

Contents

Author bio	5
Introduction	7
1 Optical Sensors	9
1.1 Polarization sensing	9
1.2 Distributed Optical Fiber Sensor (DOFS)	11
2 Examples	14
2.1 Research on Train Detection Using SOP Change Monitoring	14
2.1.1 Setup Description	15
2.1.2 Results and discussion	16
2.2 Enhancing Fiber Security Using a Simple State of Polarization Analyzer and Machine Learning	17
2.2.1 Proposed Methodology	18
2.2.2 Results and Discussion	20
2.3 DAS and CNN for Enhanced Event Classification	21
2.3.1 Proposed methodology	21
2.3.2 Results and discussion	22
3 Joint Sensing and Communication	24
4 Conclusion	26
Bibliography	29
Abstract	33
