List of abbreviations	11
Introductory remarks	15
Description of the research problem and methodology	15
Reason for choice of topic	22
The body of doctrine	25
1 Emerging technologies in medicine	33
1.1 Introduction	33
1.2 Systematics of the application of modern technology for practical use in medicine	33
1.2.1 Digital medicine.	33
1.2.2 eHealth	35
1.2.3 mHealth.	36
1.2.4 Telehealth	38
1.2.5 Sensory health	39
1.2.6 Medical informatics	40
1.2.7 Subject correlation in digital medicine	41
1.3 Certification of digital medicine solutions	43
1.3.1 Qualification of medical devices as a certification system	43
1.3.2 Interpretation of the definition of a medical device	45
1.3.3 Digital medicine solutions as medical devices	47
1.4 The concept of telemedicine	49
1.4.1 Definition of telemedicine	49
1.4.2 Essence of telemedicine	51
1.4.3 Basic building blocks of telemedicine and their implications	52
1.5 Benefits and risks of telemedicine	54
1.5.1 Benefits of telemedicine	54
1.5.2 Risks of telemedicine	55
1.6 Summary	57
2 The right to health in the European Union	59
2.1 Introduction	59
2.2 The subject of the right to health	60

- 2.2.1 The right to health as a determinant of modern technology in medicine 60
 - 2.2.2 Outline of the right to health protection 61
 - 2.2.3 Outline of the right to healthcare services 66
 - 2.2.4 Correlation of the essence of the right to health protection and healthcare services 69
 - 2.3 Historical outline of the right to health in primary law of the European Union 70
 - 2.3.1 Evolution of the right to health up to the Maastricht Treaty 70
 - 2.3.2 Evolution of the right to health since the Maastricht Treaty 72
 - 2.3.3 The Lisbon Treaty as the next chapter in evolution 75
 - 2.4 The right to health in current European Union law 76
 - 2.4.1 Reflecting the right to health in the EU CFR. 76
 - 2.4.2 Reflecting the right to health in TFEU and TEU 77
 - 2.4.3 Concretisation of the right to health in secondary legislation 81
 - 2.5 The right to health in telemedicine 84
 - 2.5.1 Telemedicine as a new guarantor of protection of the right to health. 84
 - 2.5.2 Telemedicine as a modern tool for realising the right to healthcare services 85
 - 2.5.3 Telemedicine and equal access to healthcare services 87
 - 2.6 Summary 88
- 3 Cross-border healthcare provision in the European Union 91
 - 3.1 Introduction 91
 - 3.2 The internal market in the light of the free movement of services . . . 92
 - 3.2.1 Characteristics of the internal market in genere. 92
 - 3.2.2 Outline of the free movement of services 95
 - 3.2.3 EU definition of service 96
 - 3.2.4 Normative nature of the Treaty rules the free movement of services. 97
 - 3.3 Free movement of healthcare services 99
 - 3.3.1 The concept of healthcare services 99
 - 3.3.2 Healthcare Services. Internal market services of the EU. . 100
 - 3.3.3 Restrictions on the free movement of healthcare services . 106
 - 3.3.4 Cross-border as an alternative in the free movement of healthcare services 107
 - 3.4 Patients' rights in cross-border healthcare 109
 - 3.4.1 Purpose of defining cross-border patients' rights 109
 - 3.4.2 Obligations of the Member States of the European Union . .113
 - 3.4.3 Telemedicine as a subject of cross-border healthcare117
 - 3.5 Telemedicine services in cross-border healthcare 123
 - 3.5.1 Services in telemedicine. 123

- 3.5.2 Telemedicine services as services in the European Union internal market 125
 - 3.6 Summary 126
- 4 Implementing the right to health and the functioning of cross-border healthcare during the COVID-19 pandemic 131
 - 4.1 Introduction 131
 - 4.2 General characteristics of the COVID-19 outbreak 132
 - 4.2.1 COVID-19 outbreak highlights. 132
 - 4.2.2 COVID-19 pandemic statistics 133
 - 4.2.3 Vaccination against SARS-CoV-2 134
 - 4.3 The law in the face of the COVID-19 pandemic 137
 - 4.3.1 Law as an instrument to combat the COVID-19 pandemic . 137
 - 4.3.2 Legal remedies against COVID-19 in selected EU Member States 139
 - 4.3.3 Exercise of the unit’s rights during the COVID-19 pandemic 142
 - 4.4 The right to health and cross-border healthcare during the COVID-19 pandemic. 143
 - 4.4.1 The right to health during the COVID-19 pandemic 143
 - 4.4.2 Cross-border healthcare during the COVID-19 pandemic . 145
 - 4.4.3 The negative impact of COVID-19 on the operation of cross-border healthcare in the EU. 148
 - 4.5 Proposal for the implementation and use of telemedicine solutions during the COVID-19 outbreak. 151
 - 4.5.1 Telemedicine as a solution to the right to health during a pandemic 151
 - 4.5.2 Telemedicine as a solution to the problem of cross-border healthcare in the EU during a pandemic state. 153
 - 4.6 Summary 154
- 5 Telemedicine cybercrimes as a threat to the realisation of the right to health in telemedicine 157
 - 5.1 Introduction 157
 - 5.2 Theoretical characteristics of telemedicine cybercrime 158
 - 5.2.1 The impact of telemedicine cybercrime on the right to health. 158
 - 5.2.2 The concept of cybercrime 159
 - 5.2.3 The term telemedicine cybercrime 163
 - 5.3 Types of telemedicine cybercrimes. 165
 - 5.3.1 Method of identifying types of telemedicine cybercrimes . 165
 - 5.3.2 Types of telemedicine cybercrimes 166
 - 5.4 Telemedical evidence activities 171

- 5.4.1 Method for defining types of telemedical evidentiary acts. 171
 - 5.4.2 Types of telemedical evidentiary acts 172
- 5.5 Proposal for standardising telemedicine systems 181
 - 5.5.1 Proposal for standardising telemedicine services' information systems based on types of telemedicine cybercrime 181
 - 5.5.2 Proposal for standardising telemedicine services' information systems based on telemedical evidentiary acts . . . 184
- 5.6 Summary 186
- Final issues 189
 - Summary of findings 189
 - Conclusions for the future 195
- References 205
