24 The New Science of Life

Can we cure cancer?

Great Idea: Our new understanding of genetic mechanisms is leading to enormous technological advances in medicine and other aspects of our lives.

Science Through the Day: **A Break in the Case • 510**

The Technology of Genes

Genetic Engineering

TECHNOLOGY • 513

Bioterrorism

TECHNOLOGY • 513

The PCR Process

SCIENCE BY THE NUMBERS • 514

PCR Multiplication

DNA Fingerprinting

Stem Cells, Cloning, and Regenerative Medicine

SCIENCE IN THE MAKING • 517

25 Evolution

How did life emerge on the ancient Earth?

Great Idea: All life on Earth evolved from single-celled organisms by the process of natural selection.

Science Through the Day: **Day's End • 532**
