SECTION 1:

31th Meeting of the European Working Group on Internal Erosion in Embankment Dams, Dikes and Levees and their Foundations

- Conceptual framework for assessing 3D effects for backward erosion piping 8
V.M. van Beek, J.C. Pol, E. Rosenbrand, H. van Hemert
- Proposal for a digital twin for backward erosion piping experiments..... 14
E.M. van der Linde, M.P. Fransen, P. Arreguín, V. van Beek
- Permeability Coefficient as an Alternative Factor for Determining the Susceptibility of Soil to Hydraulic Heave and its Critical Hydraulic Gradient 18
A. Dąbska, B. Bednarz, K. Borzyński, K. Kawczyński
- Application of the Peak Over Threshold method and the Generalized Pareto Distribution in the estimation of extreme hydraulic gradients in earth dam 39
A. Demianiuk, A. Rutkowska
- Filtration in granular materials: Opening Size of Granular Filters with Non-Spherical Particles 40
A. Abdallah, E. Vincens, H. Magoariec, Ch. Picault
- Jet erosion tests and suffusion tests: energy-based method and responses to engineers' requests 47
D. Marot, L. Guihéneuf, R. Gelet, J.R. Courivaud
- Development of a new criterion for suffusion in low-plasticity tills..... 58
M.A.G. Conte, J. Côté, J.M. Konrad
- Evaluation of Internal Erosion of Tailngs Dams Using Event Tree Approach 64
S. Safavian
- Consequences of scalping and scalping/replacement procedures in the laboratory testing 74
N.S. Nguyen, D. Marot, N. Ali Hassan, F. Bendahmane, J.R. Courivaud
- Laboratory investigation of Suffusion and Suffosion in widely graded soils 84
G. Vinoth, R.J. Fannin, D.N.D. Hartford
- Effect of sample preparation methodology on erosion of cohesive soils using HET 93
S. Youssef, N. Benahmed, S. Nicaise, P. Philippe, A. Bennabi, A. Poupardin
- Combined effect of complex stress states and microstructure on suffusion parameters 100
B. Oli, R. Gelet, D. Marot, F. Bendahmane, N.-S. Nguyen, J.-R. Courivaud

Animal burrows, a new challenge for levees	111
<i>A. Rosso, M. Gardella, A. Bassi, L. Crose</i>	
Setting up a full-scale physical model for backward erosion piping investigation	120
<i>E. Dodaro, E. Tumedei, M. Marchi, A. Höttges, C. Rabaiotti, A. Bassi, L. Crose, A. Cavagni, G. Gottardi, L. Tonni</i>	
Prospective study of the effect of specimen dimensions and hydraulic loading paths on suffusion	127
<i>D. Marot, B. Oli, R. Gelet, F. Bendahmane, J.R. Courivaud</i>	
Proposal for a new numerical model backward erosion piping	138
<i>E.M. van der Linde, O. Colomés, J.P. Aguilar-López</i>	
Assessment of Internal Erosion Risk in the Subsoil of Danube Levees: Insights from a Slovak Case Study	143
<i>J. Škvarka</i>	
Case Study of Internal Erosion Assessment of a Dike Foundation as a Preliminary Diagnostic Phase	153
<i>H. Longtin, J. Brien</i>	
Determination of the geometry of the paleovalley of a river dike using geophysical methods	162
<i>E.J. Fogueng, L. Girolami, S. Bonelli, C. Curt</i>	
History of the Bílá Desná dam failure	166
<i>J. Říha, S. Kotaška</i>	
Underseepage analysis on the Little Hungarian Plain.....	176
<i>E. Koch, R. Ray, M. Maller, G. Bartal</i>	
Quantification of the Velocity of Leaking Flows through a Hydraulic Structure thanks to internal thermal mapping along the Rhine River.....	180
<i>M. Boucher, C. Guidoux, J.-R. Courivaud</i>	
The Response of the River Embankment Systems of the Emilia-Romagna Basins to May 2023 Extensive Floods	188
<i>M. Marchi, I. Bertolini, E. Tumedei, L. Tonni, G. Gottardi</i>	
Second field application of the coarse sand barrier at the city of Tiel	193
<i>A.R. Koelewijn, U. Förster</i>	
Dismantling a 4 m high experimental rockfill dam after four years of operation ..	200
<i>J. Lagerlund, P. Viklander</i>	

SECTION 2:

6th Meeting of the European Working Group on Internal Erosion in Embankment Dams, Dikes and Levees and their Foundations

- Overtopping-Induced Breaching Characteristics of Geomembrane-Faced Rockfill Dam Models 210
F. T. Gebremariam, F. Sigtryggsdóttir, A. H. Tesfay, H. Goitom, L. Lia
- Advancements in modeling the time-rate of rock scour for dams and spillways with the Erodibility Index Method..... 217
M. George, G.W. Annandale
- Embankment Dam Overtopping: An Event Tree Analysis Under Extreme Weather Events 225
N. Kafashan, M. Aufleger
- Combined influence of animal burrows and overflow/overtopping on levee safety 233
A.R. Koelewinj
- Estimation of the dam breach hydrograph of the Bílá Desná with different numerical models 236
S. Kotaška
- Case study damaged clay levees by overtopping 1953 242
A. van Hoven
- Nine years of erosion testing on a lime-treated levee 248
F. Bertola, S. Nicaise, M. Mutti, F. Byron, N. Chaouch, J. Aubriet, S. Bonelli
- Modelling wave overtopping erosion 256
M. van Damme, M. Ebrahimi, C. Alleon
- Capturing Kinematics in Numerical Simulations of Hydraulic Plucking in Fractured Rock 266
M. H. Gardner
- Experimental study of plunge pool below the Nam Pha bottom outlet..... 277
S. Derrien, M. Roy, P.E. Loisel, G. Mathieu, B. Hasnaoui
- Numerical tools for Assessment of Rock Scour by Overtopping Jets..... 287
E.F.R. Bollaert
- Design of a temporary in-situ overflow test facility at Vlassenbroek, Belgium 296
K. Verelst, J. Vercruysse, P. Peeters, S. Nollet
