

Contents of the Conference Proceedings

		Page
Advertisement of Concast AG		
1.	CLEAN STEEL FOR CONTINUOUS CASTING – A REVIEW Kováč P., Kijac J.; Technical University Košice; Masek V.; U.S.Steel Košice; Slovak Republic	5
2.	ON THE BEHAVIOUR OF AL DURING VACUUM DEGASSING Gustafson T., Partyka A.; CONCAST AG; Switzerland	26
Advertisement of Heraeus Electro-Nite GmbH		
3.	HYDRIS AND NITRIS MEASUREMENTS IN LIQUID STEEL Sikula F.; Heraeus Electro-Nite Ges.m.b.H; Austria	38
4.	MODERNIZATION OF THE 3-STRAND CCM. OPTIMIZATION OF THE SECONDARY METALLURGY AND CONTINUOUS CASTING “KNOW - HOW” IN FERROSTAL ŁABĘDY LTD. Bulkowski L., Grabelus J., Zdonek B.; Institute for Ferrous Metallurgy, Gliwice; Ochab K., Rachwalski M.; Ferrostal Łabędy Ltd.; Poland	69
5.	NEW STEPS IN DEVELOPMENT CONCEPT FOR MODERN HIGH EFFECTIVE BILLET CCM Belobrov Y., Sus Y., Tiunov V.; Novokramatorsky Machine building Plant; Smirnov A.; Donetsk National Technical University; Ukraine	88
Advertisement of VESUVIUS Česká republika, a. s.		
6.	EXPERIENCE ON THE INSTALLATION OF THE VESUVIUS PRECISION CONTROL SYSTEM AT INEXA ŠTORE Cesar j., Ploštajner H.; INEXA ŠTORE; Slovenia	98
7.	TECHNOLOGICAL IMPROVEMENT OF THE CONTINUOUS CASTING EQUIPMENT Nr. 1, 2 AND 3 IN THE COMPANY OF ISPAT NOVA HUT A.S. IMPLEMENTED FOR THE PURPOSE OF IMPROVING THE QUALITY PARAMETERS OF BLANKS CAST CONTINUOUSLY AND REACHING HIGHER EQUIPMENT EFFICIENCY Stančík M., Mischinger T.; ISPAT NOVÁ HUŤ; Czech Republic	110
Advertisement of Moravia GRAN LIFT, s. r. o.		
8.	DEVELOPMENT OF BREAKOUTS ON CONTINUOUS CASTING MACHINE NR. 3 IN THE COMPANY ISPAT NOVÁ HUŤ A.S. Zajíček I., Šupčík J.; ISPAT NOVÁ HUŤ; Czech Republic	118
9.	ANALYSIS OF BILLET'S PIPE MOULD TEMPERATURE FIELD OF CCM No. 3 Molínek J., Příhoda M., Václavík L.; VŠB-TU Ostrava, FMME; Válek L.; ISPAT NOVÁ HUŤ; Czech Republic	126
10.	CRACK FORMATION IN BILLET CASTING. HOW MUCH OPTIMIZATION OF MOLD FLUX CAN HELP? Giacobbe A., Tintori S., Carli R.; Prosimet SpA; Monaci A., Luni M.; Acciaierie Venete SpA; Italy	136
Advertisement of IRG-AG, a. s.		
11.	SIMULATION OF TEMPERATURE WAVE PROPAGATION IN CC MOULD WALL Pyszko R., Příhoda M., Molínek J.; Technical University Ostrava; Czech Republic	145
12.	BISMUTH-BEARING FREE-CUTTING STEEL IN THE PRODUCTION PORTFOLIO OF TŽ, A.S. Klaspia J.; TRINECKÉ ŽELEZÁRNY; Czech Republic	157

Advertisement of Třinecký inženýring, a. s.

13. **CONTINUOUS CASTING TUNDISH FROM THE POINT OF VIEW OF REFRACTORIES** 162
Cieslar M.; TŘINECKÉ ŽELEZÁRNY; Molin A., Powetz H., Rusnok S.; Refrasil; Czech Republic
14. **RECENT DEVELOPMENTS IN BILLET CASTERS FOR PRODUCING SPECIAL STEEL GRADES** 168
Das A. K., Paul A. K.; Tata Iron & Steel Co. Ltd., Jamshedpur; G. R. Belgal G. R.; CONCAST Standard Eng.; India; Kohl S.; CONCAST AG; Switzerland
15. **PRODUCTION AND MECHANICAL PROPERTIES OF LOW-CARBON DEEP-DRAWING STEELS** 199
Cupek J., Plevko M.; TŘINECKÉ ŽELEZÁRNY; Czech Republic

Advertisement of TŘINECKÉ ŽELEZÁRNY – strojírenská výroba, a. s.

16. **RESULTS REACHED AT BILLET QUALITY MONITORING ON CCM 2 TŘINEC STEELWORKS, A.S.** 209
Adolf Z., Husar I., Moravec R., Gumulec T.; Technical University Ostrava; Piegza Z.; TŘINECKÉ ŽELEZÁRNY; Czech Republic
17. **USE OF RAPID QUENCHING TECHNOLOGIES FOR PRODUCTION OF STEEL GRADES USING THE PILOT SCALE BILLET CASTER AT CORUS RD&T TEESSIDE TECHNOLOGY CENTRE** 222
Scholes A., McDonald M., Watkinson H.; Corus; UK; Gresham N., Milne A.; Sponsored student, Cambridge University; UK

Advertisement of LOVINIT, a. s.

18. **INDUSTRIAL APPLICATION OF TWO NUMERICAL MODELS IN CONCASTING TECHNOLOGY** 236
Štětina J., Kavička F., Stránský K., Dobrovská J., Sekanina B., Ramík P.; Technical University Brno; Dobrovská V.; Technical University Ostrava; Czech Republic; Heger J.; ALSTOM Power technology Centre, Whetstone, Leicester; UK; Velička B.; VÚHŽ Dobrá; Czech Republic; Gontarev V., Kosec B.; Faculty of Natural Sciences and Engineering, University of Ljubljana, Slovenia
19. **NUMERICAL SIMULATION OF SOLIDIFICATION IN CONTINUOUS CASTING OF ROUNDS** 251
Bernard Ch., Lechner M.; Christian-Doppler Laboratory for Metallurgical Fundamentals of Continuous Casting; Forsthuber M., Doringe E., Rauter W.; Voest-Alpine Stahl Donawitz; Austria

Advertisement of JAP TRADING, spol. s r. o.

20. **ADVANCES IN MODELLING FLUID FLOW IN THE STEEL-MAKING PROCESS - AN OVERVIEW AND APPLICATIONS** 260
Breitfeld O., Pütz O., Rödl S.; Betriebsforschungsinstitut – VDEh; Germany
21. **NUMERICAL MODELING OF STEEL FLOW IN A SIX-STRAND CONTINUOUS CASTING TUNDISH** 274 POSTER
Merder T., Warzecha M., Jowsa J.; Technical University of Częstochowa, FMPTAP; Poland

Advertisement of D5, a. s.

22. **MATHEMATICAL OPTIMIZATION OF THE FLUID FLOWS AND INCLUSIONS REMOVAL IN TUNDISH** 280
Smirnov A., Gridin S., Eronko S.; Donetsk National Technical University; Plugatar V.; Novokramatorsky Machine building Plant; Tsuprun A.; JSC „Doniks“; Ukraine

23. **USING THE EQUALIZATIONS OF MULTIPLE REGRESS TO PREDICT THE INTERCOLUMNAR CRACKING IN BILLETS** 292
Lis T., Nowacki K., Jama-Labusek B.; Silesian University of Technology Katowice; Poland
24. **THE TEMPERATURE CONTRACTION COEFFICIENT OF LOW CARBON STEELS** 297
Hloušek J.; Technical University Brno; Morávka J., Mrajca V.; Třinecký inženýring; Adamik M.; TŘINECKÉ ŽELEZÁRNY; Czech Republic
25. **ROLE OF CFD ANALYSIS AND OPTIMIZATION OF THE CONTINUOUS CASTING PROCESSES** 305
Mukhopadhyay A., Lam J.; Fluent Inc. Lebanon; USA; Střasák P.; TechSoft Engineering Praha; Czech Republic
- Advertisement of PROGRESTECH, s. r. o.**
26. **HYBRID MODELLING OF A TRANSITION ZONE IN THE TUNDISH / PONY LADLE IN CONTINUOUS CASTING** 311
Pieprzyca J., Sosnowski R., Kudliński Z.; Silesian University of Technology Katowice; Poland
27. **OPERATIONAL VERIFICATION OF TRANSITION ZONE EXTENT IN CONTINUOUSLY CAST BILLETS OF 150 × 150 MM IN SIZE UNDER CONDITIONS OF THE NO. 2 CC-MACHINE AT TŽ, a.s.** 321
Michalek K., Sawová M., Gryc K.; Department of Metallurgy, Technical University of Ostrava; Pindor J., Češek M.; TŘINECKÉ ŽELEZÁRNY; Plura J.; Department of Quality Management, Technical University of Ostrava; Czech Republic; Pieprzyca J.; Silesian University of Technology Katowice; Poland
- Advertisement of SLOVMAG, a. s. Lubeník**
28. **PREDICTION OF CASTING INTERMIX AREA CHEMICAL COMPOSITION** 333
Korytko P.; U.S.Steel Košice; Slovak Republic
29. **HEAT EXCHANGE, ENERGY AND METAL SAVING IN THE FURNACES FOR BILLETS REHEATING** 343
Constantinescu D.; University Politehnica of Bucharest; Romania; Mazankova M.; Military Academy of Brno; Czech Republic
- Advertisement of Montáže Přerov, a. s.**
30. **QUALITY MANAGEMENT AT THE STEELWORKS DIVISION PLANT, U.S.STEEL KOŠICE, LTD. USING A DECISION AND PRODUCTION MANAGEMENT SUPPORT SYSTEM OKO1** 354
Fedáková D., Marek P.; U.S.Steel Košice; Slovak Republic
31. **DETERMINATION OF RETENTION TIME AND LENGTH OF MIXING ZONE BY NUMERICAL ANALYSIS, BY PHYSICAL SIMULATION AND ACTIVE TRACING METHODS** 359
Pyš J., Válek L., Polach J., Mischinger T., Haščin J.; ISPAT NOVÁ HUŤ; Hons J., Malaník K., Rosypal F., Mayer F.; VÚHŽ Dobrá; Czech Republic
