1	<b>Introduction</b> .....	1
1.1	Introduction to Climate Change .....	2
1.2	Chapter-by-Chapter Descriptions .....	6
1.3	Summary .....	12
1.4	Questions and Exercises .....	13
	References.....	14
2	<b>Science: Why So Urgent?</b> .....	17
2.1	Scientific Background .....	22
2.2	Impact of Global Warming Around the Globe.....	27
2.3	Outlook and Solutions.....	62
2.4	Ten Reasons for Concern About Global Climate Change.....	82
2.5	Questions and Exercises .....	83
	References.....	87
3	<b>Climate Crisis: Code Red for Humanity and Our Home Planet</b> .....	97
3.1	Scientific and Legal Background.....	105
3.2	Effects of Global Warming Around the World.....	107
3.3	Drought and Deluge Worldwide .....	121
3.4	The Summer of 2021 Burned into Memory .....	124
3.5	Questions and Exercises .....	190
	References.....	191
4	<b>Mother Earth vs. Mother Lode</b> .....	199
4.1	Native American Philosophy: Spiritual and Environmental Themes Combined .....	203
4.2	Summary .....	216
4.3	Questions and Exercises .....	218
	References.....	221
5	<b>A Struggle to Survive</b> .....	223
5.1	Effects of Acute Drought on the Navajos and Hopis .....	226
5.2	Questions and Exercises .....	237
	References.....	239
6	<b>Specious Solutions and Speculations</b> .....	243
6.1	The Evidence Becomes More Evident... ..	247
6.2	From Nearly Nonexistent to Existential in One Human Lifetime .....	248
6.3	The Need for Solutions: The Scientific Basis.....	254
6.4	Geo-Engineering: Sulfur as Savior?.....	273
6.5	Is Global Warming Inevitable? A Contrary View .....	291
6.6	Summary: How Do We Get Off the Road to Climatic Hell? .....	293
6.7	Questions and Exercises .....	295
	References.....	298
