

Contents

<i>Foreword</i>	v
<i>Preface</i>	vii
<i>About the Editor</i>	xi
<i>Acknowledgments</i>	xiii
1. Introduction to Biomaterials Engineering	1
<i>S. H. Teoh</i>	
2. Durability of Metallic Implant Materials	23
<i>M. Sumita and S. H. Teoh</i>	
3. Corrosion of Metallic Implants	59
<i>D. J. Blackwood, K. H. W. Seah, and S. H. Teoh</i>	
4. Surface Modification of Metallic Biomaterials	129
<i>Takao Hanawa</i>	
5. Biomaterials in Restorative Dentistry	171
<i>Adrian U. Jin Yap and Na Yu</i>	
6. Bioceramics: An Introduction	191
<i>Besim Ben-Nissan and Giuseppe Pezzotti</i>	

7. **Polymeric Hydrogels** 235
Xia Song and Jun Li
8. **Biomedical Composites for Human Body
Tissue Replacement and Regeneration** 267
Qilong Zhao and Min Wang
9. **Composites in Biomedical Applications** 309
Zheng-Ming Huang and S. Ramakrishna
10. **Methods and Materials in Prosthetics for
Rehabilitation of People with Lower Limb
Amputations** 371
Peter V. S. Lee and Hans A. Gray
11. **Chitin-Based Biomaterials** 397
Eugene Khor
12. **Regulatory Requirements for Medical Devices** 417
Jack Wong and S. H. Teoh
13. **Laser Processing for Medical Devices** 443
*Zhekun Chen, Xiaohan Xing, Yuchen Yang,
and Minghui Hong*

Index 473
