<i>Introduction</i>	<i>ix</i>
<b>Part 1: GeoAI Technology Overview</b>	<b>1</b>
<b>Part 2: Public Sector Applications</b>	<b>11</b>
GeoAI Helps Stave Off Pest Infestation of Hemlock Trees Forest Pest Branch, Urban Forest Management Division, Fairfax County, Virginia	12
Using GeoAI to Inventory ADA Curb Ramps Saves Significant Time and Money Douglas County and the City of Omaha, Nebraska	18
Improving Roadways Using Drone Imagery and Machine Learning Utah Department of Transportation	23
Drones, Maps, and AI Unite City Functions City of Vilnius, Lithuania	29
As Sea Level Rise Threatens, Safeguarding a Sense of Place with a Digital Twin Government of Tuvalu	34
Deep Learning Helps Automate Map Updates to Better Serve Citizens Government of Kuwait	39
GIS and AI for Precise Damage Assessments Esri	46
Getting the Most of GeoAI in Emergency Management Esri	51

<b>Part 3: Private Sector Applications</b>	<b>57</b>
Deep Learning Model Unlocks Potential of Solar Energy Development Pivot Energy	58
CEOs May Be Underusing this AI Capability Bouwinvest	62
Another AI Capability that Business Leaders May Be Overlooking Esri	65
Mapping New Possibilities for Business Success Esri	68
GeoAI, Reality Capture, and the Future of Digital Twins Esri	72
Mapping the What-Ifs: Fertile Ground for AI-Powered Simulations Esri	77
<b>Part 4: NGO/Nonprofit Applications</b>	<b>81</b>
Drone Mapping Helps Find Flood Victims, with AI Assistance United Nations World Food Programme	82
GeoAI, Corporate Responsibility, and the Vigilance of a Climate Watchdog Amazon Conservation	91
Mapping Land Mines and Explosive Remnants of War The HALO Trust	97
<b>Part 5: Next Steps</b>	<b>103</b>
