CHAPTER 1 – Introduction	1
1.1. General introduction	1
1.2. Aims of the thesis	4
1.3. Research questions	4
1.4. Overview of the chapters	6
CHAPTER 2 – Literature review	9
2.1. Game animal domestication, utilisation, and production potential of common eland	10
2.2. Breeding management and challenges for advanced reproduction techniques (ARTs) for common eland males	16
2.2.1. Understanding sperm biology and assessing sperm quality for the application of ARTs	24

2.3. Potential effects of selected animal traits and environmental factors on the reproductive biology of common eland	35
CHAPTER 3 – General methodology	43
3.1. Study area description and animal husbandry	43
3.2. Experimental design and data collection	45
3.3. Data processing and statistical analysis	52
CHAPTER 4 – Reproductive tract morphology and symmetry of farmed common eland (<i>Tragelaphus oryx</i>) bulls, and their relationships with secondary sexual traits and social rank	55
4.1. Abstract	57
4.2. Introduction	59
4.3. Materials and methods	62
4.3.1. Animals, live, and post-mortem data collection	62
4.3.2. Reproductive tract morphological measurements	64
4.3.3. Histological analyses	66
4.3.4. Statistical analyses	67
4.4. Results	69
4.5. Discussion	75
4.6. Conclusion	81

CHAPTER 5 - Post-harvest motility and morphological changes of spermatozoa following caudal epididymal recovery in farmed common eland (<i>Tragelaphus oryx</i>) bulls	83
5.1. Abstract	85
5.2. Introduction	87
5.3. Materials and methods	89
5.3.1. Animals and slaughtering	89
5.3.2. Spermatozoa harvesting and sampling conditions	90
5.3.3. Sperm concentration, motility, and kinematics	91
5.3.4. Sperm head morphometry, viability, and morphology	91
5.3.5. Statistical analysis	93
5.4. Results	93
5.4.1. Correlation of sperm quality parameters	93
5.4.2. Effect of collection time intervals on eland epididymal sperm quality parameters and characterisation of sperm abnormalities	95
5.5. Discussion	99
5.6. Conclusion	104
CHAPTER 6 - Effects of age and season on the faecal androgen metabolite hormone secretion patterns of common eland	107

(<i>Tragelaphus oryx</i>) bulls, and their relationships with morphometric body traits	
6.1. Abstract	109
6.2. Introduction	111
6.3. Materials and methods	114
6.3.1. Animal history, study area, management, and experimental set up	114
6.3.2. Faecal collection, sampling, processing, and steroid extraction	116
6.3.3. Faecal androgen metabolites enzyme immunoassay analysis (<i>fAM EIA</i>)	117
6.3.4 Statistical analysis	118
6.4. Results	120
6.5. Discussion	123
6.6. Conclusion	129
7. General discussion	131
8. General conclusions and recommendations	137
9. General references	141
10. Annexes	181
Annex 1. <i>Curriculum vitae</i> Jerico Mituda Consolacion	I-V
