

Table of Contents

List of participants	5
Acerbi, F., Barani, C., Preliminary Photometric Elements for the Algol-Type Binary Star GSC 3560_1804 = LD 355	9
Borkovits, T., Hegedüs, T., Some Remarks on the O-C Variations of Eclipsing Binaries ..	13
Csizmadia, Sz., Patkos, L., The W UMa Star V861 Herculis	18
Demircan, O., Orbital Period Changes of Algol-Type Binaries	22
Demircan, O., Erdem, A., A New Optical Observatory in Turkey	29
Derekas, A., Kiss, L.L., Szatmáry, K., A CCD Photometric Survey of High-Amplitude δ Scuti Stars	33
Djurašević, G., Rovithis-Livaniou, H., Rovithis, P., Borkovits, T. and Biró, I. B., Possible Accretion Disk in DL Cygni System?	37
Erdem, A., Revised Photometric Analysis of the Eclipsing Binary GK Cephei	41
García, J. R., Recent Developments of Variable Star Observing at South America	46
Gráf, T., Spectroscopy of Carbon Stars ($H\alpha$ Emissions)	55
Grygar, J., Selected Highlights in Stellar Astrophysics 2000/2001	60
Hegedüs, T., Nuspl, J., Second-Order Photometric Effects on the Eclipsing Light Curves and Their Importance in the Stellar Astrophysics	69
Hegedüs, T., Biró, I. B., "EMFORT" Hungarian Robotic Telescope and Grating Spectrograph Development Project at Baja Observatory	76
Hric, L., Outburst Phenomena in Cataclysmic Variables	80
Janík, J., V 436 Per – New Photometric and Spectroscopic Study	89
Kiss, L. L., The Role of Amateur Astronomers in Variable Stars Research – Case Studies from the LPV Research	95
Kiss, L. L., Lebzelter, T., Sobotka, P., A Comparison of Visual and APT/CCD Data for Long-Period Variable Stars	103
Kreiner, J. M., Kim, C. H., Nha, I. S., An Atlas of Eclipsing Binary Stars	108
Martignoni, M., Acerbi, F., GEOS RR Lyrae Database	110
Mikolajewska, J., Optical and Near-IR Monitoring of Symbiotic Stars and Related Objects	116
Mikulášek, Z., Introduction of "Elementary" O-C Values and Their Application	117
Mkrtychian, D.E., Pulsating components of Algol-type systems	121
Özdemir, S., Demircan, O., The Wavelength Dependence of the Reflection Effect in the Ellipsoidal Light Curves of Cyg X-1	128
Pejcha, O., Sobotka P., Šmelcer, L., Marek, P., Observations of Possible Symbiotic Star V335 Vul	134
Petrík, K., Hric, L., Niarchos, P., Gális, R., and Dobrotka, A., V 471 Tauri: New Minima in Exciting Possible Triple System	137
Petrík, K., Hric, L., Niarchos, P., Velič, Z., Gazeas, K., Šmelcer, L., Hájek, P., Sobotka, P., Šimon, V., Gális, R., Koss, K., Brát, L., Lomoz, F. and Dobrotka, A., On the Progress of the International Campaign for YY Herculis	141
Rovithis-Livaniou, H., Multiplicity in Binary Stars	145

Rovithis-Livaniou, H., Tsantilas, S., Kalimeris, A., Orbital Period Study of TU Herculis	153
Sobotka, P., Brát, L., Pejcha, O., MEDUZA Group	158
Suran M.D., Rovithis-Livaniou H., Fragoulopoulou E., Evolutionary Status of the V505 Sgr System	163
Speil, J., Variability of the Red Giant TZ Cygni	167
Šimon, V., Long-Term Variability of Dwarf Novae and Soft X-Ray Transients	170
Šimon, V., Sobotka, P., Marek, P., Lehký, M., Šmelcer, L., Lomoz, F., Long-Term Activity of the X-Ray Source QR And / RX J0019.8+2156	177
Šmelcer, L., Shapes of Light Curves of Long Period Mira-Type Variable Stars	181
Wolf, M., Šarounová, L., Hornocho, K., 10 Years of EEB Observations in Ondřejov ...	184
Zejda, M., CCD Monitoring of Faint Eclipsing Binaries (Results and Perspectives) ...	189
Zejda, M., Brno Regional Network of Observers – Variable Star Section of Czech Astronomical Society and Its Activity	195
Zelinka, I., Artificial Intelligence in Astrophysics	198
