

CONTENTS

	List of figures and tables	ix
	Authors	xi
	Foreword	xii
	Acknowledgements	xiv
	Abbreviations	xv
1.	INTRODUCTION	1
	Practical tips	3
2.	STAKEHOLDERS	4
	Identifying stakeholders	4
	Investigating stakeholders	8
	Managing stakeholders	9
	Practical tips	12
3.	PROJECT DELIVERY	13
	Data analysis lifecycle	13
	Managing the lifecycle	15
	Practical tips	17
4.	ETHICS AND LAWFULNESS	18
	When to consider?	18
	Who might be impacted?	20
	Ethics	20
	Legislation and regulation	21
	Internal policies	23
	Other governance	23
	Commercial constraints	24
	Intellectual property	24
	Risk mitigation strategies	24
	Practical tips	26
5.	DISCOVERY	27
	The team	27
	Understanding the domain	29
	Resources	29
	Problem definition	30
	Developing the hypothesis	31

	Effective enquiry	31
	Practical tips	32
6.	PROPERTIES OF DATA	33
	The importance of the right properties	33
	Bias or skewed data?	35
	Quantitative research	37
	Qualitative research	37
	Things to note	39
7.	SOURCING	40
	Big Data	40
	Data collection	41
	Principles of data: data types	42
	Finding data	43
	Storing data	44
	Moving data	45
	Data governance	45
	Data quality	46
	Metadata	47
	Practical tips	48
8.	PREPARATION	49
	Form	49
	Properties of data sets	53
	Quality risks	54
	Quality checks	55
	Mitigation strategies	56
	Practical tips	57
9.	BASIC CONCEPTS	58
	Averages	58
	Measures of spread	60
	Probability	60
	Navigating the Cartesian plane and measuring distances	62
	Conclusion	65
10.	MODEL SELECTION	66
	Which model to use?	66
	Descriptive analytics: understanding the past	67
	Predictive analytics: peeking into the future	68
	Prescriptive analytics: deciding what to do	68
	How they work together	69
	Understanding the data for your model	69
	Understanding the hypothesis	71
	How to choose between different models	72
	Predicting value over time: time series analysis	80
	Classification	85
	Clustering	89
	Association	94

11.	VISUALISATIONS	99
	Considerations	99
	User experience in data visualisation	100
	Bar chart	102
	Histogram	103
	Line graph	104
	Area chart	105
	Scatter plot	106
	Box and whisker plot	106
	Heat map	107
	Stem-and-leaf plot	108
	Combining charts	109
	Practical tips	112
12.	MODEL EVALUATION	113
	What is probability?	113
	What is a p -value?	114
	Hypothesis testing: a step-by-step guide	114
	Is this chance? Understanding significance	116
	How much does the model explain? Comparing train and test	116
	How to interpret the model	118
13.	COMMUNICATION	119
	Principles of user experience	120
	Improving user experience	121
	Know your audience	121
	Domain context	122
	Information to knowledge	122
	Storytelling	123
	Risks in storytelling	125
	Visualising a story	125
	Recommendations	127
	Operationalise	127
	Practical tips	127
14.	MACHINE LEARNING AND ARTIFICIAL INTELLIGENCE	128
	Machine learning	129
	Data science and machine learning	130
	Neural networks	130
	Artificial intelligence	131
	Foundational models	132
	Practical tips	133
15.	CASE STUDIES	134
	Innovation Factory	134
	Smart Container Co	135
	Cognitive Business	136
	Good With	137
	SMARTabg	139

16.	CONCLUSION	140
	The power of data science	140
	Ethical considerations in data science	146
	The future of data science	147
	A final thought	147
	Glossary	148
	References	155
	Index	157
	Visualisations	140
	Considerations	140
	User experience in data visualisation	146
	Bar chart	147
	Histogram	147
	Line graph	147
	Area chart	148
	Scatter plot	155
	Box and whisker plot	157
	Heat map	157
	Stem-and-leaf plot	157
	Combining charts	157
	Practical tips	157
	MODEL EVALUATION	157
	What is probability?	157
	What is a p-value?	157
	Hypothesis testing: a step-by-step guide	157
	Is this chance? Understanding significance	157
	How much does the model explain? Comparing train and test	157
	How to interpret the model	157
	COMMUNICATION	157
	Principles of user experience	157
	Improving user experience	157
	Know your audience	157
	Domain context	157
	Information to knowledge	157
	Storytelling	157
	Risks in storytelling	157
	Visualising a story	157
	Recommendations	157
	Operationalise	157
	Practical tips	157
	MACHINE LEARNING AND ARTIFICIAL INTELLIGENCE	157
	Machine learning	157
	Data science and machine learning	157
	Neural networks	157
	Artificial intelligence	157
	Foundational models	157
	Practical tips	157
	CASE STUDIES	157
	Innovation Factory	157
	Smart Container Co	157
	Cognitive Business	157
	Good With	157
	SMARTag	157
