

CONTENTS

Permanent Magnet Motor Design Klug Ludovít – STU Bratislava	7
Voltage Control and Accuracy of Its Measurement Based on Park Transformation Skala Bohumil – University of West Bohemia, Pilsen.....	14
Mathematical Model of Induction Machine under Consideration of Higher Harmonic Components of Magnetic Field Zeman František – University of West Bohemia, Pilsen	19
Influence of Slip and Winding – Angle over Magnetic Field Capacitor Motor Hrbáč Pavel – Technical University Ostrava	25
Bearing Currents Kutnohorský Vladimír - University of Technology Brno	30
Frequency Scalar- Control Algorithms of Induction Motor Żywiec Aleksander – Silesian TU, Gliwice	34
Implementation of Vector Control Algorithms of Induction Motors for TMS320C50 and TMS320F240 Digital Signal Processor Żywiec Aleksander, Niestroj Roman - Silesian TU , Gliwice	46
Linearized Field-Circuit Mathematical Model of Synchronous Generator Taking into Account Saturation Effect Boboń Andrzej, Kudla Jerzy – Silesian TU, Gliwice	56
Equations and Parameters of Linearized Circuit Mathematical Model of Synchronous Generator Taking into Account Saturation Effect Kudla Jerzy – Silesian TU, Gliwice	63

Automotive Alternator Analyzis Hájek V., Kuchyňková H., Horná M. – University of Technology Brno	70
Characteristics of Input Voltage and Current of AC Motors Supplied from Frequency Converters Chmelík Karel, Čech Václav – Technical University Ostrava	79
High Efficiency PM Motors for Low Power Traction Bršlica Vít – VA Brno.....	85
Underwater Devices Cable Bushing Janoušek J., Buhr K., Voženílek P. – CTU Prague.....	91
Interactive Teaching Program of SRM Peřina Jan – Czech Technical University in Prague.....	95
