1.3.3 Deriving Cash Flows	25
1.3.4 Financial Analysis	32
1.4 Connecting Theory and Practice	37
1.4.1 Consequences of the Efficient Market Assumption	38
1.4.2 Consequences of the Inefficient Market Assumption	41
1.4.3 Entrepreneurial Incentives and Value Creation	44
2 Time Value of Money	46
2.1 Present and Future Value	46
2.2 Compounding	48
2.2.1 Discrete Compounding	48
2.2.2 Continuous Compounding	50
2.2.3 Incomplete Periods and Day Count Conventions	51
2.3 Valuing Multiple Future Values	53
2.3.1 Annuities	55
2.3.2 Perpetuities and Growth Perpetuities	58
3 Risk and Return	61
3.1 Risk Diversification	63
3.2 Valuation of Equity Risk	65
3.2.1 Capital Asset Pricing Model	65
3.2.2 Estimating the Risk-free Rate	67
3.2.3 Estimating the Market Risk Premium	68
3.2.4 Estimating Beta	69
3.2.5 Alternative Equity Risk-return Models	72
3.3 Valuation of Debt Risk	73
4 Intrinsic Valuation of Securities	77
4.1 Debt Securities	79
4.1.1 Introducing Debt Securities	79

4.1.2	Intrinsic Valuation of Debt Securities	83
4.1.3	Estimating Values Implied in Bond Prices	85
4.2	Equity Securities	87
4.2.1	Introducing Equity Securities	88
4.2.2	Intrinsic Valuation of Stock	89
4.2.3	Estimating Values Implied in Stock Prices	92
5	Cost of Capital	94
5.1	Weighted Average Cost of Capital Approach	95
5.1.1	Estimating the Component Costs	96
5.1.2	Estimating the Target Capital Structure	99
5.2	Cost of Operating Capital Approach	100
5.2.1	Estimating a Firm's Beta	101
5.2.2	Benchmarking Beta	102
6	Capital Budgeting	105
6.1	Estimating Capital Budgeting Cash Flows	106
6.1.1	Principles of Cash Flow Assessment	107
6.1.2	Project Cash Flow Characteristics	108
6.2	Capital Budgeting Criteria	112
6.2.1	Net Present Value	113
6.2.2	Profitability Index	114
6.2.3	Payback	115
6.2.4	Internal Rate of Return	116
6.2.5	Modified Internal Rate of Return	117
6.3	Mutually Exclusive Projects	119
6.3.1	Capital Rationing	119
6.3.2	Operationally Exclusive Projects	124
7	Financial Planning	128
7.1	Planning Methods	130
7.1.1	Additional Funds Needed	131
7.1.2	Forecasting Under Changing Ratio Assumptions	134
7.1.3	Forecasted Financial Statements.....	135
7.2	Strategic Financing.....	136
7.2.1	Financing Decisions and the Capital Structure.....	137
7.2.2	Dividend and Distribution Decisions	141
7.3	Company Value	145
7.3.1	The Valuation Model	145
7.3.2	Mergers and Acquisitions	153

7.3.3 Value-based Management	157
8 Working Capital Management	163
8.1 Cash Conversion Cycle	164
8.1.1 Inventory Management	166
8.1.2 Receivable Management	169
8.1.3 Cash Management	172
8.2 Short-term Financing	175
8.2.1 Accruals and Payables	175
8.2.2 Short-term Debt	176
8.3 Working Capital Financing Policies	177
9 Risks and Options	180
9.1 Uncertainty in Capital Budgeting Projects	180
9.1.1 Methods Using Sensitivity Analysis	181
9.1.2 Methods Using Scenario Analysis	185
9.2 Options	188
9.2.1 Financial Options	189
9.2.2 Embedded Options	195
9.2.3 Real Options	197
9.3 Valuing Opportunities in Capital Budgets	199
Concluding Remarks	204
References	206
Appendix	211
