ACKNOWLEDGEMENTS 2

ABSTRACT 3

LIST OF TABLES 8

LIST OF FIGURES 9

LIST OF ABBREVIATIONS 11

CHAPTER 1: General Introduction

1. **Introduction** 14

 1.1 Ticks 14

 1.2 Life Cycle of Ticks 15

 1.3 Ecology of Ticks 16

 1.4 Ticks as Vectors 18

 1.5 *Hyalomma marginatum* Koch, 1844 23

 1.5.1 Taxonomy of *Hyalomma marginatum* 23

 1.5.2 Ecology and Distribution of *Hyalomma marginatum* 23

 1.5.3 Life Cycle of *Hyalomma marginatum* 24

 1.5.4 Pathogen Transmission by *Hyalomma marginatum* 25

 1.5.5 Crimean-Congo Haemorrhagic Fever Orthonairovirus (CCHFV) .. 25

 1.5.6 Geographical Distribution and Epidemiology of CCHF 26

 1.5.7 Transmission of CCHF 28

 1.5.8 Clinical Manifestations, Diagnosis, and Prevention 28

 1.6 Coevolution between *Hyalomma marginatum* and CCHFV 30

2. **The Aims of the Thesis** 31

3. **Chapter Overview** 31

CHAPTER 2: *Hyalomma marginatum* in Europe: The Past, Current Status, and Future Challenges – A Systematic Review

4. **Introduction** 34

5. **Materials and Methods** 36

 5.1 Study Design and Search Strategy 36

 5.2 Selection Criteria and Outcome Measures 36

 5.3 Data Extraction and Analysis 37

6. **General Aspects of *Hyalomma marginatum* Biology in Europe** 37

7. **Overview of *Hyalomma marginatum* Distribution and Its Role as a Vector for Pathogens in Main European Regions** 55

8. **Overview of Regional Findings and Study Limitations** 71

9. Future Challenges	73
10. Conclusion	75
11. References	76

CHAPTER 3: Mapping the Potential Distribution of the Principal Vector of Crimean-Congo Haemorrhagic Fever Virus *Hyalomma marginatum* in the Old World

18. Introduction	97
19. Materials and Methods	99
19.1 Occurrence Records	99
19.2 Covariate Variables	99
19.3 Accessible Area (“M”)	101
19.4 Ecological Niche Modeling	101
19.5 Extrapolation Risk of <i>Hyalomma marginatum</i>	102
19.6 Risk-Independent Evaluation	102
20. Results	103
21. Discussion	108
22. References	112

Climate Change Impacts on the Potential Geographic Distribution of *Hyalomma marginatum*

23. Introduction	120
24. Materials and Methods	121
24.1 <i>Hyalomma marginatum</i> Occurrence Data	121
24.2 Climate Data	122
24.3 Ecological Niche Modeling	123
25. Results	124
26. Discussion	129
27. Conclusion	131
28. References	131

CHAPTER 4: Molecular and Serological Surveillance of Crimean-Congo Haemorrhagic Fever Virus in Ticks and Cattle in Kosovo: A 2022–2024 Study

29. Introduction	15
30. Materials and Methods	136
30.1 Study Area and Sample Collection	136
30.2 Viral RNA Extraction from Tick Samples	136
30.3 qRT-PCR Detection of CCHFV RNA	137
30.4 Serological Detection of CCHFV in Cattle Sera	137
31. Results	138

32. Discussion	140
33. Conclusion	141
34. References	142

CHAPTER 5: Genetic Background of Adaptation of Crimean-Congo Haemorrhagic Fever Virus to Different Tick Hosts

12. Introduction	147
13. Materials and Methods	149
13.1 Data Collection	149
13.2 Phylogenetic Analysis	149
13.3 Nucleotide Composition Analysis	150
13.4 Analysis of the Effective Number of Codons (ENC)	150
13.5 Relative Synonymous Codon Usage (RSCU) Analysis	150
13.6 Codon Adaptation Index (CAI) Analysis	151
13.7 Correspondence Analysis (COA)	151
13.8 Selection Analysis	151
13.9 Statistical Analysis	151
14. Results	152
14.1 <i>Hyalomma</i> - and <i>Rhipicephalus</i> -originating CCHFV Isolates Are Phylogenetically Isolated	152
14.2 Nucleotide Composition of CCHFV Isolates from <i>Hyalomma</i> and <i>Rhipicephalus</i> Ticks Is Different	153
14.3 <i>Hyalomma</i> - and <i>Rhipicephalus</i> -isolated CCHFV Strains Preferentially Use Different Codons	155
14.4 Both <i>Hyalomma</i> - and <i>Rhipicephalus</i> -isolated CCHFV Strains Show Higher Codon Adaptation Index Values for <i>Hyalomma</i> Tick Species	162
14.5 The Pattern of Selection in <i>Hyalomma</i> - and <i>Rhipicephalus</i> -isolated CCHFV Strains Varies	162
15. Discussion	163
16. Conclusion	166
17. References	166

CHAPTER 6: Crimean-Congo Haemorrhagic Fever Virus in Ticks, Domestic, and Wild Animals

35. Introduction	175
36. CCHFV in Animals	176
36.1 CCHFV in Ticks	176
36.2 Serological Detection of CCHFV in Animals	183
36.3 CCHFV in Domestic Animals	183
36.4 CCHFV in Wild Animals	189

37. Molecular Detection of CCHFV in Animals	194
38. Experimental CCHFV Infections in Animals	194
39. Prevention and Control of CCHFV in Animals	196
40. Conclusion	197
41. References	198
CHAPTER 7: General Discussion	218
CHAPTER 8: General Conclusion	220
CHAPTER 9: General References	225
CHAPTER 10: Appendices.....	237
Appendix 1. Supplementary material for Chapter 2.....	238
Appendix 2. Supplementary material for Chapter 3.....	239
Appendix 3. Supplementary material for Chapter 3.....	242
CHAPTER 11: Curriculum Vitae.....	247
