability distributions



Statistics

223 Statistical inquiry
224 Types of data
225 Populations and samples
226 Frequency tables
227 Bar charts
228 Pictograms
229 Line graphs
230 Pie charts
231 Mean, median, mode, and range
232 Frequency tables and typical values
234 Standard deviation
235 Practice question: Using standard deviation
236 Cumulative frequency
237 Quartiles
238 Histograms
239 Drawing histograms
240 Time series
241 Box plots
242 Practice questions: Comparing distributions
243 Scatter graphs
244 Lines of best fit

Further graphs

246 Distance-time graphs
247 Speed-time graphs
248 Area under a curve
249 Slope of a curve
250 Linear real-life graphs
251 Nonlinear real-life graphs
252 Domain and range of a function
254 Cubic graphs
255 Reciprocal graphs
256 Exponential graphs
258 Trigonometric graphs
260 Transformations of graphs
262 Equation of a circle

Sequences

265 Number sequences
266 Term-to-term rule
267 Position-to-term rule
268 Finding the nth term
269 The nth term formula
270 Arithmetic pattern sequences
271 Arithmetic series
272 Square and cube number sequences
273 The triangular number sequence
274 Quadratic sequences
276 Geometric sequences
278 The Fibonacci sequence

280 Glossary
284 Index
288 Acknowledgments
