PART I THEORY AND REALITY

1	Issues in defining and punishing environmental crimes: An introduction <i>Susan Lea Smith</i>	2
2	Corporate environmental non-compliance and the effects of internal systems and sanctions <i>Sally S. Simpson and Jocelyn Evens</i>	36
3	The law and psychology of environmental crimes <i>Lori Hoetger and Arden Rowell</i>	68
4	Environmental crimes and the treadmill of production: Neoliberal policy and neocolonialism <i>Michael A. Long, Jericho R. McElroy and Michael J. Lynch</i>	88
5	Criminal enforcement of environmental laws cannot deter ecological harm or achieve environmental justice <i>Paul B. Stretesky, Ekaterina Gladkova and Nathan Stephens-Griffin</i>	106
6	Environmental harms and innovative justice <i>Rob White</i>	128
7	Methodological challenges in empirical research on environmental crimes <i>Serena Favarin and Cecilia Meneghini</i>	146
8	Green crime prevention stirred and spiced: An AGILE approach to regulatory crime prevention <i>Iina Sahramäki</i>	168

PART II TRANSNATIONAL AND INTERNATIONAL ENVIRONMENTAL CRIMES

9	Transnational environmental crime <i>Daan van Uhm</i>	188
---	----------------------------------------------------------	-----

10	International wildlife trade <i>Ragnhild Sollund</i>	202
11	Illegal trafficking in plants and timber <i>Angus Nurse</i>	227
12	Transnational environmental crime and corruption <i>David Aled Williams</i>	246
13	Environmental crime and shadow economy: Evidence from Italy <i>Anna Rita Germani and Angelo Castaldo</i>	263
14	International environmental crimes and ecocide <i>Darryl Robinson</i>	281
PART III THE GLOBAL SCOPE OF ENVIRONMENTAL CRIMES		
15	Environmental crimes and criminal enforcement in the United States <i>Susan Mandiberg</i>	305
16	European environmental criminal law and enforcement <i>Michael Faure and Mengxing Lu</i>	324
17	Green crimes and environmental harms in the Latin American region <i>Inés Arroyo-Quiroz, José Luis Carpio-Domínguez and Jesús Ignacio Castro-Salazar</i>	346
18	Reflections from Africa: Limited state capacity and the rise of environmental organized crime <i>Derica Lambrechts</i>	365
19	Criminal enforcement of environmental law in South Africa <i>Michael Kidd and Melissa Strydom</i>	382
20	Chinese environmental crimes and criminal justice <i>Ying Wang</i>	407
	<i>Index</i>	428

Figures

5.1	Total carbon emissions from fossil fuel consumption and cement production, 1950 to 2019	111
7.1	Flows of illegal end-of-life vehicles, country-to-country connections (2016–2019)	159
13.1	Geographical (region-level) distribution of criminal proceedings for crimes against the environment (2006–2016, average values), per 100,000 inhabitants	267
13.2	Geographical (region-level) distribution of criminal proceedings for waste crimes (2006–2016, average values), per 100,000 inhabitants	268
13.3	Box plots of the distributions in the years considered (2006–2016) of criminal proceedings for both environmental violations and waste-related violations	269
13.4	Geographical (region-level) distribution of shadow economy proxied by irregular labour (2006–2016, average values), per 100,000 inhabitants	271
13.5	Box plot of the distribution in the years considered (2006–2016) of the shadow economy proxied by irregular workers	272
17.1	Main socio-environmental conflicts in Latin America (as of June 2023)	348
17.2	Socio-environmental conflicts in Latin America per country (as of June 2023)	350
17.3	Foreign companies positioned in Latin America involved in the development of socio-environmental conflicts	354
17.4	Foreign corporations situated in Latin American countries involved in the extraction of minerals and other materials, by country	356
17.5	Foreign corporations situated in Latin American countries involved in the fossil fuels, climate, and energy industries, by country	357
17.6	Companies present in the Latin American region involved in socio-environmental conflicts	358

Tables

7.1	Example of systematisation of the information included in the Basel Convention National Reports	158
7.2	Descriptive statistics of the end-of-life vehicles and e-waste trafficking networks (2016–2019)	159
7.3	Example of dataset combining network information with country-level and relational data	160
13.1	Variable description and data sources	266
13.2	Descriptive statistics	273
13.3	Estimation results	275
13.4	Robustness check: shadow economy and waste-related crimes	277
17.1	Main socio-environmental conflicts in Latin America, by country (as of June 2023)	349
17.2	Examples of conflicts on water management reported for Mexico by the EJAtlas (as of June 2023)	351
17.3	Examples of conflicts associated with the extraction of minerals and other construction materials reported for Mexico by the EJAtlas (as of June 2023)	352
17.4	Examples of conflicts over land and biomass reported for Brazil by the EJAtlas (as of June 2023)	352
17.5	Examples of conflicts associated with the extraction of minerals and other construction materials reported for Brazil by the EJAtlas (as of June 2023)	353
17.6	Examples of conflicts associated with the extraction of minerals and other construction materials reported for Colombia by the EJAtlas (as of June 2023)	353
18.1	Key findings from Africa Organized Crime Index 2021 (Africa Organized Crime Index, 2021, pp. 16–26)	374
19.1	Illustration of maximum prescribed penalties for certain offences, in South African rands (ZAR)	386
20.1	Provisions for offences involving environmental pollution	417
20.2	Provisions of the crimes against natural resources	420
20.3	Provisions for biosecurity crimes	422
