CONTENTS

Preface xv

PART ONE Introduction 1

Recommended Reading 1

1 Information Resource Management: Description, Access, Organization 3
Introduction 3
Timelines in Information Access 5
Library and Internet Access Provisions 11
Bibliographic Control 12
Functions of Bibliographic Control 13
Bibliographic Control through Surrogates 15
Surrogate Production 19
Description 19
Access 20
Organization 20
Library Catalogs 21
General Characteristics 21
Forms of Catalogs 22
Displaying Cataloging Records 24
Cataloging Operations 25
Cataloging Files 26
Cataloging Procedures 26
Examples of Cataloging Records 29
Conclusion 39
Notes 40

PART TWO Description 43

Standards and Tools 43
Recommended Reading 43

2 Foundations, Principles, and Standards of Resource Description 47
Bibliographic Description and Surrogate Records 47
Contributions to Cataloging Theory 47
Panizzi's Principles 47
Jewett's Principles 48
Cutter's Principles 48
Lubetzky's Principles 49
Paris Principles 49
International Standard Bibliographic Description (ISBD) 50
Universal Bibliographic Control (UBC) 51
Functional Requirements for Bibliographic Records (FRBR) 52
Development of Standards 53
British Museum Cataloguing Rules (1839) 53
Jewett's Rules (1853) 53
Cutter's Rules (1876) 54
AA (1908) 54
Prussian Instructions 55
Vatican Code 55
ALA (1941 Draft) 55
LC (1949) 56
ALA (1949) 56
AACR (1967) 57
AACR2 (1978) 58
AACR2R (1988) 59
AACR2R (1998) 59
AACR2R (2002) 60
The Concise AACR2 60
RDA (Resource Description and Access) 60
Metadata Schemas 61
Notes 61

3 Anglo-American Cataloguing Rules: Description 64
Introduction 64
Types of Library Resources 64
ISBD(G) 65
Organization of the Description 65
Options 67
Library of Congress Rule Interpretations 67
Sources of Information 68
Punctuation 77
Levels of Description 81
First Level 81
Second Level 82

Third Level 82
Policies on Descriptive Level 82
Areas of Description 83
Title and Statement of Responsibility Area 83
Edition Area 89
Material (or Type of Publication) Specific Details Area 90
Publication, Distribution, etc., Area 91
Physical Description Area 94
Series Area 104
Note Area 105
Standard Number and Terms of Availability Area 111
Supplementary Items 112
As a Separate Item 112
As a Dependent Item 112
Analysis 112
Analysis of Monographic Series and Multipart Monographs 112
Notes 114

4 Dublin Core and Other Metadata Schemas 115
Metadata 115
Dublin Core 116
Introduction 116
Dublin Core Element Set 117
Other Metadata Standards for Resource Description 124
MODS (Metadata Object Description Schema) 124
TEI (Text Encoding Initiative) 126
EAD (Encoded Archival Description) 131
VRA (Visual Resources Association) Core Categories 133
ONIX (Online Information Exchange) 138
Notes 141

PART THREE Access and Authority Control 143

Standards and Tools 143
Recommended Reading 143

5 Access Points: Name and Title 145
Introduction 145
Principles of Choice of Access Points 146
Concepts 146
Main Entry 146
Authorship 147
Choice of Main Entry 150

Types of Main Entry 150
Conditions of Authorship 151
Main Entry under Personal Author 151
Main Entry under Corporate Body 155
Main Entry under Title 157
Changes in Title Proper 159
Monographs in One Physical Part 159
Monographs in More Than One Physical Part 159
Serials 159
Integrating Resources 160
Changes of Persons or Bodies Responsible for a Work 160
Monographs 160
Serials 160
Integrating Resources 161
Added Entries 161
Added Entries under Personal Names 161
Added Entries under Corporate Names 161
Added Entries under Titles 162
Added Entries under Series 162
Analytical Added Entries 162
Recording of Added Entries 162
Notes 162

6 Authority Control: Forms of Name Headings and Uniform Titles 164
Forms of Access Points 164
Principles of Authority Control 164
Principle of Uniform Headings 164
Principle of Unique Headings 165
The Authority Record 165
Name Authority Control 166
Headings for Persons 167
Choice of Name 167
Choice of Form of Name 169
Choice of Entry Element 170
Additions to Names 172
Distinguishing Persons with the Same Name 173
Geographic Names in Headings 174
Language 174
Changes of Name 174
Additions to Place Names 174
Headings for Corporate Bodies 175
Definition 175
Choice of Name 176
Choice of Form 176

Modifications 177
Choice of Entry Element 178
Conferences, Congresses, Meetings, etc. 180
Governments and Government Bodies 180
Government Officials 181
Uniform Titles 182
Format 182
Anonymous Works Created before 1501 183
Choice of Uniform Title 183
References 184
Personal Name Headings 185
Names of Corporate Bodies and Geographic Names 187
Uniform Titles 188
Notes 189

PART FOUR Subject Access and Controlled Vocabularies 191

Standards and Tools 191
Recommended Reading 191

7 Principles of Controlled Vocabularies and Subject Analysis 195
Introduction 195
History of Subject Access in Library Catalogs 196
The Classed or Classified Entry 196
The Dictionary or Alphabetical Specific Catalog 197
The Online Catalog 197
Subject Vocabularies 198
Cutter's Principles of Subject Cataloging 199
The User and Usage 199
Uniform and Unique Headings 200
Specific and Direct Entry 201
Consistent and Current Terminology 201
Cross References 202
Syntax and Application 203
Precoordination 204
Postcoordination 206
Subject Authority Control 206
Subject Authority Record 207
Levels of Subject Authority Control 207
Functions of a Subject Authority File 208
General Methods of Subject Analysis 208
Assigning Subject Headings: General Guidelines 209
Levels of Subject Cataloging 210

Specific (Co-Extensive) Entry 210
Number of Headings 210
Multitopical and Multi-Element Works 211
Notes 211

8 Library of Congress Subject Headings 213
Introduction 213
Format of Library of Congress Subject Headings and MARC Coding 214
Subject Authority Records 214
Subject Headings in Bibliographic Records 217
Main Headings: Functions, Types, Syntax, and Semantics 217
Topical and Form Headings 218
Syntax 218
Semantics 219
Headings for Named Entities 221
Subdivisions 224
Form Subdivisions 224
Topical Subdivisions 225
Free-Floating Form and Topical Subdivisions 225
Chronological Subdivisions 229
Exercise 8-1 231
Geographic Subdivisions 232
Order of Subdivisions 235
Exercise 8-2 236
Cross References 237
Equivalence Relationships 237
Hierarchical Relationships 238
Associative Relationships 239
General References 240
Assigning LC Subject Headings: Precoordination vs. Postcoordination 241
Assigning LC Subject Headings: Special Materials 242
Electronic Resources 242
Literature 244
Biography 250
Exercise 8-3 253
Subject Headings for Children's Literature 254
Notes 256

9 FAST (Faceted Application of Subject Terminology) 258
Introduction 258
Development 259
Subject 259

Coverage 259
Type 260
Faceting of Subject-Related Elements 260
Topic 262
Geographic 262
Time 264
Names of Persons, Corporate Bodies, Events, and Uniform Titles 264
Form/Genre 265
Fast Authority Files 265
Modular Approach 266
Notes 266

10 Sears List of Subject Headings 268
Introduction 268
Main Headings 270
Topical Headings 270
Form Headings 271
Geographic Headings 272
Name Headings 272
Cross References 273
Specific *See* References 273
Specific *See Also* References 274
General References 275
Examples of Cross References 275
Subdivisions 276
Subject or Topical Subdivisions 276
Form Subdivisions 276
Exercise 10-1 277
Geographic Subdivisions 278
Period or Chronological Subdivisions 278
Exercise 10-2 278
Key Headings for Subdivisions 279
Order of Subdivisions 279
Headings to be Added by the Cataloger 280
Topical Subjects 280
Geographic Headings 281
Names 282
Exercise 10-3 283
Subject Headings for Special Types of Materials 283
Subject Headings for Biography 283
Subject Headings for Literature 285
Exercise 10-4 288
Subject Headings for Nonprint Resources 288
Notes 289

11 Medical Subject Headings 290
Introduction 290
Brief History 290
Structure of MeSH 291
Types of MeSH Terms 292
Descriptors 292
Qualifiers 294
Geographics 296
Entry Vocabulary 297
Cataloging Instructions 298
Assigning Main Headings 298
Assigning Two or More Main Headings 299
Representation of Complex Subjects 299
Assigning Precoordinated Headings 300
Assigning Topical Subheadings 300
Geographic Locations 300
Language 301
Publication Types 301
MARC Coding 302
Cataloging Examples 303
Notes 304

PART FIVE Organization of Library Resources 307

Standards and Tools 307
Recommended Reading 308

12 Classification and Categorization 309
Definition 309
Basic Concepts 311
Notation 313
Components of a Classification Scheme 313
How to Classify 313
Choosing a Number: General Guidelines 314
Choosing a Number: Multitopical Works 315
Call Numbers 316
MARC Coding for Classification and Item Numbers 317
Modern Library Classification Systems 318
Notes 318

13 Dewey Decimal Classification 320
History 320
The Beginning 320
Early Editions 321

Fifteenth Edition 322
Sixteenth Edition and Later Editions 322
Publication of the Classification 323
Versions of DDC 323
Formats of DDC Schedules 323
Revision 324
Current Procedures for Revision 324
Forms of Revision 324
Basic Principles 326
Classification by Discipline 326
Structural Hierarchy 327
Notation 329
Symbols 329
Notational Hierarchy 330
Mnemonics 331
Enumeration versus Synthesis 331
Evaluation 331
Merits 332
Weaknesses 332
Assigning Call Numbers 333
Class Numbers 333
Number Building: Full Edition 334
Combining Schedule Numbers 334
Exercise 13-1 335
Adding Notation(s) from the Tables to a Base Number 336
Exercise 13-2 342
Exercise 13-3 345
Classification of Literature 346
Exercise 13-4 351
Segmentation Mark 352
Number Building: Abridged Edition 352
Combining Schedule Numbers 353
Exercise 13-5 353
Adding Notation(s) from the Tables to a Base Number 354
Exercise 13-6 357
Classification of Biography 361
Exercise 13-7 362
Item or Book Numbers 362
Cutter Numbers 363
Unique Call Numbers 365
Exercise 13-8 366
Cutter Numbers for Biography 367
Cutter Numbers for Literary Works 367
Edition Mark 371
Copy and Volume Number 371

Prefixes to Call Numbers 372
Exercise 13-9 372
Notes 373

14 Library of Congress Classification 375
Introduction 375
History 376
Basic Principles and Structure 377
Overall Characteristics 377
Main Classes 378
Subclasses 380
Divisions 380
Notation 381
Symbols 381
Hospitality 383
Mnemonics 384
Evaluation of the Library of Congress Classification 384
Merits 384
Weaknesses 385
The Schedules: Revision and Publication Patterns 385
Revision 385
Publication Patterns for Revised Schedules 386
Format of Schedules 386
Indexes 386
Applying the Library of Congress Classification: Instructions and Examples 387
Library of Congress Classification Schedules 387
Class Numbers 387
Cutter Numbers 388
Dates in Call Numbers 394
Exercise 14-1 396
Tables 397
Tables of General Application 397
Tables of Limited Application 401
Tables for Internal Subarrangement 405
Exercise 14-2 408
Notes 409

15 National Library of Medicine Classification and Other Modern Classification Schemes 410
Introduction 410
National Library of Medicine Classification 410
Introduction 410
Brief History and Current Status 411
Basic Principles and Structure 412

Notation 412
Index 416
Classification of Special Types of Materials 416
Cataloging Examples 418
Other Modern Library Classification Systems 421
Expansive Classification 421
Universal Decimal Classification 424
Subject Classification 430
Colon Classification 432
Bibliographic Classification 436
Notes 442

PART SIX Encoding Formats and Production of Cataloging and Metadata Records 445

Standards and Tools 445
Recommended Reading 446

16 MARC Formats and Encoding Schemas 447
Introduction 447
MARC 21: History 447
Types of MARC 21 Formats 449
Levels of MARC 21 Formats 450
MARC 21 Full 450
MARC 21 Concise 450
MARC 21 LITE 451
Availability of MARC 21 Formats 451
Architecture of MARC 21 Formats 451
Structural Components of the MARC 21 Format 452
Units in a MARC 21 Record 454
Organization of a MARC 21 Record 455
MARC-Related Formats 458
SGML (Standard Generalized Markup Language) 459
XML (eXtensible Markup Language) 459
DTD (Document Type Definition) and XML Schema 461
XML in Library Applications 464
MARCXML 465
MODS (Metadata Object Description Schema) 465
MADS (Metadata Authority Description Schema) 471
Metadata Records Encoded in SGML and XML 471
Dublin Core 471
EAD (Encoded Archival Description) 473
ONIX (Online Information Exchange) 473
Notes 478

17 Producing and Processing Cataloging Records 480
Introduction 480
Major Sources of Cataloging Copy 482
The Library of Congress 482
Program for Cooperative Cataloging (PCC) 482
Cataloging-In-Publication (CIP) 483
Bibliographic Utilities 483
Other Networks and Services 485
Online Cataloging 486
Introduction 486
Online Cataloging Activities 486
Conversion and Maintenance of Cataloging Records 488
Conclusion 489
