Preface

V

Biomechanics

1

Key note address:

Biomechanics of swimming; past, present and future studies.

1

Miyashita M.

Kinematic changes with inspiratory actions in butterfly swimming.

9

Alves, F., Cunha, P., Gomes-Pereira, J.

Kinematical modifications induced by the introduction of the lateral inspiration in butterfly stroke.

15

Barbosa, T., Sousa, F., Vilas-Boas, J.P.

Determinant factors in a 200-m butterfly swim as related to the fluctuation in horizontal velocity of the body centre of gravity.

21

Martins-Silva, A., Alves, F., Gomes-Pereira, J.

A comparison of the underwater undulatory swimming technique in two different body positions.

25

Arellano, R., Gavilan, A., Garcia, F.

Evolution of co-ordination in flat breaststroke in relation to velocity.

29

Chollet, D., Tourny, C., Gleizes, F.

Mechanical and electromyographical parameters in breaststroke pull under different moving conditions.

33

Daniel, K., Klauck, J.

Velocity degradation caused by its fluctuation in swimming and guidelines for improvement of average velocity.

41

Fujishima, M., Miyashita, M.

Training effects on forces and turning motion during breaststroke turn.

47

Goya, T., Takagi, H., Nomura, T.

Differences in breaststroke synchronisation induced by different race velocities.

53

Soares, P.M., Sousa, F., Vilas-Boas, J.P.

Angular momentum and swimming economy in the freestyle.

59

Cappaert, J.M., VanHeest, J.L.

The contribution of body roll to hand speed in front crawl swimming – an experimental study.

65

Payton, C.J., Bartlett, R.M., Baltzopoulos, V.

Stroke frequency evolution during 100-m and 200-m events front crawl swimming.

71

Sidney, M., Delhaye, B., Baillon, M., Pelayo, P.

Characteristics of the forearm acceleration in swimming.

77

Ohgi, Y., Ichikawa, H., Miyaji, C.

Hydrodynamics	83
Man's water resistance in accelerated motion: An experimental evaluation of the added mass concept.	83
<i>Klauck, J.</i>	
A mass of water added to the swimmer's mass to estimate the velocity in dolphin-like swimming below the water surface.	89
<i>Colman, V., Persyn, U., Ungerechts, B.</i>	
Application of Vortex flow formation to self-propulsion in water.	95
<i>Ungerechts, B. E., Persyn, U., Colman, V.</i>	
Calculating hydrodynamic force by using pressure differences in swimming.	101
<i>Takagi, H., Wilson, B.</i>	
Estimation of propulsion and drag force in front crawl stroke.	107
<i>Shimonagata, S., Taguchi, M., Taba, S., Aoyagi, M.</i>	
Active and passive drag in swimming.	113
<i>Strojnik, V., Strumbelj, B., Bednarik, J.</i>	
Biomechanics of a set of unstationary active motion of biological objects in water environment: from concepts to technologies.	119
<i>Kolmogorov, S.V., Lyapin, S.K.</i>	
Wave declining effect of course ropes during maximum effort swimming.	125
<i>Togashi, T., Ohba, M., Nomura, T.</i>	
Improvement of wave absorption by a new lane marker covered with mesh.	129
<i>Fujishima, M., Sato, Y., Miyashita, M.</i>	
The development of measuring nasal pressure in water.	135
<i>Hara, H., Onodera, S., Shibata, Y.</i>	
Technique Analyses	141
<i>Key note address:</i>	
Biomechanics of swimming analysed by three-dimensional techniques.	141
<i>Cappaert, J.M.</i>	
Objectives of and requirements for technique diagnosis in swimming.	147
<i>Reischle, K.</i>	
Underwater analysis of the freestyle stroke from three different points in the stroke cycle.	153
<i>Haffner, M., Cappaert, J.M.</i>	
Analysis of stroke of the freestyle swimming using accelerometer.	159
<i>Ichikawa, H., Ohgi, Y., Miyaji, C.</i>	
Optimal depth for streamlined gliding.	165
<i>Lyttle, A., Blanksby, B., Elliott, B., Lloyd, D.</i>	

- Dynamic criteria for description of single fin technique. 171
Rejman, M. :
- A comparison between front crawl and butterfly start. 177
Strojnik, V., Strumbelj, B., Bednarik, J.
- Technique comparison of pool and flume swimming. 181
Wilson, B.D., Takagi, H., Pease, D.L. :
- Maximum shooting velocity in water polo direct shot and shot with fairs of the international level athletes participating in the 10th FINA World Cup. 185
Darras, N.G.

Muscle Function 191

- The influence of strength, speed, motor co-ordination and technique on the performance in crawl sprint. 191
Hohmann, A., Dierks, B., Lühnenschloss, D., Seidel, I., Wichmann, E.
- A comparison of maximal voluntary force during unilateral and bilateral arm extension in swimmers. 197
Strass, D., Wild, M., Hahn, A.
- The relation between sprint ability in free-style swimming and force characteristics of different muscle groups. 203
Dopsaj, M., Milosevic, M., Matkovic, I., Arlov, D., Blagojevic, M.
- Relationship between sprint swimming speed and power capacity in different groups of swimmers. 209
Fomitchenko, T. G.
- Isokinetic evaluation in the shoulder of the swimming athlete. 213
Cardone, C. P., Ferreira, R. E., Moura, R., Bernhoeft, M. F.

Exercise Testing 219

- Key note address:*
- Cardiorespiratory and metabolic field testing in swimming and water polo: from physiological concepts to practical methods. 219
Rodriguez, F. A.
- Critical swim speed can be used to determine changes in training status. 227
MacLaren, D.P.M., Coulson, M.
- Critical velocity as a criterion for estimating aerobic training pace in juvenile swimmers. 233
Fernandes, R., Vilas-Boas, J.P.
- Comparison of swimming speed and exercise intensity during non-invasive test and invasive test in competitive swimming. 239
Matsunami, M., Taguchi, M., Taimura, A., Suyama, M., Suga, M. Shimonagata, S., Aoyagi, M., Taba, S.

- Performance test for swimmers – a new approach utilising pace-maker lights – a pilot study. 245
Keskinen, K.L., Keskinen, O.P.
- Evaluation of the stroke dynamical parameters in elite swimmers using computerised research exerciser. 249
Petriaev, A., Kleschnev, I., Kleschnev, V.
- The validity and reproducibility of the 15-meter test for swimmers' speed. 253
Brito, C.A.F., Pinto, R.F.
- Specific swimming abilities test of top Yugoslav water polo players and its validation. 259
Matkovic, I., Gavrilovic, P., Jovovic, D., Thanopoulos, V.
- Semi-tethered swimming as a diagnostic tool for swimming technique and physical performance. 265
Wirtz, W., Bieder, A., Wilke, K., Klauck, J.
- A system for quantitative measurement of swimming technique. 269
Arellano, R., Pardillo, S., Garcia, F. :
- Physical Characteristics and Performance 277**
- Perception of body size and weight control methods in national calibre swimmers. 277
Van Heest, J.L.
- Physical fitness profiles and improvements of competitive performance in three female junior swimmers. 281
Yanagi, H., Tomosue, R., Matsui, H.
- Physical and somatic traits of Greek young swimmers. 287
Geladas, N.D., Pavlicevic, S.
- The relationship of body dimensions, body composition and muscle strength to the performance scores in female synchronized swimmers. 293
Yamamura, C., Zushi, S., Kitagawa, K. :
- Relationship between bioenergetic criteria and ergometric parameters of sport performance in top class swimmers. 299
Volkov, N.I., Popov, O.I.
- Race parameters and classification in the 100-m breaststroke at the 1996 Atlanta paralympic games. 303
Daly, D.J., Malone, L.A., Vanlandewijck, Y., Steadward, R.D.
- Analysis of the men's 100-m freestyle at the 1996 Atlanta paralympic games. 309
Daly, D.J., Malone, L.A., Vanlandewijck, Y., Steadward, R.D.
- Biological maturation of swimmers. 315
Sokolovas, G.
- The impact of individuals' maturity upon strength in young swimmers. 321
Vorontsov, A., Binevsky, D., Filonov, A., Korobova, E.

Patterns of Growth for some characteristics of physical development, functional and motor abilities in boy-swimmers 11-18 years. 327

Vorontsov, A.R., Dyrco, V.V., Binevsky, D.A., Solomatin, V.R., Sidorov, N.N.:

Exercise Physiology 337

Effects of music rhythm on heart rate and oxygen uptake during squat exercises in water and on land. 337

Hoshijima, Y., Torigoe, Y., Yamamoto, K., Nishimura, M., Abo, S., Imoto, N., Miyachi, M., Onodera, S.

The maximal aerobic power and anaerobic thresholds in Chinese girl swimmers and their relationship with the best swimming performance. 341

Ma, L., Zhang, W., Chen, Q., Zhang, Y.

Cardiovascular responses during moderate water exercise and following recovery. 345

Matsui, T., Miyachi, M., Saito, T., Nakahara, H., Koeda, M., Hayashi, N., Onodera, S.

Effect of relaxation in salt water on heart rate, blood pressure and oxygen uptake. 351

Nishimura, M., Yamamoto, K., Hoshijima, Y., Torigoe, Y., Yamaguchi, H., Miyachi, M., Onodera, S.

Effect of buoyancy and body density on energy cost during swimming. 355

Onodera, S., Miyachi, M., Yano, H., Yano, L., Hoshijima, Y., Harada, T.

The relationship between blood lactate concentration and rate of perceived exertion in competitive swimmers. 359

Taylor, S.R., MacLaren, D.P.M.

Relationships between the mean arm-pulling and leg-kicking power output of semi-tethered and simulated front crawl swimming. 363

Swaine, I.L., Doyle, G.

Intermittent hypoxia and interval hypoxic training in Swimming. 369

Volkov, N.I., Smirnov, V.V.

Effects of a floating swimsuit on oxygen uptake and heart rate during swimming. 375

Yamamoto, K., Miyachi, M., Hara, S., Yamaguchi, H., Onodera, S.

Training Effects 381

Key note address:

Training adaptations for optimal performance. 381

Costill, D.L.

The effects of arms- or legs-only training on indices of swimming performance and dry-land endurance in swimmers. 391

Konstantaki, M., Winter, E.M., Swaine, I.L.

Heart Rate and respiratory frequency responses during aerobic and hydroaerobic classes. 397

Scartoni, F.R., Brandão, C., Vale G., Dantas, E.H.M.

- Blood lactate response to various combinations of swimming velocity and rest period of interval training. 401
Wakayoshi, K., Tatesada, E., Ono, K., Terada, A., Ogita, F.
- Different lactate, ammonia and catecholamine metabolism in children and adults after supramaximal exercise in swimming. 407
Prado, L.S.
- Interval hypoxia training enhance effects of physical loads in swimming. 413
Bulgakova, N.J., Kovalev, N.V., Volkov, N.I. :
- Repeated altitude training effects on elite swimmers. 417
Nomura, T., Mankyu, H., Ohba, M.
- The effect of high intensity intermittent training under a hypobaric hypoxic condition on anaerobic capacity and maximal oxygen uptake. 423
Ogita, F., Tabata, I.
- Sport Coaching and Training 429**
- Key note address*
- Training load and performance in swimming. 429
Chatard, J.-C., Mujika, I.
- The structure of technical and tactical activities of water polo players in the first Yugoslav league during the game. 435
Dopsaj, M., Matkovic, I.
- Performance enhancement of top-level swimmers by velocity regimes modelling. 439
Issurin, V.B., Kaufman, L.E., Tenenbaum, G.
- Estimation of 200-m record from 100-m record with consideration of a swimmer's speciality in freestyle swimming race. 443
Nomura, T., Wakayoshi, K., Okuno, K.
- Velocity, stroke rate, stroke length and stroke index values of a female swimming team during a short course competitive season. 449
Santos Silva, J.V.
- VO₂max during swimming flume and treadmill tests: specific adaptations in over sixty swimmers. 453
Sardella, F., Pulejo, C., Caserotti, P.
- Role of rest interval during interval training at OBLA speed. 459
Shimoyama, Y., Nomura, T.
- The planning of young swimmers' technical training and analysis of mistakes in swimming technique. 465
Smyshlyev, D.

Sport Pedagogy and Sport Psychology	469
<i>Key note address:</i>	
Challenges in kinesiological diagnosis of swimmers – a pedagogical approach. <i>Persyn, U., Colman V.</i>	469
Principles of swimming propulsion and issues of teaching: using practical experiments to enhance understanding of lift principle and Magnus-effect. <i>Strass, D., Bäurle, W.</i>	475
Problems of physical education students in making a kinesiological diagnosis of swimmers. <i>Persyn, U., Colman, V.</i>	481
Water as a stimulant for infants' motor development. <i>Numminen, P., Sääkslahti, A.</i>	489
Age peculiarities of school children's swimming technique instruction. <i>Jukov, R.</i>	493
Youth-centred swimming: a matter of policy and pedagogy. <i>De Martelaer, K., De Knop, P., Theebom, M., Harthoorn, S.</i>	499
Research into the interpersonal relationship coach-athlete in organised youth swimming. <i>De Martelaer, K., De Knop, P., Vanden Auweele, Y., Wylleman, P.</i>	505
Pedagogical hydro-rehabilitation. <i>Mossounov, D.F., Kubasov, A.V., Kovaleva, L.Y., Irapetyan, V.H.</i>	511
Sports Medicine and Rehabilitation	515
Psychological benefits of water exercise for low back pain patients. <i>Sugano, A., Nomura, T., Kerr, J.H.</i>	515
The effect of water running on the functional rehabilitation of medial tibial stress syndrome. <i>T'Jonck, L., Colman, V., Persyn, U., De Weerd, W., Lysens, R.</i>	521
Shoulder pain in a young swimmer: a loophole in diagnostics. <i>Elhage, W., Helena, L.</i>	527
Gender differences in the heart dimensions of young swimmers. <i>Olm, T.</i>	531
Author Index	535
The International Series of Symposia and Proceedings	538
