Preface x

Chapter One 1
Smart Buildings: A Path Towards a Sustainable Urban Future
Introduction 1
1.1 Definition of Smart Buildings 2
1.2 Challenges and Barriers to Smart Building Implementation 5
1.3 Opportunities and Benefits of Smart Building Technology 7
1.4 Importance and Objectives of Understanding Smart Buildings and Cities 9
References 11

Chapter Two 12
Features and Importance of Smart Buildings
Introduction 12
2.1 Importance of Smart Buildings in Cities 12
2.2 Integration of Smart Buildings within the Framework of Smart Cities 14
2.3 Performance of Cities in Relation to Intelligence 16
2.4 Smart City and Smart Infrastructures: A Novel Link for Improving Urban Life 19
2.5 Smart Cities and Smart Homes: Differences and Integration Challenges 21
2.6 Challenges in Adopting Smart City Technologies 23
2.7 The Role of Technology in Enhancing the Efficiency of Smart Buildings 27
2.8 How Smart Buildings Operate Within Smart Cities 31
2.9 Impact of Smart Buildings on Health and Well-Being 35
References 38

Chapter Three: 42
Disruptive Technologies in the Formation of Smart Cities
Introduction 42
3.1 Key Technologies in the Creation of Smart Cities 42
3.2 Mobile Phones as Gateways to the Internet of Things (IoT) 45
3.3 Incorporating Smartness into Buildings 47
3.4 The Role of IoT in Smart Homes 54
3.4.1 Architecture of the Internet of Things in Smart Buildings ... 62
3.5 Blockchain Technology in Smart Buildings 66
3.6 Machine Learning in Smart Buildings 70
3.7 Renewable Energy in Smart Building Development 72
References 75

Chapter Four: 79
The Importance of Standards in Optimizing the
Performance of Smart Cities
Introduction 79
4.1 International Standard Indicators 80
4.2 Understanding the Standardization Activities of Smart Cities 81
4.3 The Main International Organizations in Standardization Are 84
4.4 Key Activities of Global Standards Within the BSI Framework ... 84
4.5 A Guide to Standards in the Smartification of Buildings
and Cities 86
4.5.1 International Standards 87
4.5.1.1 ISO 37120 Standard - Indicators for Urban Services
and Quality of Life 87
4.5.1.2 ISO 37122 Standard - Indicators for Smart City
Management 88
4.5.1.3 ISO 50001 Standard - Energy Management Systems .. 88
4.5.1.4 ISO 22301 Standard - Security and Business
Continuity Management Systems 88
4.5.2 Standards Related to Smart Technologies 89
4.5.2.1 ISO/IEC 14543 Standard - Control of Smart
Home Systems 89
4.5.2.2 ISO/IEC 27001 Standard - Information Security
Management 89
4.5.2.3 BIM Standards - Building Information Modeling 89
4.5.3 Communication Standards and Internet of Things (IoT) 90
4.5.3.1 5G and IoT Standards 90
4.5.3.2 LoRaWAN and NB-IoT Standards 90

4.5.4 Local and National Regulatory Standards 90
4.5.4.1 Energy Regulations and Sustainable Buildings 90
4.5.4.2 Smart City Regulations in Various Cities 91
4.5.5 Environmental and Sustainability Regulatory Standards 91
4.5.5.1 LEED (Leadership in Energy and Environmental Design) Standard..... 91
4.5.5.2 BREEAM (Building Research Establishment Environmental Assessment Method)..... 92
4.6 Importance of Standards in Smart City Development..... 92
References..... 93

Chapter Five 95
The Impact of Smart Buildings on Smart Cities
Introduction..... 95
5.1 The Impacts of Smart Buildings on Various Aspects of Smart Cities..... 95
5.2 Trend Analysis of Domain Progress: From Innovation to Integration 104
5.3 Key Final Points..... 108
