

CONTENTS

Regular research papers

Linked Open Data Stakeholder Roles.....	11
Jan Kučera, Dušan Chlapek, Martin Nečaský	
ERP- and Campus Management Systems in German Higher-Education Institutes.....	29
Christian Leyh, Christian Hennig	
Evaluation of a Business Intelligence Maturity Model: The Reliability Perspective	45
David Raber	
Sustanability Management and its Software Support in German and Italian Large-scale Enterprises.....	59
Christian Leyh, Mario Demez, Matteo Rossetto, Susanne Strahringer, André Krischke	
Regulated Business Process Modeling.....	73
Oleg Svatoš	
New Method for Engineering Projects Management with the Use of Evolutionary Algorithm.....	89
Roman Kielec	
A Better Insight into IT Contribution by Process Level Structure: A Case of Study in Royal Greenland	103
Nazli Shahim, Charles Møller	
Cooperation on Enterprise Information Systems Development: The Role of Social Aspects.....	119
Maisa Mendonça Silva, Ana Paula Henriques de Gusmão, Ana Paula Cabral Seixas Costa	
Six-Factor Model for Successful ERP Project Implementation for Diversified Industries ...	131
Satish Krishnan, John Lim	
ERP Innovation Based on Requirements of Social Responsibility Measurement and Evaluation.....	149
Libor Gála, Josef Basl	
Model for Management of Enterprise IT: Considerations of the Impact of Cloud Computing	157
Jan Pour, Jiří Voříšek, George Feuerlicht	
How to Gain Synchronization Between Business Processes and Enterprise Resource Planning Systems: A SOA Based Perspective on ERP implementation	169
Nicklas Holmberg, Björn Johansson, Rogerio Atem de Carvalho	
Exploring IT Roles in Business Process Innovation – as a Driver of Barrier?	183
Jie Gong, Charles Møller	

Work-in-progress papers

Using Ampersand in IT Architecture.....	201
Debbie Tarenskeen, René Bakker, Stef Joosten	
Enhancing Customer Lifetime Value with Perceptual Measures Contained in Enterprise Information Systems.....	211
Ota Novotný, Pavel Jašek	
Enterprise Social Networks as a Tool for Effective Collaboration in Health Care Facilities	221
Tomáš Feige, Martin Potančok	
The Proposal of Czech Government Enterprise Architecture implementation.....	231
Pavel Hrabě	
Life-cycle Model of Delivering IS in SOA.....	241
Roman Hauptvogel	
Building the Effective Loyalty Program	251
Radek Tahal, Václav Stříteský	
The Role of Enterprise Architecture in Organization Change.....	259
Martin Hladik	
Towards a Data-Integration Approach for Enterprise Sustainability Risk Information Systems.....	269
Andreas Thöni, Lisa Madlberger, Alexander Schatten	
Using the Short Time Forecasts in a Company Operational Activity.....	279
Victor Romanov, Andrey Koryakovskiy	
System Thinking in Informatics: a Case of COBIT.....	287
Stanislava Mildeová, Martin Dalihod, Miroslav Král	
Addition to CRM of the Internet Data Sources Processing Module in Corporate Information Systems for SMEs.....	297
Jan Ministr, Petr Doucek, Lea Nedomova	
Cooperation Model for Architecture and Integration Teams	307
Milan Rubeš	
Cloud Computing Adoption Framework.....	317
George Feuerlicht, Eapen George	
Towards an Improved Understanding for the Benefits Realization from Enterprise Information Systems.....	325
Luay Anaya	

Industry and service track

Computer Aided Mechanical Assembly Sequence Planning 335
Michał Sasiadek

Exploring Information and Communication Management in Czech Hospitals 345
Klára Antlová

Boundary Management in HRMS Regional (APAC/Japan) Implementation 353
Satish Krishnan, John Lim

Publication Ethics and Publication Malpractice Statement 363

List of Authors..... 364
