## Empirical Approaches

**Rendering Cliché? Visual Consumption of Video Games as Virtual-Space Leisure Activities** ..... 137  
Dominik Kremer, Naomi Pappenberger-Muench, Martin Fuchs, Sarah Jelinski, Barbara Feulner, and Blake Byron Walker

**Right-Wing Images of Space and *Völkisch* Identity Constructions in ‘Heimat Defender: Rebellion’** ..... 159  
Sabine Lippert

**Training Beyond Boundaries? Virtual Reality Scenario Training as Worldmaking for Complex, Life-Threatening Situations** ..... 181  
León von der Burg, Jasper Janssen, and Johannes Ebenau

**“Crashing in Flyover Country: Metaregionalism in *Far Cry 5*”** ..... 199  
Sascha Pöhlmann

**The Urban Surveillance Script: *Beat Cop* and the Policing of Diversity** ..... 219  
Dietmar Meinel

**Populating Digital Spaces: Learning from Players of Massive Multiplayer Online Games as Early Settlers in the Digital Ecosystem** ..... 231  
Gernot Hausar

## Practical Contributions

**Games for Exploring Popular Geopolitics in Higher Education** ..... 249  
Daniel Bos

**Computer Games as Traces. Field Trips, Location-Based Games, and Systems Theory** ..... 261  
Robert Lämmchen

**Self-transcendence Motivated Decisions in Water Governance—Learning by Playing the Serious Game *AquaRepublica*** ..... 275  
Laura Gilbert, Steven Jean, Wietske Medema, and Jan Adamowski

**Enhancing the Teaching of Key Concepts and System Thinking Through Reflexive Approaches in Open-World Games: A Best Practice Model for Higher Education Lectures and Seminars in Geography** ..... 297  
Michael Morawski
