INTRODUCTION	7
1 THEORETICAL APPROACHES TO ENVIRONMENTAL PRODUCTION AND LOGISTICS	11
1.1 Environmental production	13
1.1.1 <i>Key principles.....</i>	<i>15</i>
1.1.2 <i>Theoretical models</i>	<i>17</i>
1.1.3 <i>Links to ESG & SDG 12 and Benefits of environmental production for businesses.....</i>	<i>19</i>
1.2 Environmental logistics	21
1.2.1 <i>Green- Reverse- Sustainable</i>	<i>22</i>
1.2.2 <i>Main directions and tools of environmental logistics.....</i>	<i>24</i>
1.2.3 <i>Environmental logistics and its challenges and barriers..</i>	<i>28</i>
1.3 Integrative approaches in business development	29
1.3.1 <i>Integrating environmental production and logistics into strategy.....</i>	<i>29</i>
1.3.2 <i>Management models.....</i>	<i>30</i>
1.3.3 <i>The concept of the “Triple Transition”</i>	<i>32</i>
1.3.4 <i>Competitive advantage and innovation</i>	<i>33</i>
1.4 Implications for business development in Slovakia.....	34
1.4.1 <i>Specifics of the Slovak industrial structure and the position of SMEs.....</i>	<i>34</i>
1.4.2 <i>EU framework policies and national strategic documents.....</i>	<i>35</i>
1.4.3 <i>Key challenges and opportunities for Slovak businesses.....</i>	<i>36</i>

2	OBJECTIVE AND METHODOLOGY OF OUR RESEARCH ...	39
2.1	Research task and objectives	39
2.2	Methods	40
2.2.1	<i>Sustainable Business Models Indicators</i>	40
2.2.2	<i>Green Logistics Development Models</i>	41
2.2.3	<i>Sustainable Development Goals Indicators</i>	43
2.2.4	<i>Green Production Indicators</i>	46
2.2.5	<i>Statistical Methods</i>	47
3	RESULTS OF THE REALIZED RESEARCH	51
3.1	Analytical view of the Innovation in Sustainable Business Models	51
3.2	Analytical view of the Green Logistics.....	62
3.3	Analytic view of Sustainable Development Goals for Sustainable Production	74
3.4	Analytic view of Green Production Measurement	86
3.5	Analytical view of Green Innovation Models	94
	CONCLUSION	100
