

CONTENTS

Preface by Kenneth V. Thimann	V
Opening address by Harald Kaldewey	VI
Farewell address by Hans G. Burström	VII
Editor's Preface	VIII
 I. Basic problems of growth promotion and growth inhibition	
A Review on the Principles of Promotion of Growth in Plants	
by I. D. J. Phillips	1
Interaction of Hormones in the Control of Enzymatic Developmental Patterns	
by R. Kaur-Sawhney and A. W. Galston.	27
Some Recent and Original Results on the Principles of Promotion and Inhibition of Growth with Special Reference to Isolated Protoplasts	
by E. C. Cocking	19
The Mechanism of Action of Different Plant Growth Regulators with Special Emphasis on Water Relation	
by M. Hasmann and N. Önder	37
 II. Transport and excretion problems	
The Polar Movement of Gibberellin through <i>Coleus</i> Petioles	
by W. P. Jacobs and P. M. Pruetz	45
The Movement of Growth Hormones in Sugar Cane	
by T. K. Scott and B. H. Most	57
Transport and Metabolism of α -Naphthaleneacetic Acid and some Analogues in Stem Segments of <i>Coleus</i> .	
by H. Veen	69
Some Recent and Original Results on the Role of Some Regulators in the Active Uptake and Transport Metabolism with Special Reference to Amino Acid Metabolism in Jerusalem Artichoke	
by N. Özer and M. Bastin	71
The Binding of 1-N-Naphthylphthalamic Acid (NPA), an Inhibitor of Auxin Transport, to Particulate Fractions of Corn Coleoptiles	
by K. S. Thomson	83
Effect of Growth Regulators on the Activity of Salt Glands of <i>Statice Sinuata</i> and <i>Statice Latifolia</i>	
by S. Bozcuk	89
 III. Growth regulation in shoots and roots	
Regulation of Stem Growth	
by A. Skytt Andersen	97
Aspects of Growth Control in Cereal Seedlings	
by C. L. Mer.	107

Hormonal Regulation of Root Growth and Development

by H. G. Burström and S.-B. Svensson 125

Translocation and Immobilization of Radiocarbon in the Hypocotyl and the Primary Root of *Gossypium hirsutum* L. after Application of IAA-2-¹⁴C to Intact Light-grown Seedlings

by H. Kaldewey and L. Kraus 137

IV. Mode of action of auxins, gibberellins, and cytokinins**Auxins, an Informal Summary of Some Recent Work**

by K. V. Thimann 155

Attempts Towards a Cytochemical Detection of IAA-Decarboxylating Enzymes in Cabbage Roots

by T. Aasheim and T.-H. Iversen 171

Current Aspects of Gibberellins and Plant Growth Regulation

by J. MacMillan 175

Relationships between Gibberellins and Enzyme Activity in Various Plant Organs

by J. L. Stoddart 189

The Role of Cytokinin in Regeneration Processes

by O. M. Heide 207

Plant Cell Permeability to Kinetin

by M. Dorée, C. Terrine, and J. Guern 221

Modified Components of t-RNA: Their Possible Role in the Process of Differentiation

by R. H. Hall, W. H. Dyson, and C. D. Whitty 233

V. Mode of action of ethylene, absisins, and morphactins**Ethylene as a Plant Hormone**

by A. C. Leopold 245

Control of Cell Division, Expansion and Differentiation by Ethylene

by S. P. Burg, A. Apfelbaum and B. G. Kang 263

Recent Advances in Abscissic Acid Research

by K. Dörffling 281

ABA Effects on Growth in Relation to Auxin, RNA and Ultrastructure

by P. E. Pilet 297

Morphactins and Plant Growth Regulation

by G. Schneider 317

On the effect of Morphactin

by M. Bopp 333

VI. Plant movements and correlations**Growth Regulating Hormones and Plant Movements**

by W. Haupt. 349

Changes in the Composition of the Two Sides of Geo-stimulated Grass Nodes	
by N. Arslan and E. Duygu	361
The Golgi Apparatus and Geotropism	
by J. Shen-Miller	365
Some Early Effects of Auxin and of Geotropic Exposure on Coleoptiles	
by M. Morath	377
The Present Status of the Problem of Apical Dominance	
by J. Guern and M. Usciati	383
Auxin Transport and Apical Dominance in <i>Pisum sativum</i>	
by Y. Vardar and H. Kaldewey.	401
 VII. Flowering, fruiting and ageing in plants	
The Role of Growth Regulators in Flowering as Demonstrated by <i>in Vitro</i> Techniques	
by C. Nitsch	413
Morphogenins in Growth and Development of Plants	
by F. Lona	423
Fluctuations of Growth Substances in Different Stages of Leaves, Buds, Fruits and Seeds of Sour Cherry	
by N. Kaska	431
Growth Regulators and Ageing of Plant	
by C. J. Gorter.	439
Effect of Growth Regulators on Organelle Development	
by W. M. Laetsch and R. Boasson	453
Effect of Some Indole and Phenolic Compounds on the Ageing of Detached Leaves	
by N. Karanov	467
 VIII. Growth regulation in sugarcane	
The Naturally—Occurring Plant Growth Substances in Sugarcane (<i>Saccharum officinarum</i> L.). A review of studies from 1959 to 1971	
by A. J. Vlitos and B. H. Most	473
 Author Index	487
Subject Index	509
