Preface	xi
About the Author	xvii
1 Introduction	1
Returns	7
2 Asset Prices to Returns	9
2.1 Converting Daily Prices to Monthly Returns in the xts world	12
2.2 Converting Daily Prices to Monthly Returns in the tidyverse	14
2.3 Converting Daily Prices to Monthly Returns in the tidyquant world . . . . .	15
2.4 Converting Daily Prices to Monthly Returns with tibblertime	16
2.5 Visualizing Asset Returns in the xts world . . . . .	19
2.6 Visualizing Asset Returns in the tidyverse . . . . .	23
3 Building a Portfolio	29
3.1 Portfolio Returns in the xts world . . . . .	31
3.2 Portfolio Returns in the tidyverse . . . . .	31
3.3 Portfolio Returns in the tidyquant world . . . . .	33
3.4 Visualizing Portfolio Returns in the xts world . . . . .	34
3.5 Visualizing Portfolio Returns in the tidyverse . . . . .	36
3.6 Shiny App Portfolio Returns . . . . .	40
Concluding Returns	47
Risk	49
4 Standard Deviation	51
4.1 Standard Deviation in the xts world . . . . .	52
4.2 Standard Deviation in the tidyverse . . . . .	52
4.3 Standard Deviation in the tidyquant world . . . . .	53
4.4 Visualizing Standard Deviation . . . . .	54
4.5 Rolling Standard Deviation . . . . .	62
4.6 Rolling Standard Deviation in the xts world . . . . .	62
4.7 Rolling Standard Deviation in the tidyverse . . . . .	63

4.8	Rolling Standard Deviation with the tidyverse and tibbletime	64
4.9	Rolling Standard Deviation in the tidyquant world . . . . .	65
4.10	Visualizing Rolling Standard Deviation in the xts world . . .	66
4.11	Visualizing Rolling Standard Deviation in the tidyverse . . . .	67
4.12	Shiny App Standard Deviation . . . . .	69
<b>5</b>	<b>Skewness</b>	<b>73</b>
5.1	Skewness in the xts world . . . . .	73
5.2	Skewness in the tidyverse . . . . .	74
5.3	Visualizing Skewness . . . . .	74
5.4	Rolling Skewness in the xts world . . . . .	82
5.5	Rolling Skewness in the tidyverse with tibbletime . . . . .	83
5.6	Rolling Skewness in the tidyquant world . . . . .	83
5.7	Visualizing Rolling Skewness . . . . .	84
<b>6</b>	<b>Kurtosis</b>	<b>87</b>
6.1	Kurtosis in the xts world . . . . .	87
6.2	Kurtosis in the tidyverse . . . . .	88
6.3	Visualizing Kurtosis . . . . .	88
6.4	Rolling Kurtosis in the xts world . . . . .	93
6.5	Rolling Kurtosis in the tidyverse with tibbletime . . . . .	94
6.6	Rolling Kurtosis in the tidyquant world . . . . .	94
6.7	Visualizing Rolling Kurtosis . . . . .	95
6.8	Shiny App Skewness and Kurtosis . . . . .	97
	<b>Concluding Risk</b>	<b>105</b>
	<b>Portfolio Theory</b>	<b>107</b>
<b>7</b>	<b>Sharpe Ratio</b>	<b>109</b>
7.1	Sharpe Ratio in the xts world . . . . .	109
7.2	Sharpe Ratio in the tidyverse . . . . .	110
7.3	Sharpe Ratio in the tidyquant world . . . . .	111
7.4	Visualizing Sharpe Ratio . . . . .	112
7.5	Rolling Sharpe Ratio in the xts world . . . . .	117
7.6	Rolling Sharpe Ratio with the tidyverse and tibbletime . . . .	117
7.7	Rolling Sharpe Ratio with tidyquant . . . . .	118
7.8	Visualizing the Rolling Sharpe Ratio . . . . .	119
7.9	Shiny App Sharpe Ratio . . . . .	121
<b>8</b>	<b>CAPM</b>	<b>129</b>
8.1	CAPM and Market Returns . . . . .	129
8.2	Calculating CAPM Beta . . . . .	131
8.3	Calculating CAPM Beta in the xts world . . . . .	135
8.4	Calculating CAPM Beta in the tidyverse . . . . .	136
8.5	Calculating CAPM Beta in the tidyquant world . . . . .	136

8.6	Visualizing CAPM with ggplot . . . . .	137
8.7	Augmenting Our Data . . . . .	141
8.8	Visualizing CAPM with highcharter . . . . .	143
8.9	Shiny App CAPM . . . . .	148
<b>9</b>	<b>Fama-French Factor Model</b>	<b>153</b>
9.1	Importing and Wrangling Fama-French Data . . . . .	154
9.2	Visualizing Fama-French with ggplot . . . . .	161
9.3	Rolling Fama-French with the tidyverse and tibbletime . . . . .	162
9.4	Visualizing Rolling Fama-French . . . . .	165
9.5	Shiny App Fama-French . . . . .	169
	<b>Concluding Portfolio Theory</b>	<b>175</b>
	<b>Practice and Applications</b>	<b>177</b>
<b>10</b>	<b>Component Contribution to Standard Deviation</b>	<b>179</b>
10.1	Component Contribution Step-by-Step . . . . .	179
10.2	Component Contribution with a Custom Function . . . . .	181
10.3	Visualizing Component Contribution . . . . .	183
10.4	Rolling Component Contribution . . . . .	185
10.5	Visualizing Rolling Component Contribution . . . . .	189
10.6	Shiny App Component Contribution . . . . .	195
<b>11</b>	<b>Monte Carlo Simulation</b>	<b>203</b>
11.1	Simulating Growth of a Dollar . . . . .	203
11.2	Several Simulation Functions . . . . .	206
11.3	Running Multiple Simulations . . . . .	208
11.4	Visualizing Simulations with ggplot . . . . .	212
11.5	Visualizing Simulations with highcharter . . . . .	215
11.6	Shiny App Monte Carlo . . . . .	219
	<b>Concluding Practice Applications</b>	<b>223</b>
	<b>Appendix: Further Reading</b>	<b>225</b>
	<b>Index</b>	<b>229</b>
