|                                                                                                       |    |
|-------------------------------------------------------------------------------------------------------|----|
| <i>N. S. Snigirevskaya</i> . Protection of fossil plants and palaeobotanical memorials . . . . .      | 3  |
| <i>S. G. Zhilin</i> . Palaeofloras and localities of fossil plant remains . . . . .                   | 9  |
| <i>A. I. Korobkov</i> . Stratigraphical diagrams . . . . .                                            | 13 |
| Descriptions of localities and palaeofloras . . . . .                                                 | 24 |
| <i>Quaternary plant localities</i> . . . . .                                                          | 24 |
| Zheltaya Peshchera. Holocene ( <i>Yu. V. Teslenko</i> ) . . . . .                                     | 24 |
| Vyaz. Upper Quaternary ( <i>S. G. Zhilin</i> ) . . . . .                                              | 24 |
| Zelenogor'e. Upper Quaternary ( <i>Yu. V. Teslenko</i> ) . . . . .                                    | 25 |
| Krasnaya Peshchera. Upper Quaternary ( <i>Yu. V. Teslenko</i> ) . . . . .                             | 25 |
| Kosteshi. Pleistocene ( <i>F. J. Welichkewich</i> ) . . . . .                                         | 26 |
| <i>Early Quaternary — Late Neogene plant localities</i> . . . . .                                     | 26 |
| Sisian. Lower Pleistocene—Upper Pliocene ( <i>N. G. Gokhtuni, I. G. Gabrielian</i> ) . . . . .        | 26 |
| <i>Neogene plant localities</i> . . . . .                                                             | 27 |
| Agarak and Megri. Lower Pliocene ( <i>A. L. Takhtajan</i> ) . . . . .                                 | 27 |
| Gortun. Lower Pliocene ( <i>N. G. Gokhtuni, I. G. Gabrielian</i> ) . . . . .                          | 27 |
| Kodor. Lower Pliocene ( <i>A. A. Kolakovsky</i> ) . . . . .                                           | 28 |
| Goderdzi. Upper Miocene ( <i>A. L. Takhtajan</i> ) . . . . .                                          | 28 |
| Mangyus. Upper Miocene ( <i>E. F. Kutuzkina, A. L. Takhtajan</i> ) . . . . .                          | 29 |
| Razdan. Upper Miocene ( <i>N. G. Gokhtuni</i> ) . . . . .                                             | 30 |
| Amvrosievka. Middle Miocene ( <i>Yu. V. Teslenko</i> ) . . . . .                                      | 30 |
| Krynka. Middle Miocene ( <i>Yu. V. Teslenko</i> ) . . . . .                                           | 30 |
| Zamkovaya Gora. Middle Miocene ( <i>N. I. Schwarewa</i> ) . . . . .                                   | 31 |
| Mamontova Gora. Middle Miocene ( <i>A. A. Egorova</i> ) . . . . .                                     | 32 |
| Chingistay. Middle-Lower Miocene ( <i>G. S. Rajushkina</i> ) . . . . .                                | 32 |
| Burkalo. Middle-Lower Miocene ( <i>I. A. Iljinskaja, N. I. Schwarewa</i> ) . . . . .                  | 33 |
| Kushuk. Lower Miocene ( <i>P. V. Shilin</i> ) . . . . .                                               | 34 |
| Altyn-Shokysu. Lower Miocene ( <i>S. G. Zhilin, A. G. Andrejev, N. S. Snigirevskaya</i> ) . . . . .   | 34 |
| Kutanbulak. Lower Miocene ( <i>S. G. Zhilin</i> ) . . . . .                                           | 35 |
| Chiliktyzor-II, III, IV. Lower Miocene ( <i>S. G. Zhilin</i> ) . . . . .                              | 35 |
| Kintykche. Lower Miocene ( <i>S. G. Zhilin</i> ) . . . . .                                            | 36 |
| Kynyak (=Kinjak). Lower Miocene ( <i>S. G. Zhilin</i> ) . . . . .                                     | 36 |
| <i>Palaeogene fossil plant localities</i> . . . . .                                                   | 37 |
| Altyn-Shokysu. Upper Oligocene ( <i>S. G. Zhilin, A. G. Andrejev, N. S. Snigirevskaya</i> ) . . . . . | 37 |
| Dilizhan. Oligocene ( <i>M. E. Arutunjan</i> ) . . . . .                                              | 37 |
| Zmiey. Upper Oligocene ( <i>Yu. V. Teslenko</i> ) . . . . .                                           | 38 |
| Kumsuat. Upper Oligocene ( <i>S. G. Zhilin</i> ) . . . . .                                            | 39 |
| Chiliktyzor-I. Upper Oligocene ( <i>S. G. Zhilin</i> ) . . . . .                                      | 39 |
| Zhaman-Kaindy-I. Lower Oligocene ( <i>S. G. Zhilin</i> ) . . . . .                                    | 40 |
| Kiin-Kerish. Lower Oligocene ( <i>I. A. Iljinskaja</i> ) . . . . .                                    | 40 |
| Kiin-Kerish. Upper Eocene ( <i>I. A. Iljinskaja</i> ) . . . . .                                       | 41 |
| Tim. Upper Eocene ( <i>Yu. I. Iosifova, S. G. Zhilin, S. V. Vikulin</i> ) . . . . .                   | 42 |
| Osinovo. Lower Eocene ( <i>Yu. V. Teslenko</i> ) . . . . .                                            | 42 |
| Kamyshin. Upper Palaeocene ( <i>N. M. Makulbekov</i> ) . . . . .                                      | 43 |
| Romankol'. Upper Palaeocene ( <i>N. M. Makulbekov</i> ) . . . . .                                     | 43 |
| Baevka. Palaeocene ( <i>V. V. Blagowestchensky, D. V. Gromyko</i> ) . . . . .                         | 44 |
| Kiin-Kerish. Palaeocene ( <i>I. A. Iljinskaja</i> ) . . . . .                                         | 45 |
| <i>Cretaceous plant localities</i> . . . . .                                                          | 45 |
| Derevyannyye Gory. Upper Cretaceous ( <i>T. F. Galaktionova</i> ) . . . . .                           | 45 |
| Kyzilzhar. Upper Cretaceous ( <i>P. V. Shilin</i> ) . . . . .                                         | 46 |
| Kanev. Lower Cretaceous ( <i>Yu. V. Teslenko</i> ) . . . . .                                          | 46 |
| <i>Jurassic plant localities</i> . . . . .                                                            | 47 |
| Dashkesan. Middle Jurassic ( <i>R. A. Fataliev</i> ) . . . . .                                        | 47 |

|                                                                                                     |    |
|-----------------------------------------------------------------------------------------------------|----|
| Bakhcha and Tyrnadar'ya. Middle Jurassic (N. G. Gomolitzky)                                         | 47 |
| Beshuyskiye Coal Mines. Middle Jurassic (Yu. V. Teslenko)                                           | 48 |
| Fan-Yagnob. Middle-Lower Jurassic (A. T. Burakova)                                                  | 48 |
| <i>Triassic plant localities</i>                                                                    | 49 |
| Rayskoye. Upper Triassic (F. A. Stanislavski)                                                       | 49 |
| Dzhermanis. Upper Triassic (G. V. Delle, I. G. Gabrieljan)                                          | 49 |
| Bolshaya Kamyshevakh. Upper Triassic (F. A. Stanislavski)                                           | 49 |
| <i>Permian plant localities</i>                                                                     | 50 |
| Erunakovo. Upper Permian (V. G. Lepekhina)                                                          | 50 |
| Ust'-Soples. Upper Permian (V. P. Vladimirovich, V. P. Gorsky)                                      | 50 |
| Tarlovka. Upper Permian (V. P. Vladimirovich, V. P. Gorsky)                                         | 51 |
| Kayyerkan. Upper Permian (Yu. G. Gor)                                                               | 51 |
| Vorkutskiy strato-type section. Lower Permian (I. A. Ignatiev)                                      | 52 |
| Kayyerkan. Lower Permian (Yu. G. Gor)                                                               | 53 |
| Krutaya Kátushka. Lower Permian (V. P. Vladimirovich, V. P. Gorsky)                                 | 53 |
| Chekarda. Lower Permian (V. P. Vladimirovich, V. P. Gorsky)                                         | 53 |
| Kitchigino. Lower Permian (V. P. Vladimirovich, V. P. Gorsky)                                       | 54 |
| Nizhnyaya Bychina. Lower Permian (V. P. Vladimirovich, V. P. Gorsky)                                | 54 |
| <i>Carboniferous plant localities</i>                                                               | 54 |
| Luganskoye. Upper Carboniferous (A. K. Stschegolev)                                                 | 54 |
| Dolinovka. Upper Carboniferous (A. K. Stschegolev)                                                  | 55 |
| Kalinovo. Middle Carboniferous (O. P. Fissunenکو)                                                   | 55 |
| Karaguz. Middle Carboniferous (O. P. Fissunenکو)                                                    | 56 |
| Balka Dolgaya. Middle Carboniferous (O. P. Fissunenکو)                                              | 56 |
| Verkhotomskoye. Lower Carboniferous (V. A. Ananiev)                                                 | 58 |
| Porog Vitza. Lower Carboniferous (S. M. Snigirevsky)                                                | 59 |
| Uvaly, Tumna. Lower Carboniferous (V. A. Ananiev)                                                   | 60 |
| Log Besustnyy. Lower Carboniferous (V. A. Ananiev)                                                  | 61 |
| <i>Devonian plant localities</i>                                                                    | 61 |
| Lenny Log. Upper Devonian (V. A. Ananiev)                                                           | 61 |
| Maf-Khaya. Upper Devonian (N. S. Snigirevskaya, S. M. Snigirevsky)                                  | 61 |
| Razdolnoye. Upper Devonian (N. S. Snigirevskaya, S. M. Snigirevsky)                                 | 62 |
| Uytag. Upper Devonian (N. S. Snigirevskaya, V. N. Malakhatko)                                       | 63 |
| Akarachkinskiy Karier. Middle Devonian (N. M. Petrosijan)                                           | 64 |
| Shirinskiy palaeobotanical reservation. Lower Devonian (A. R. Ananiev, T. V. Zakharova)             | 64 |
| Nizhnev. Lower Devonian (A. A. Istchenko)                                                           | 65 |
| <i>Silurian plant localities</i>                                                                    | 65 |
| Trubchin. Upper Silurian (A. A. Istchenko)                                                          | 65 |
| <i>Ordovician plant (?) localities</i>                                                              | 66 |
