<b>List of Contributors</b>	<b>viii</b>
<b>Editors</b>	<b>x</b>
<b>Series Preface</b>	<b>xi</b>
<b>Foreword</b> <i>Maíre Connolly</i>	<b>xii</b>
<b>1 Introduction</b> <i>Ian Clark</i>	<b>1</b>
<b>2 Precipitation and Temperature Extremes in a Changing Climate</b> <i>Enrico Scoccimarro and Antonio Navarra</i>	<b>3</b>
2.1 Introduction	3
2.2 Modelling Past Extreme Events to Project Future Changes	5
2.2.1 Climate Models and Simulations	5
2.2.2 Observed Changes in Precipitation and Temperature	10
2.2.3 Expected Changes for the End of the Current Century	13
2.3 Conclusions	20
References	22
<b>3 Climate Change and Health</b> <i>Alistair Woodward</i>	<b>26</b>
3.1 Introduction	26
3.2 The IPCC 5th Assessment Report	26
3.3 What Is New Since AR5?	30
3.4 Transition Risks	33
3.5 Co-Benefits – They are There, but Cannot be Assumed	33
3.6 Conclusion	34
References	35
<b>4 Flooding and Public Health in a Changing Climate</b> <i>Owen Landeg</i>	<b>38</b>
4.1 Introduction	38
4.2 Types of Floods	38

4.3	Health Impacts of Flooding	39
4.3.1	Populations at Risk	39
4.3.2	Mortality	40
4.3.3	Flooding and Mental Health	41
4.3.4	Flooding and Infectious Diseases	42
4.3.5	Displacement, Evacuation and Sheltering	44
4.4	Health System Resilience	44
4.5	Flooding and Climate Change	46
4.6	Public Health Mitigation, Planning and Prevention	46
4.7	Conclusions	47
	References	47
<b>5</b>	<b>The Climate Change, Disaster Risk Reduction and Health Nexus</b>	<b>49</b>
	<i>Demetrio Innocenti</i>	
5.1	Introduction	49
5.2	The Sendai Framework: Tackling Disaster Risk and Health at International Level	49
5.3	The Paris Agreement and the SDGs: Tackling Climate Change and Health	53
5.4	Comparative Analysis of the Three Frameworks	55
5.5	Conclusions	56
	References	57
<b>6</b>	<b>Preparedness and Response in View of Climate Change Impacting on Health Challenges</b>	<b>58</b>
	<i>Virginia Murray and Lidia Mayner</i>	
6.1	Introduction	58
6.2	The Sendai Framework for Disaster Risk Reduction 2015–2030	59
6.2.1	Paris Agreement on Climate Change and Emergency Preparedness	60
6.3	Sustainable Development Goals	61
6.4	What are Hydrometeorological Extreme Events and How are They Defined?	62
6.5	Public Health Risk Management in Relation to Hydrological Extreme Events	64
6.5.1	International Health Regulations 2005	64
6.5.2	WHO Health Emergency and Disaster Risk Management Framework 2019	65
6.6	Public Health Risk Management – Some Specific Hydrometeorological Events Issues	67
6.6.1	Infectious Disease Associated with Hydrometeorological Extreme Events	67
6.6.2	Impacts of Climate Change Emergencies on Mental Health	69
6.7	Conclusions and Suggested Ways Forward	70
	References	71
<b>7</b>	<b>The Health Costs of Hydrometeorological Extreme Events</b>	<b>74</b>
	<i>Gerardo Sanchez Martinez and Paul Hudson</i>	
7.1	Introduction	74
7.2	Estimating the Economic Costs of Hydrometeorological Extreme Events	76
7.2.1	HEE Risk Assessment and Data	77
7.2.2	Methods for Valuing Health Impacts in Monetary Terms	79
7.2.3	Projections of Changes in Health and Well-Being Costs of Hydrometeorological Extreme Events Under Different Climate Change Scenarios	85
7.3	Reducing or Off-Setting the Health Costs of Hydrometeorological Extreme Events	86

7.3.1	Increasing the Resilience of Health Systems to Hydrometeorological Extreme Events	87
7.3.2	The Role of Insurance and Other Tools	88
7.3.3	Innovative Funding Sources	89
7.4	Conclusions and Recommendations	90
	References	92
<b>8</b>	<b>Conclusions and Perspectives</b>	<b>99</b>
	<i>Franziska Matthies-Wiesler and Philippe Quevauviller</i>	
8.1	Climate Change Mitigation Vs. Adaptation	99
8.2	Solution-Oriented Research	101
8.3	Community-Building	102
8.4	Strengthening International Partnerships	103
8.5	Perspectives	105
	References	107
