SECTION I *Fundamentals*

Chapter 1 Light 3

 1.1 Introduction 3

 1.2 Light and Radiation 3

 1.3 CIE Standard Observers 5

 1.4 Photometric Quantities 6

 1.5 Some Limitations 10

 1.6 Colorimetric Quantities 12

 1.6.1 CIE Colorimetry System 12

 1.6.2 Colour Order Systems 18

 1.6.3 Application Metrics 21

 1.6.3.1 Correlated Colour Temperature 21

 1.6.3.2 CIE Colour Rendering Index 23

 1.6.3.3 Colour Vector Maps 24

 1.6.4 Colour Quality 25

 1.6.4.1 Refined Colour Rendering 25

 1.6.4.2 Colour Gamut 25

 1.6.4.3 Spectrum-Based Colour Metrics 27

 1.6.4.4 Colour Appearance Models 27

 1.6.4.5 Scotopic/Photopic Ratio 27

 1.6.4.6 Conclusion 27

 1.7 Sources of Light 28

 1.7.1 Natural Light 28

 1.7.2 Artificial Light: Flame Sources 30

 1.7.3 Artificial Light Sources: Electric/General
 Illumination 31

 1.7.3.1 Incandescent Lamp 31

 1.7.3.2 Tungsten Halogen Lamp 31

 1.7.3.3 Fluorescent Lamp 33

 1.7.3.4 Mercury Vapour Lamp 33

 1.7.3.5 Metal Halide Lamp 34

 1.7.3.6 Low-Pressure Sodium Lamp 34

1.7.3.7	High-Pressure Sodium Lamp	34
1.7.3.8	Electrodeless Lamps	35
1.7.3.9	Light-Emitting Diodes	35
1.7.3.10	Others.....	36
1.7.4	Light Source Characteristics	36
1.7.5	Artificial Light Sources: Electric/Signs and Signals	37
1.7.5.1	Electroluminescent Lamps	38
1.7.5.2	Radioluminescent Lamps	38
1.8	Control of Light Distribution.....	38
1.9	Control of Light Output.....	39
1.10	Summary	40
Chapter 2	Visual System.....	43
2.1	Introduction	43
2.2	Structure of the Visual System.....	43
2.2.1	Visual Field	43
2.2.2	Eye Movements	43
2.2.3	Optics of the Eye	46
2.2.4	Structure of the Retina	48
2.2.5	Functioning of the Retina.....	50
2.2.6	Central Visual Pathways.....	52
2.2.7	Colour Vision	54
2.2.8	Conclusions	57
2.3	Continuous Adjustments of the Visual System	57
2.3.1	Adaptation	57
2.3.2	Photopic, Scotopic and Mesopic Vision.....	60
2.3.3	Accommodation	63
2.4	Capabilities of the Visual System.....	63
2.4.1	Threshold Measures	64
2.4.1.1	Spatial Threshold Measures	64
2.4.1.2	Temporal Threshold Measures	66
2.4.1.3	Colour Threshold Measures.....	66
2.4.2	Factors Determining Visual Threshold.....	66
2.4.3	Spatial Thresholds.....	67
2.4.4	Temporal Thresholds.....	74
2.4.5	Colour Thresholds	77
2.4.6	Interactions	78
2.5	Perception through the Visual System	82
2.5.1	Perceptual Constancies.....	83
2.5.2	Modes of Appearance	85
2.6	Summary	88

Chapter 3	Non-Image-Forming System.....	91
3.1	Introduction	91
3.2	Some Physiology	91
3.3	Circadian Timing System.....	93
3.3.1	Retina	95
3.3.2	Suprachiasmatic Nuclei	95
3.3.3	Pineal Gland.....	95
3.4	Characteristics of the Circadian Timing System.....	96
3.4.1	Phase Shifting	98
3.4.2	Melatonin Suppression	100
3.4.3	Spectral Sensitivity.....	101
3.4.4	Amount of Light.....	103
3.5	Awakening System	105
3.6	Pupil Size.....	107
3.7	Problems and Potential	108
3.8	Summary	109

SECTION II Generalities

Chapter 4	Lighting and Work	115
4.1	Introduction	115
4.2	Overview	115
4.3	Light, Work and the Visual System.....	120
4.3.1	Field Studies	121
4.3.2	Simulated Work.....	124
4.3.3	Analytical Methods	126
4.3.4	Visibility Approach	129
4.3.5	Relative Visual Performance Model	131
4.3.6	Some Limitations	141
4.4	Light, Work and the Non-Image-Forming System.....	143
4.4.1	Light and Work at Night.....	143
4.4.2	Light and Work by Day	147
4.4.3	Working with Sleep Deficit	148
4.5	Light, Work, Mood and Motivation.....	153
4.6	Summary	158
Chapter 5	Lighting and Visual Discomfort	163
5.1	Introduction	163
5.2	Characteristics of Visual Discomfort.....	163
5.3	General Causes of Visual Discomfort.....	164

5.4	Specific Causes of Visual Discomfort.....	165
5.4.1	Uniformity.....	165
5.4.2	Glare.....	170
5.4.2.1	Disability Glare	171
5.4.2.2	Discomfort Glare	172
5.4.2.3	Overhead Glare.....	180
5.4.3	Veiling Reflections	180
5.4.4	Shadows.....	183
5.4.5	Flicker.....	183
5.5	Discomfort, Performance and Behaviour.....	187
5.6	Visual Discomfort and Lighting Quality	189
5.7	Summary	193
Chapter 6	Lighting and the Perception of Spaces and Objects.....	195
6.1	Introduction	195
6.2	Simple Perceptions	196
6.2.1	Lightness	197
6.2.2	Brightness.....	197
6.2.2.1	Luminance and Brightness	197
6.2.2.2	Light Distribution and Brightness	199
6.2.2.3	Luminaire Luminance and Brightness.....	202
6.2.2.4	Light Spectrum and Brightness	202
6.2.2.5	Sparkle	208
6.2.3	Visual Clarity?	210
6.2.4	Colour Appearance.....	210
6.3	Higher-Order Perceptions.....	213
6.3.1	Correlation Method	213
6.3.2	Multidimensional Methods	214
6.4	Perception of Objects.....	222
6.5	Summary	228

SECTION III Specifics

Chapter 7	Lighting for Offices.....	233
7.1	Introduction	233
7.2	Illuminance.....	234
7.3	Light Sources for Office Lighting	238
7.3.1	Daylight	238
7.3.2	Electric Light Sources	244
7.3.2.1	Light Spectra and Chromatic Tasks.....	244
7.3.2.2	Light Spectra and Achromatic Tasks.....	247
7.3.2.3	Light Spectra and Alertness	251
7.3.2.4	Preferred Light Spectrum	253

5.4	Specific Causes of Visual Discomfort.....	165
5.4.1	Uniformity	165
5.4.2	Glare	170
5.4.2.1	Disability Glare	171
5.4.2.2	Discomfort Glare	172
5.4.2.3	Overhead Glare	180
5.4.3	Veiling Reflections	180
5.4.4	Shadows.....	183
5.4.5	Flicker.....	183
5.5	Discomfort, Performance and Behaviour.....	187
5.6	Visual Discomfort and Lighting Quality	189
5.7	Summary	193
Chapter 6	Lighting and the Perception of Spaces and Objects.....	195
6.1	Introduction	195
6.2	Simple Perceptions	196
6.2.1	Lightness	197
6.2.2	Brightness.....	197
6.2.2.1	Luminance and Brightness	197
6.2.2.2	Light Distribution and Brightness	199
6.2.2.3	Luminaire Luminance and Brightness	202
6.2.2.4	Light Spectrum and Brightness	202
6.2.2.5	Sparkle	208
6.2.3	Visual Clarity?	210
6.2.4	Colour Appearance.....	210
6.3	Higher-Order Perceptions.....	213
6.3.1	Correlation Method	213
6.3.2	Multidimensional Methods	214
6.4	Perception of Objects.....	222
6.5	Summary	228

SECTION III *Specifics*

Chapter 7	Lighting for Offices.....	233
7.1	Introduction	233
7.2	Illuminance.....	234
7.3	Light Sources for Office Lighting	238
7.3.1	Daylight	238
7.3.2	Electric Light Sources	244
7.3.2.1	Light Spectra and Chromatic Tasks.....	244
7.3.2.2	Light Spectra and Achromatic Tasks.....	247
7.3.2.3	Light Spectra and Alertness	251
7.3.2.4	Preferred Light Spectrum	253

7.4	Lighting Systems	258
7.4.1	Daylight Delivery Systems	258
7.4.2	Electric Lighting Delivery Systems	264
7.4.2.1	Preferences	266
7.4.2.2	Performance	267
7.4.2.3	Lighting and Electronic Displays	269
7.5	Lighting Controls	274
7.5.1	Window Lighting Controls	275
7.5.1.1	Manual Window Controls	275
7.5.1.2	Automatic Window Controls	276
7.5.2	Electric Lighting Controls	277
7.5.2.1	Manual Electric Lighting Controls	277
7.5.2.2	Automatic Electric Lighting Controls	281
7.6	Summary	283
Chapter 8	Lighting for Industry	287
8.1	Introduction	287
8.2	Problems Facing Lighting in Industry	287
8.3	General Lighting	288
8.4	Localized and Task Lighting	294
8.5	Visual Inspection	294
8.6	Special Situations	305
8.7	Summary	308
Chapter 9	Escape Lighting	311
9.1	Introduction	311
9.2	Escape Lighting in Context	311
9.2.1	Information on the Presence of a Hazard	312
9.2.2	Information on the Recommended Course of Action	314
9.2.3	Information on Carrying Out the Recommended Course of Action	315
9.3	Operating Conditions	315
9.4	Exit Signs	316
9.5	Escape Route Lighting	320
9.5.1	Ceiling- and Wall-Mounted Luminaires	320
9.5.2	Path Marking	326
9.6	Special Situations	332
9.6.1	Smoke	332
9.6.2	People with Defective Colour Vision	343
9.6.3	People with Low Vision	346
9.6.4	People with Limited Mobility	348
9.7	Escape Lighting in Practice	348
9.8	Summary	349

Chapter 10	Lighting for Driving	351
10.1	Introduction	351
10.2	Vehicle Forward Lighting.....	351
10.2.1	Technology	352
10.2.2	Regulation	352
10.2.3	Headlamps in Practice.....	355
10.2.4	Headlamps and Light Spectrum.....	358
10.2.5	Glare from Headlamps	363
10.2.6	Fog Lamps.....	371
10.2.7	Innovations	373
10.3	Vehicle Signal Lighting	376
10.3.1	Technology	376
10.3.2	Regulation	377
10.3.3	Front Position Lamps	379
10.3.4	Rear Position Lamps	379
10.3.5	Side Marker Lamps	379
10.3.6	Retroreflectors	380
10.3.7	Turn Lamps	380
10.3.8	Stop Lamps.....	382
10.3.9	Hazard Flashers.....	384
10.3.10	Rear Fog Lamps	384
10.3.11	Reversing Lamps	385
10.3.12	Daytime Running Lamps	386
10.3.13	Emergency Vehicle Lighting	389
10.3.14	Improving Vehicle Signal Lighting	389
10.4	Road Lighting	391
10.4.1	Technology	392
10.4.2	Standards	393
10.4.3	Spectral Effects	395
10.4.4	Benefits of Road Lighting	401
10.4.5	Interaction between Vehicle and Road Lighting	411
10.5	Markings, Signs and Traffic Signals	416
10.5.1	Fixed Road Markings.....	416
10.5.2	Fixed Signs	417
10.5.3	Changeable Message Signs	419
10.5.4	Traffic Signals	423
10.6	Summary	425
Chapter 11	Lighting for Pedestrians	427
11.1	Introduction	427
11.2	What Pedestrians Want from Lighting.....	427
11.3	Lighting Criteria.....	428
11.4	Lighting for Safe Movement.....	431
11.4.1	Collisions, Trips and Falls.....	431
11.4.2	Crossing the Road	436

11.5	Lighting for Security	441
11.5.1	Spatial Brightness.....	443
11.5.2	Visual Performance.....	447
11.6	Lighting, Comfort and Attraction.....	450
11.7	Completing the Picture	455
11.8	Summary	456
Chapter 12	Lighting and Crime	459
12.1	Introduction	459
12.2	Some History	459
12.3	Lighting as a Crime Prevention Measure	460
12.4	The Reason Why	468
12.5	Essential Characteristics of Lighting	471
12.5.1	Illuminance	471
12.5.2	Illuminance Uniformity	475
12.5.3	Glare	476
12.5.4	Light Source Colour	477
12.5.5	Design Approaches.....	480
12.6	Special Situations	481
12.6.1	Fenced Areas	481
12.6.2	Gatehouses	482
12.6.3	Unfenced Areas	482
12.6.4	Facade Lighting	482
12.6.5	Closed-Circuit Television	483
12.7	Generalization and Value	484
12.8	Summary	484
Chapter 13	Lighting for the Elderly	487
13.1	Introduction	487
13.2	Optical Changes with Age.....	487
13.3	Neural Changes with Age.....	491
13.4	Vision Loss	491
13.5	Effects of Age on Visual Capabilities	497
13.6	Effects of Age on Real Visual Tasks	503
13.7	Effects of Age on the Circadian Timing System.....	506
13.8	What Can Be Done to Offset the Effects of Age?	506
13.8.1	Changing the Optics	507
13.8.2	Changing the Task.....	508
13.8.3	Changing the Lighting	511
13.8.4	Eliminating the Task	517
13.9	Summary	518

Chapter 14	Light and Health.....	521
14.1	Introduction	521
14.2	Light as Radiation.....	521
14.2.1	Tissue Damage	521
14.2.1.1	Tissue Damage by UV Radiation	522
14.2.1.2	Tissue Damage by Visible and Near-IR Radiation.....	523
14.2.1.3	Tissue Damage by IR Radiation	526
14.2.2	Threshold Limit Values.....	527
14.2.3	Hazardous Light Sources	527
14.2.4	Practical Considerations.....	528
14.2.5	Special Groups	529
14.2.6	Positive Effects	530
14.2.6.1	Air Purification.....	530
14.2.6.2	Phototherapy: Hyperbilirubinemia.....	531
14.2.6.3	Phototherapy: Skin Diseases	531
14.2.6.4	Phototherapy: Internal Tumours	531
14.2.6.5	Phototherapy: Immune System.....	531
14.2.7	Aging Effects.....	532
14.3	Light Operating through the Visual System.....	532
14.3.1	Eyestrain.....	532
14.3.2	Falls	533
14.3.3	Migraine	534
14.3.4	Autism	536
14.4	Light Operating through the Circadian Timing System	537
14.4.1	Sleep	537
14.4.2	Seasonally Affective Disorder	538
14.4.3	Alzheimer's Disease	539
14.5	Unresolved Issues	543
14.5.1	Cancer	543
14.5.2	Vitamin D Deficiency.....	544
14.5.3	Adequate Light Dose.....	545
14.5.4	Recovery from Surgery	546
14.5.5	Short-Wavelength Light and Macular Degeneration	547
14.6	Summary	547
Chapter 15	Light Pollution.....	549
15.1	Introduction	549
15.2	Forms of Light Pollution	549
15.3	Causes of Light Pollution	551
15.3.1	Sky Glow	551
15.3.2	Light Trespass	553
15.3.3	Glare	553
15.4	Consequences of Light Pollution.....	553

15.5	Reactions to Light Pollution	554
15.6	Limiting Light Pollution.....	558
15.6.1	Need	558
15.6.2	Technology	559
15.6.3	Design.....	561
15.6.4	Timing	566
15.7	The Future	567
15.8	Summary	568
Chapter 16	Lighting and Electricity Consumption	571
16.1	Introduction	571
16.2	Legal Status	571
16.3	Trends in Lighting Regulation.....	572
16.4	Trends in Lighting Recommendations	576
16.5	Design.....	579
16.6	Load Shedding.....	586
16.7	Summary	589
Chapter 17	The Way Ahead.....	593
17.1	Introduction	593
17.2	Background.....	593
17.3	Problems with New Technology.....	594
17.4	Problems with New Knowledge	595
17.5	Problems with Increased Pressure.....	597
17.6	Research Approaches	598
17.7	New Tools	602
17.8	Evaluating Research	603
17.9	Summary	609
References		611
Index		667
