

Contents

Preface	xi
Acknowledgments	xiii
1 Introduction to Mechatronics	1
1.1 Introduction	1
1.2 Mechatronic Systems	1
1.3 Mechatronics Design Concept and Framework	4
1.4 Importance of Mechatronics in Medical Applications	5
References	6
2 Sensing Technology	7
2.1 Introduction	7
2.2 Transducers and Sensors	7
2.2.1 Sensor Technologies	8
2.2.2 Sensor Characterization	16
2.2.3 Sensors	21
2.3 Machine Vision	31
2.4 Sensor Applications in Medicine	34
2.4.1 Implantable Sensors	34
2.4.2 Temporary Inserted Sensors	34
2.4.3 External Sensors Exposed to Body Fluids	36
2.4.4 Sensors Used for External Applications	36
References	37
3 Actuators and Feedback Sensors	39
3.1 Introduction	39
3.2 Electromechanical Actuators	39
3.2.1 Electric Motors	40
3.2.2 DC Motors	40
3.2.3 Solenoids	42
3.2.4 Stepper Motors	43
3.2.5 Servomotor	44
3.2.6 Piezoelectric Actuators	45
3.3 Fluid and Pneumatic Power Actuators	45
3.3.1 Hydraulic Actuators	46
3.3.2 Pneumatic Actuators	47
3.4 Other Actuators	48
3.4.1 Chemical Actuators	48
3.4.2 Shape Memory Alloy Actuators	49
3.4.3 Ionic Polymer-Metal Composite Actuators	49
3.4.4 MEMS Actuators	50

3.5	Feedback Sensors	50
3.6	Selection Criteria	50
	References	51
4	Mechanisms and Mechanical Devices	53
4.1	Introduction	53
4.2	Conversion of Rotational Motion into Linear Motion and Vice Versa	54
4.2.1	Rack and Pinion	54
4.2.2	Ball Screw	54
4.3	Changing Rotational Speed, Torque, and Angular Orientation of Rotational Motion	55
4.3.1	Gear Terminology	55
4.3.2	Spur and Helical Gears	56
4.3.3	Bevel Gears	57
4.3.4	Face Gears	57
4.3.5	Worm Drive	57
4.3.6	Harmonic Drive Gear Train	58
4.3.7	Epicyclic Gear Train	59
4.4	Transformation of Rotary Motion in One Plane to Motion in Another Plane	60
4.4.1	Couplings	60
4.4.2	Chain	61
4.4.3	Belt	61
4.5	Clutches and Brakes	62
4.5.1	Brakes	62
4.5.2	Clutches	63
4.6	Creation of a Particular Manner of Motion	63
4.6.1	Cam Mechanism	63
4.6.2	Linkage	64
4.7	Bearings	65
	References	67
5	Processing and Control Systems	69
5.1	Introduction	69
5.2	Basics of Control	69
5.2.1	Modeling in the Frequency Domain	71
5.2.2	Modeling in the Time Domain	72
5.3	Data Acquisition	73
5.3.1	Sampling and Aliasing	73
5.3.2	Quantization and Coding	74
5.3.3	Analog-to-Digital Converter	74
5.3.4	Digital-to-Analog Converter	75
5.4	Microprocessors and Microcontrollers	75
	References	77

6	Artificial Intelligence and Expert Systems	79
6.1	Introduction	79
6.2	Artificial Intelligence	79
6.2.1	Semantic Net	80
6.2.2	Semantic Tree	80
6.2.3	Combining Frames with Rules	81
6.2.4	Search Spaces	81
6.2.5	Combinatorial Explosion	81
6.2.6	Problem Reduction	81
6.2.7	Forward Chaining and Backward Chaining Search	81
6.2.8	Search Methods	81
6.2.9	Properties of Search Methods	82
6.2.10	Logic	82
6.2.11	Playing Games	82
6.3	Expert Systems	83
6.3.1	Expert Systems Structure	83
6.3.2	Benefits of Expert Systems	83
6.3.3	Heuristic Reasoning	84
6.4	Artificial Neural Network	84
6.4.1	Neuron and Neurode	84
6.4.2	Neural Network Learning	86
6.4.3	Neural Network Training	86
6.4.4	Neural Network Applications in Medicine	87
6.5	Fuzzy Systems	88
6.5.1	Crisp Logic versus Fuzzy Logic	88
6.6	Neuro Fuzzy Systems	89
6.6.1	Neurons Performing Fuzzy Operations	89
6.6.2	Regular Neural Network with Fuzzy Input and Output	90
	References	90
7	Medical Imaging	91
7.1	Introduction	91
7.2	Medical Imaging Applications	91
7.2.1	Ultrasound	91
7.2.2	Magnetic Resonance Imaging	94
7.2.3	CT Scan	96
7.2.4	Nuclear Imaging	97
	References	99
8	Applications of Mechatronics in Medicine	101
8.1	Introduction	101
8.2	Robotics in Medicine	101
8.2.1	Robots in Surgery	102
8.2.2	Nano Robotics in Medicine	103
8.2.3	Rehabilitation Robotics	104
8.2.4	Surgical Training Simulators and Haptic Interface	104

8.3	Smart Instruments and Probes	106
8.3.1	Smart Handheld Surgical Tools	107
8.4	Navigation	108
	References	109
9	Medical Case Studies in Mechatronics	111
9.1	Introduction	111
9.2	Handheld Snake-Like Robots	111
9.3	Smart Probe for Detecting Kidney Stones	115
9.4	Smart Probe for Breast Cancer	123
9.5	Ankle Sprain	135
9.6	Active Prosthetic Knee	145
9.7	Smart System for Cardiovascular Plaque Detection	152
9.8	An Instrument for Esophagectomy	161
	References	165
	Abbreviations and Symbols	169
	Index	175
