

TABLE OF CONTENTS

	PAGE
I. GENERAL.....	1
1. Scope.....	1
2. Definitions and Symbols.....	2
II. MATERIALS.....	2
3. Plates.....	2
4. Structural.....	2
5. Copper Bearing Steel.....	2
6. Forgings.....	2
7. Castings.....	3
8. Filler Metal.....	3
III. QUALIFICATION OF WELDING PROCEDURES AND WELDING OPERATORS.....	3
9. Application.....	3
10. Qualification of Welding Procedures.....	4
11. Qualification of Welding Operators.....	5
IV. WELD DESIGN VALUES.....	5
12. Structural Joints.....	5
13. Tank Plate Joints.....	5
V. JOINT DESIGN.....	6
14. Butt Joints Subject to Primary Stress Due to Weight or Pressure of Tank Contents.....	6
15. Butt Joints Subject to Secondary Stress.....	7
16. Lap Joints Subject to Primary Stress Due to Weight or Pressure of Tank Contents.....	7
17. Lap Joints Subject to Secondary Stress.....	7
18. Joints in Flat Tank Bottoms Resting Directly on Grade or Founda- tion—Type A Tanks.....	7
19. Joints Between Shell and Bottom of Vertical Cylindrical Shells with Flat Bottoms—Type A Tanks.....	8
20. Joints in Roof Plates.....	8
21. Unsymmetrical Butt Joints.....	8
VI. DESIGN OF DETAILS.....	8
22. Maximum Thickness of Material to Be Welded for Various Joints Under These Rules.....	8
23. Minimum Laps for Lap Joints.....	9
24. Intermittent Welding.....	9
25. Minimum Size of Fillet and Seal Welds.....	9
26. Minimum Length of Welds.....	9
27. Finish of Plate Edges.....	10
28. Joint Stagger.....	10
VII. DETAILS OF WELDING PROCEDURE.....	10
29. General.....	10
30. Preparation of Surfaces to Be Welded.....	10
31. Weather Conditions.....	10
32. Preheating and Interpass Temperature.....	10
33. Scaffold Bracket Holes.....	11
34. Cleaning Between Beads.....	11
35. Tack Welds.....	11

36.	Peening.....	11
37.	Weld Contour.....	11
38.	Weld Reinforcement.....	11
39.	Chipping and Gas Gouging of Welds.....	11
40.	Flat Tank Bottoms—Type A Tanks.....	11
41.	Tank Shell.....	12
42.	Matching Plates.....	12
VIII.	REQUIREMENTS FOR TESTING SHELL JOINTS BY SECTIONING METHODS.....	12
43.	Application.....	12
44.	Sectional Specimens.....	12
45.	Number and Location of Test Segments.....	13
46.	Size of Sectional Segments.....	13
47.	Preparation of Sectional Segments.....	14
48.	Inspection of Sectional Segments.....	14
49.	Method of Closing Openings.....	15
50.	Record of Segments.....	17
IX.	TESTING OF TANKS.....	17
51.	Testing Flat Bottoms of Tanks Resting on Foundations or Grades...	17
52.	Testing Shell and Suspended Bottom—Type A Tanks.....	17
53.	Testing of Roof—Type A Tanks.....	18
54.	Testing Low Pressure Tanks—Type B.....	18
55.	Hammer Testing.....	18
56.	Final Test.....	18
X.	REPAIRS.....	18
57.	Repairs by Peening.....	18
58.	Tanks Under Liquid Load.....	18
59.	Tanks Under Pressure.....	19
60.	Tanks with Flammable Contents.....	19
APPENDIX.		19
