Names: Matina, Barbara M. (Barbara Matina)
Title: Growth, maturation, and development : a lifespan perspective / Barbara M. Matina.
Other titles: Growth, maturation, and development : a lifespan perspective

Description: First edition. | xii, 260 pages : illustrations ; 26 cm

Subjects: Growth and development. | Human development.

Classification: LCC Q128.2 .M37 2006 | DDC 362.1—dc22

107-178432 | ISBN 978-0-7360-8326-2 | ISBN 0-7360-8326-1

Preface xi | Published online in the Growth section, 2006

Acknowledgments xiii

Introduction to Growth and Maturation

xv

Growth, Maturation, and Development xv

The Study of Growth and Maturation xvii

Prenatal Development xix

Introduction to Postnatal Growth xxiii

Summary xxiv

PART I Growth in Body Size, Proportions, and Body Composition 1

CHAPTER 1 Growth in Size and Proportions 3

Measurement of Body Dimensions 3

Growth in Stature and Weight 9

Rates of Growth in Height and Weight 20

Attainment of Adult Stature 22

Body Mass Index 23

Growth in Other Dimensions and Proportions 23

Ethnic Variation 28

Tracking 30

Summary 33

Review Questions 33

CHAPTER 2 Composition of the Body 35

Body Composition: Concept and Models 35

Methods for Estimating Body Composition 37

Applications to Children and Adolescents 41

Growth in Fat-Free Mass, Fat Mass, and Percent Fat 45

Body Mass Index and Body Composition 50

Summary 52

Review Questions 53

CHAPTER 3 Bone Growth and Bone Tissue 55

Bone Tissue 55

Growth of Long Bones 57

Bone as a Component of Body Composition 61

Summary 69

Review Questions 69

CHAPTER 4	Adipose Tissue	71
	Adipose Cells and Adipose Tissue 71	
	Adipose Tissue in Postnatal Life 72	
	Subcutaneous Fat During Growth 74	
	Subcutaneous Fat Distribution 77	
	Abdominal Visceral Fat 80	
	Stability of Body Fat and Fat Distribution 82	
	Summary 83	
	Review Questions 83	
CHAPTER 5	Skeletal Muscle	85
	Muscle as a Tissue 85	
	Myogenesis 86	
	Muscle Fiber Size 88	
	Assessment of Muscle Mass 89	
	Regional Development of Muscle Mass 91	
	Ethnic Variation 96	
	Summary 97	
	Review Questions 97	
PART II	Biological Maturation	99
CHAPTER 6	Biological Maturation: Concept and Methods	101
	Maturity Status 102	
	Maturity Timing 118	
	Summary 122	
	Review Questions 123	
CHAPTER 7	Maturity Status and Timing	125
	Maturity Status 125	
	Maturity Timing 134	
	Tempo of Maturation 143	
	Predicted Maturity Status and Timing 146	
	Interrelationships Among Maturity Indicators 148	
	Summary 154	
	Review Questions 154	
CHAPTER 8	Maturity Status and Associated Variation in Growth Status and Body Composition	155
	Classifying Children and Adolescents by Maturity Status 155	
	Concordance Among and Between Methods 158	
	Maturity-Associated Variation in Body Size and Composition 165	
	Changes in Body Dimensions and Composition Relative to Peak Height Velocity 174	
	Summary 177	
	Review Questions 177	

PART III	Factors Influencing Growth and Maturity Status and Timing	179
CHAPTER 9	Hormonal Regulation of Growth and Maturation	181
Preface x	Overview of Hormonal Control 181	
Acknowledgments	Hypothalamus and Pituitary Gland 183	
28	Growth Hormone and Related Growth Factors 184	
PART I	Thyroid Hormones 187	
ee	Parathyroid Glands 189	
for	Adrenal Glands: Cortex and Medulla 189	
101	Gonads and Gonadal Hormones 190	
101	Insulin and Glucagon 195	
101	Leptin 196	
101	Regulation of Puberty 197	
101	Menarche and the Menstrual Cycle 197	
101	Summary 199	
101	Review Questions 199	
CHAPTER 10	Genetic Influences on Growth and Maturation	201
ee	Genotype and Phenotype 201	
ee	Heritability 202	
ee	Genetics of Prenatal Development and Growth 203	
ee	Genetics of Stature and Weight 204	
ee	Genetics of Maturation 206	
ee	Genetics of Body Composition 209	
ee	Summary 211	
ee	Review Questions 211	
CHAPTER 11	Nutritional and Energy Needs	213
CHAPTER 2	Nutrients 213	
CHAPTER 2	Dietary Reference Intakes 214	
CHAPTER 2	Energy Needs 218	
CHAPTER 2	Energy Cost of Growth 224	
CHAPTER 2	Energy and Dietary Intakes of American Children and Adolescents 226	
CHAPTER 2	Evaluating Nutritional Status 228	
CHAPTER 2	Prevalence of Undernutrition, Overweight, and Obesity 230	
CHAPTER 2	Chronic Undernutrition and Growth 232	
CHAPTER 2	Obesity and Growth 238	
CHAPTER 2	Summary 240	
CHAPTER 2	Review Questions 240	
CHAPTER 3	Maturity Status and Body Composition	221
221	Characterizing Children and Adolescents by Maturity Status 222	
221	Bone Tissue 225	
221	Growth of Long Bone 227	
221	Bone as a Compartiment 228	
221	Summary 229	
221	Review Questions 229	
CHAPTER 4	Adipose Tissue in Postnatal Life	235
235	Supercapillaries for Distribution 236	
235	Adipose Vascular Fat 237	
235	Stability of Body Fat 238	
235	Summary 238	
235	Review Questions 238	
CHAPTER 5	Skeletal Muscle	241
241	Muscle as Tissue 242	
241	Muscle Fiber Size 242	
241	Assessment of Muscle Mass 243	
241	Regional Variation 245	
241	Epiphysis 245	
241	Summary 245	
241	Review Questions 245	
CHAPTER 6	Biological Maturation	253
253	Maturity Status 254	
253	Maturity Timing 254	
253	Summary 255	
253	Review Questions 255	
CHAPTER 7	Maturity Status and Body Composition	265
265	Maturity Status 266	
265	Maturity Timing 266	
265	Summary 267	
265	Review Questions 267	
CHAPTER 8	Maturity Status and Bone Growth	277
277	Characterizing Children and Adolescents by Maturity Status 278	
277	Bone Tissue 278	
277	Growth of Long Bone 279	
277	Bone as a Compartiment 280	
277	Summary 280	
277	Review Questions 280	

CHAPTER 12	Social and Other Factors Influencing Growth and Maturation	241
Socioeconomic Status (SES)	242	
Family Size	246	
Area of Residence	247	
Adverse Childhood Experiences	249	
Institutional Care and Adoption	250	
Smoking and Substance Abuse	251	
Eating Disorders: Concern for Body Weight	253	
Climate and Growth	253	
Summary	256	
Review Questions	256	
CHAPTER 13	Secular Trends in Growth and Maturity Status and Timing	257
Sources and Limitations of Data on Secular Trends	258	
Secular Trends in Body Size	258	
Secular Trends in Body Proportions	267	
Secular Trends in Age at Menarche	267	
Secular Trends in Age at Peak Height Velocity	270	
Secular Trends in Other Maturity Indicators	271	
Secular Trends in Developing Countries	272	
Factors Underlying Secular Trends	273	
Summary	273	
Review Questions	274	
PART IV	Motor Development, Performance, and Physical Activity	275
CHAPTER 14	Motor Development During Infancy and Early Childhood	277
General Concepts	278	
Early Motor Development	279	
Motor Development in Early Childhood	281	
Motor Performance in Early Childhood	288	
Motor Development in the Context of Growth and Maturation	291	
Factors That Affect Motor Development	293	
Summary	302	
Review Questions	302	

CHAPTER 15	Motor Performance During Childhood and Adolescence	303
	Motor Performance, Physical Fitness, and Physical Literacy	303
	Tests of Motor Performance, Strength, and Fitness	304
	Age Trends and Sex Differences in Performance	307
	Performance During Adolescence: Growth Spurts and Adolescent Awkwardness	315
	Performance in the Context of Growth Status	321
	Adjusting for Variation in Body Size: Scaling	322
	Performance Relative to Maturity Status and Timing	325
	Summary	337
	Review Questions	338
CHAPTER 16	Factors Affecting Performance: Genetic, Nutritional, Social, and Secular	339
	Influence of Genotype	339
	Nutritional Status	344
	Social Contexts	350
	Secular Change	358
	Summary	372
	Review Questions	372
CHAPTER 17	Energy Expenditure and Physical Activity: Assessment, Correlates, and Trends	373
	Physical Activity and Energy Expenditure	374
	Methods of Assessing Physical Activity and Energy Expenditure	375
	Trends in Energy Expenditure and Physical Activity With Age and Sex	380
	Age Trends and Sex Differences in Physical Activity Behaviors	383
	Physical Activity Report Cards	391
	Correlates of Physical Activity and Inactivity	391
	Secular Change in Physically Active Behaviors	394
	Secular Change in Physically Inactive Behaviors	398
	Summary	401
	Review Questions	401
CHAPTER 18	Physical Activity as a Factor Affecting Growth, Maturation, Health, Fitness, and Performance	403
	Physical Activity: Evaluating Its Influence	404
	Physical Activity, Growth, and Maturation	404
	Physical Activity and Cardiovascular Health	409
	Physical Activity and Behavioral Health	410
	Overview of Health Benefits and Physical Activity Recommendations	411
	Physical Activity, Fitness, and Performance	412
	Responsiveness to Instructional and Training Programs	413
	Genotype, Practice, and Training	424
	Summary	425
	Review Questions	425

PART V Youth Sports and Youth Athletes 427**CHAPTER 19 Youth Sports: An Overview 429**

Overview of Youth Sport Formats 429
Historical Background of Youth Sport Programs 430
Statistics on Participation in Sport 434
Motivation for Engaging in Sport: Reasons for Participating and Discontinuing Participation 445
Potential Benefits and Risks Associated With Participation in Sport 448
Summary 449
Review Questions 449

CHAPTER 20 Growth and Maturity Status of Male Youth Athletes 451

Growth and Maturity Status of Athletes in Team Sports 453
Growth and Maturity Status of Athletes in Individual Sports 462
Maturity Timing Among Athletes in Different Sports 468
Summary 485
Review Questions 485

CHAPTER 21 Growth and Maturity Status of Female Youth Athletes 487

Growth and Maturity Status of Athletes in Team Sports 487
Growth and Maturity Status of Athletes in Individual Sports 491
Maturity Timing Among Athletes in Different Sports 498
Summary 511
Review Questions 511

CHAPTER 22 Influence of Training for Sport on Growth and Maturation 513

Effects of Training for Sport on Growth and Maturation:
A Historical Overview 514
Limitations of Studies of the Effects of Training on Participants in Youth Sports 515
Growth in Height 515
Body Mass and Composition 516
Bone Mineral 517
Maturity Status and Timing 521
Female Athlete Triad and Relative Energy Deficiency in Sport 522
Summary 524
Review Questions 524

CHAPTER 23 Benefits and Risks of Participation in Youth Sports	525
Objectives of Youth Sports and Associated Benefits	525
Risks Associated With Participation in Sport	530
Early Specialization in Sport	537
Disadvantages of Early Specialization	538
Does Early Specialization Pay Off?	540
Summary	543
Review Questions	544
CHAPTER 24 Talent Development: Accommodating Individual Differences	545
Approaches to Talent Identification and Development	545
Talent Development Models	546
Three Models of Talent Development	547
Accommodating Maturity-Associated Variation	551
Bio-Banding	552
Summary	560
Review Questions	560
References and Suggested Readings	561
Index	645
About the Author	663
CHAPTER 16 Physical Activity and Energy Expenditure	373
Physical Activity and Energy Expenditure	374
Methods of Assessing Physical Activity and Energy Expenditure	374
Trends in Energy Expenditure and Physical Activity With Age and Sex	375
Age Trends and Sex Differences in Physical Activity	375
Physical Activity Report Card	376
Correlates of Physical Activity	377
Secular Change in Physically Active Behaviors	378
Secular Trends in Physical Activity	378
Summary	401
Review Questions	401
CHAPTER 13 Physical Activity as a Factor Affecting Growth, Maturation, Health, Fitness, and Performance	403
Physical Activity and Health	403
Physical Activity, Growth, and Maturation	404
Physical Activity and Cardiorespiratory Health	405
Physical Activity and Behavioral Health	410
Overview of Health Benefits and Physical Activity Recommendations	411
Physical Activity, Fitness, and Performance	412
Resistance Training and Training Programs	413
General Training and Training	424
Summary	425
Review Questions	425
