

Contents

Comparative Study of Alkali-Treated and Fly-Ash-Alkali-Treated Carbon Fibers	1
Maryam Monazami and Rishi Gupta	
Development of Geopolymer Foam Materials with High Concrete Waste Content	15
Govinda Wagle, Hocine Siad, Mohamed Lachemi, Obaid Mahmoodi, and Mustafa Sahmaran	
Numerical Analysis of RC Beam Externally Reinforced with CFRP After Freeze–Thaw Cycles	29
Mohamed Ahmed, Slimane Metiche, Jean-Philippe Charron, Richard Gagné, and Radhouane Masmoudi	
Effects of Portland Limestone Cement on Expansion Due to Alkali-Aggregate Reactions	41
Athanasios Verros and Medhat Shehata	
Bond Behavior of CFRP/Concrete Joint Under Fatigue Loading: Experimental Study and Analytical Investigation	53
Ahmed Kallel, Radhouane Masmoudi, Benoit Bissonnette, and Marcelin Joanis	
Physical and Mechanical Properties of Innovative Lime-Pozzolanic Hempcrete Binder	67
Osamah Mahmood, Martin Noël, and Miroslava Kavgic	
Mechanical Properties of Basalt Fibre Reinforced Concrete: Effect of Fibre Dosage	77
Adeyemi Adesina, Erfan Zandi Lak, Sreekanta Das, and Li Gao	
Long-Term Impact of Recycled Gypsum Powder as Supplementary Cementitious Material on Concrete	85
Kasra Takbiri and Pedram Sadeghian	

Influence of Mechanical and Durability Properties of Concrete with Limestone Powder	95
Nishat Naila Meghna, Ismat Abida, Nayeem Mohammad Mashfiq, Tasnia Ahmed, Mohammad Rezaul Karim, and Md. Jahidul Islam	
Eco-Friendly Alternative to Concrete as a Building Material	107
Benson Doak, Alan Lloyd, and Samira Rizaee	
Using Recycled FRP Composites to Develop Sustainable Concrete: A State-of-the-Art Review Article	123
Alireza Jafari and Pedram Sadeghian	
Early-Age Properties of Cement Pastes Incorporating Aqueous Dispersions of Carbon Nanofibers	139
Ali Teymouri, Alireza Haji Hossein, and Rahil Khoshnazar	
Silicate-Based and Alkali-Free Accelerators for Shotcrete Applications: Field Study	149
Esraa ElSayed, Ahmed Soliman, and M. Hesham El Naggar	
Comparative Experimental Study of Three Concrete Workability Tests	159
Sarah Khalil, Stephen Bruneau, Amgad Hussein, and Leonard Lye	
Coatings for Improving the Durability of Concrete Bridge Decks	173
Laleethya M. Ariyadasa, Moustafa A. Abuzeid, Mohamed T. Bassuoni, and Mohamed Mady	
Improvement of Mechanical Behaviour of Concrete Using Natural Fibres—A Review	183
Loveleen Sharma, Ashutosh Sharma, Brian C. Burrell, and Rishi Gupta	
Potential Use of LDPE and Crumb Rubber Waste in Asphalt Binders	199
Youssef Ibrahim, Rola Nasr, Hassan Salem, Aly Said, Bishoy Doss, Safwan Khedr, Ahmed Faheem, and Maram Saady	
Understanding Brittle Compressive Fracture in Single and Multi-Void Systems via Linear Elastic Stress Fields	211
Ahmed Ahmed, George Iskander, Mina Iskander, and Nigel Shrive	
Effect of Biochar from Waste Wood on the Strength of Cementitious Mortar: Additive and Cement Replacement	227
Alireza Jafari and Pedram Sadeghian	
Potential of Using the Mycelium of <i>Pleurotus Ostreatus</i> as a Thermal Insulator	239
Valérie Grenon, Wahid Maref, and Claudiane Ouellet-Plamondon	
Autogenous Self-healing of Alkali-Activated Materials: A Review	251
Ahmed Khaled, Ahmed Soliman, and Nourhan Ali	

Influence of Galvanized Iron Fiber on Bond Behavior of Concrete	265
Tasfiah Faisal Chowdhury, Ummul Wara Labiba, Tasnia Ahmed, Md. Shahjalal, Mohammad Rezaul Karim, and Md. Jahidul Islam	
Investigation Optimization of the Percentage of Agro-Waste in Non-structure Concrete	279
Arman Hatami Shirkouh, Ahmed Soliman, Stéphane Godbout, and Joahnn Palacios	
Non-Portland Cement-Based Engineered Cementitious Composites	293
Shahin Zokaei, Hocine Siad, Mohamed Lachemi, Obaid Mahmoodi, and Mustafa Şahmaran	
Correlation Between Ultrasonic Pulse Velocity and Permeability Properties of Engineered Cementitious Composite Incorporating Glass Powder	305
Adeyemi Adesina and Sreekanta Das	
Mix Development of UHPC for Precast Buildings	317
Julia Holgate, Alan Lloyd, Michael Thomas, Cynthia Ene, and Solomon Amuno	
Mycelium as a Sustainable, Low-Carbon Material for Building Panels	333
Ethan Taylor, Sushant Neupane, and Colin MacDougall	

Keywords: Carbon fiber • Fly-ash • Alkali treatment • Contact angle • Microstructural analysis • Fiber pull-out • Electrical resistivity
