IT HAPPENED ONLY ONCE IN HISTORY!	13
<p>A streamlined review of the four thousand years and the six civilizations which have cradled the Jewish people, examining some of the perverse factors in one of history's most illogical survivals—that of a nation which has proclaimed itself God's Chosen People, and almost has the world convinced of it.</p>	
I: THE PORTABLE GOD	23
<p>A depth survey of the Pagan Age, which begins with a band of nomads known as Hebrews, who elbow their way into history, "invent" a monopoly God, establish a kingdom, survive defeat, and outlive their conquerors, only to run headlong into the Greeks.</p>

IV: THE INVISIBLE WORLD OF THE TALMUD	157

VI: THE PRINCE AND THE YELLOW STAR	207
<i>How the Jews, who with only a gesture—conversion—could have saved themselves from banishment to the ghetto, but instead chose the Yellow Star of ignominy, yet became indispensable to the medieval prince because they were the only ones who carried the torch of learning and the spirit of enterprise in an age of darkness.</i>
