Epidemiology of Hospital Infection —The Role of the Microbiologist G.K. RICHARDS, J.J. PRENTIS, and I. WINK	1
The Role of the Infectious Disease Physician N.E. MacDONALD	7
Diagnosis and Treatment of Malnutrition in the Traumatized Patient P.A. MAKAREWICZ and J.B. FREEMAN (With 1 Figure)	11
Skin Bacterial Populations —Contamination or Infection? G.K. RICHARDS, J.E. MILLER, and J. CARRIÈRE	19
Infections in Orthopedics: Patient Preparation and Skin Scrub J.C.N. WESTWOOD	25
Clean Air Operating Environment and Superficial Infection R.A. ELSON	33
Specific Measures to Reduce Operating Room Infections R.M. LETTS (With 5 Figures)	39
Clean Wound Surveillance G.K. RICHARDS, C. GAESE, and S. TRAVERS	51
Microbial Study of Surgical Drain Cultures M. MONTMINY, G.-A. DAIGLE, P. GAGNON, D. LAFLAMME, J. NOLIN, and D. MERCIER (With 5 Figures)	57
The Microcomputer for Operating Room Infection Surveillance R.M. LETTS	67
Diagnosis of Acute Bone Infection P. KINNARD	69
The Role of Radionuclide Studies in the Diagnosis of Infections in Orthopedic Surgery R. KLOIBER (With 6 Figures)	81
The History of a Patient with an Infected Total Joint Replacement J.P. McELWAIN and G.A. HUNTER	89
Joint Replacement Infections: Prophylaxis, Diagnosis and Treatment E.A. SALVATI (With 4 Figures)	101
Prevention of Infection in Total Hip Replacement H.W. BUCHHOLZ	113

XII

Prophylactic Effect of Gentamicin Cement L. LINDBERG	117
Open Fractures —Is Primary Stabilization Desirable? M. TILE, C.B. BEAUCHAMP, and J.F. KELLAM (With 3 Figures)	121
Compound Fractures: The European Approach I. KEMPF (With 6 Figures)	133
Subacute Osteomyelitis in Children R.M. LETTS (With 1 Figure)	141
Modern Trends in the Investigation and Treatment of Chronic Osteomyelitis L.-J. PAPINEAU (With 2 Figures)	151
Acute Suppurative Joint Infections in Children J.J. WILEY and W.M. MCINTYRE	161
Current Concepts in the Management of Infected Fractures R.B. GUSTILO	167
Infected Pseudarthrosis —Treat the Infection First A. HÄRLE (With 6 Figures)	173
Infection in Total Joint Replacement: One-Stage Exchange Arthroplasty H.W. BUCHHOLZ (With 2 Figures)	183
Deep Infection of Total Joint Replacement: Principles of Treatment R.A. ELSON	187
Revision of Infected Total Joint Replacement: Swedish Experiences L. LINDBERG	191
Reimplantation of Infected Joint Replacements: Elution Studies of Gentamicin from Cement and Beads E.A. SALVATI, J.J. CALLAGHAN, B.D. BRAUSE, R.F. KLEIN, and R.D. SMALL (With 10 Figures)	195
Septic and Aseptic Hip and Knee Replacements: Results of Revision J.P. McELWAIN and G.A. Hunter	203
Infection: Occupational Hazard to the Surgeon N.E. MacDONALD	213
Isolation of the Infected Patient J.C.N. WESTWOOD (With 1 Figure)	219
Isolation Ward (Septic Ward) for Infected Patients I. KEMPF, M.A. SITTler, L. LECOCQ, and M. KLEM (With 2 Figures)	225
Antibiotic-Resistant Microorganisms A.M.R. MacKENZIE	231
The Use of Antibiotics in Traumatized Patients R.B. GUSTILO	235

Parenteral versus Oral Antibiotic Therapy N.E. MacDONALD	241
Antibiotic-Loaded Acrylic Cement (ALAC) R.A. ELSON	247
Gentamicin-PMMA Beads and Artificial Wound Coverage A. HÄRLE (With 6 Figures)	251
The Use of Gentamicin-PMMA Beads in Chronic Osteomyelitis J.P. GALEY and H.-K. UHTHOFF (With 1 Figure)	259
Fibrin-Antibiotic Complex: Laboratory Investigation and Clinical Results A. BRAUN, A. GÜSSBACHER, W.-D. HEINE, and E. DINGELDEIN (With 12 Figures)	265
Subject Index	295
