## PART I. FALLING RATES

### 1. The Level of Interest Rates: Today and Historically

13

1.1 Interest Rates during 1980–2020

14

1.2 Long-Term Developments in Global Interest Rates

16

1.2.1 Dispersion in Yields across Countries

17

1.2.2 Long and Short Yields

19

1.3 Yields on Corporate Bonds

21

1.4 Very Long-Term Interest Rates for the UK

22

1.5 Seven Centuries of Interest Rates

23

1.6 Checklist

26

### 2. Inflation and Real Interest Rates

27

2.1 Global Inflation during the Past Four Decades

29

2.2 Long-Term Trends in Inflation

31

2.3 The Historical Behaviour of Real Interest Rates

35

2.4 Seven Centuries of Inflation and Real Rates

38

2.4.1 Real Rates

39

2.5 Checklist

40

## PART II. CONSEQUENCES OF FALLING AND LOW INTEREST RATES

### 3. Debt and Low Interest Rates

45

3.1 Sovereign Indebtedness in Advanced Economies

46

3.2 Historical Debt Developments: Two Case Studies—The US and the UK

48

3.2.1 The US

48

3.2.2 The UK

52

3.3 Pros and Cons Regarding Public Debt

54

3.3.1 Pros of Public Debt

54

3.3.2 Cons

55

3.4 When Is a Lot Too Much?

60

3.5 Private Debt

61

3.5.1	Pros and Cons of Other Private Debt	63
3.6	Total Debt	64
3.7	Checklist	65
<b>4.</b>	<b>House Prices and Low Interest Rates</b>	<b>67</b>
4.1	Developments in House Prices	68
4.1.1	Different Countries	70
4.2	Interest Rates and House Prices	70
4.2.1	Why Should Falling Interest Rates Push Up House Prices?	71
4.2.2	Do Interest Rates Affect House Prices?	72
4.3	Economic Growth and Credit Growth	74
4.3.1	Economic Growth	75
4.3.2	Mortgage Debt	76
4.4	Checklist	78
<b>5.</b>	<b>Stock Markets and Low Interest Rates</b>	<b>79</b>
5.1	How Interest Rates Affect Stock Markets	80
5.1.1	Interest Rate and Earnings	80
5.1.2	Interest Rate and Discount Rate	81
5.1.3	Interest Rate and Aggregate Risk Premium	82
5.2	Long-Term Evidence on the Global Relation between the Interest Rate and the Stock Market	82
5.3	Evidence from the US	85
5.3.1	Interest Rates and Tax Expenses of US Corporations	88
5.4	Interest Rates and Expected Stock Market Returns	90
5.5	Bond Returns	92
5.6	Checklist	95
<b>6.</b>	<b>Inequality and Low Interest Rates</b>	<b>96</b>
6.1	Is a Perfectly Equal Society Desirable? Or, When Is Inequality Too High?	97
6.2	Trends in Inequality	97
6.2.1	Inequality Has Increased during the Past Four Decades	100
6.2.2	Inequality Fell Prior to 1980	101
6.3	Inequality and the Interest Rate	104
6.4	Why Do Interest Rates Affect Inequality?	106
6.4.1	Monetary Policy, Interest Rates, and Inequality	107
6.5	Do Low Interest Rates Cause Rising Inequality or Does Rising Inequality Cause Low Interest Rates?	109
6.6	Other Factors Contributing to Inequality	110
6.7	Has Inequality in Fact Increased? Debates about the Data	112
6.8	A Final Word about Wealth Inequality	113
6.8.1	An Example Where Inequality Matters	114
6.9	Checklist	115

<b>7. Financial Risk-Taking and Low Interest Rates</b>	<b>117</b>
7.1 Understanding How Low Rates Can Increase Financial Risk-Taking	118
7.1.1 Low Interest Rates Might Lure People into Investing in Financial Assets Using Borrowed Money	118
7.1.2 Low Interest Rates Might Incentivize People to Invest More Riskily	119
7.1.3 Low Interest Rates Increase the Risk of Overvalued Financial Assets and Financial Bubbles	119
7.1.4 Low Interest Rates and Risk-Taking in Banks	120
7.2 Do Low Interest Rates Lead to More Risk-Taking?	120
7.2.1 Retail Investors	121
7.2.2 Pension Funds	121
7.2.3 Mutual Funds	123
7.2.4 Banks	124
7.3 'Mispricing' and the Level of Yields	126
7.4 Low Interest Rates and the Global Financial Crisis of 2008	129
7.5 Low Interest Rates and the UK 2022 LDI Crisis	132
7.6 Checklist	134

## PART III. WHAT CAUSED A FOUR-DECADE FALL IN INTEREST RATES?

<b>8. What Caused a Four-Decade Fall in Inflation?</b>	<b>139</b>
8.1 What Determines Inflation?	139
8.1.1 Monetary View on Inflation	140
8.1.2 Inflation Caused by Demand and Supply	141
8.2 Can Money Growth Explain the Fall in Inflation since 1980?	142
8.3 Demand-Pull and Cost-Push Effects	145
8.3.1 Monetary Policy and Central Banks	145
8.3.1.1 Monetary Policy in the 1970s	145
8.3.1.2 The Change in Views on Monetary Policy	147
8.3.2 Globalization	149
8.3.3 Oil Prices	151
8.3.4 Demographics and Labour Supply	153
8.4 Checklist	153
<b>9. What Caused a Four-Decade Fall in Real Interest Rates?</b>	<b>155</b>
9.1 Theory: Determination of the Real Interest Rate	156
9.1.2 Economic Growth and the Real Interest Rate	158
9.2 Real Economic Growth and the Real Interest Rate	161
9.3 Demographics	164
9.3.1 Life Expectancy	164
9.3.2 Population Growth	167
9.4 Fewer Safe Assets	168
9.5 Central Bank Purchases of Safe Assets	169

9.6	Changes to the Income and Wealth Distribution	171
9.7	Secular Stagnation	171
9.8	Decomposing the Fall in Real Rates into Underlying Factors	172
9.8.1	Evidence from the US	174
9.9	Checklist	175
<b>10.</b>	<b>What Caused the Rise in Inflation and Interest Rates after the Covid-19 Pandemic?</b>	<b>177</b>
10.1	Putting the Post-Pandemic Rise in Inflation and Interest Rates into Perspective	178
10.2	Why Did Inflation Increase So Dramatically after the Pandemic?	181
10.2.1	The 2020 Recession and the Bounce-Back	181
10.2.1.1	Demand Soared after the Pandemic	183
10.2.2	Expansionary Policies	186
10.2.2.1	Monetary Policy	188
10.2.3	Goods/Services Demand Shifts and Supply-Chain Challenges	192
10.2.4	Rising Commodity Prices	195
10.3	Nominal Interest Rates Rose in Response to the Inflation Surge	196
10.4	Checklist	198
<b>PART IV. WHAT DOES THE FUTURE HOLD?</b>		
<b>11.</b>	<b>Trends That Could Keep Rates Low</b>	<b>203</b>
11.1	Trend 1. Interest Rates Have Been on a Downward Trajectory for the Past 700 Years. Why Should This Change?	204
11.2	Trend 2. Population Growth Falls	205
11.3	Trend 3. We Will Live Longer	208
11.4	Trend 4. Lower Economic Growth Rates Reduce Real Rates	211
11.5	Uncertainty: Climate Risk and Geopolitical Risk	212
11.5.1	Higher Geopolitical Risk	214
11.6	Deglobalization	215
11.7	Nominal versus Real Interest Rates	216
11.8	Checklist	217
<b>12.</b>	<b>Trends That Could Elevate Rates</b>	<b>218</b>
12.1	Trend 5. More Retired People Relative to the Number of Working People	219
12.2	Trend 6. Rising Debt Levels	221
12.2.1	Scenarios for UK Public Finances	222
12.2.2	Scenarios for US Public Finances	224
12.2.3	Other Countries	225
12.2.4	Public Debt Also Rose between 1980 and 2020	226
12.3	Transition to a More Sustainable Economy	227
12.4	Investments in Defence	228

12.5	Central Bank Asset Purchases	229
12.6	AI, Productivity, and Interest Rates	229
12.7	Weak Link between Economic Growth/Population Growth and Interest Rates over the Very Long Run	230
12.8	Checklist	231
<b>13.</b>	<b>Putting It All Together: What Is the Outlook for Rates?</b>	<b>233</b>
13.1	Summarizing the Main Channels Affecting Future Interest Rates	234
13.2	Evidence from Statistical Analyses in the Literature on Future Real Interest Rates	235
13.3	The Future of $r^*$	238
13.3.1	Evidence from the US	238
13.3.2	Global Evidence	239
13.4	Market Expectations	240
13.4.1	Expected Real Rates	242
13.4.2	Expected Inflation	243
13.4.3	Are Market-Based Measures of Expectations Good Measures of Future Outcomes?	245
13.5	Concluding on the Outlook for Interest Rates	246
13.6	Checklist	246
<b>14.</b>	<b>Debt, Inequality, and House and Stock Prices Considering Interest Rate Scenarios</b>	<b>247</b>
14.1	What Happens If Interest Rates Fall?	247
14.2	What Happens If Interest Rates Rise?	248
14.3	What Happens If Interest Rates Stay Where They Are?	249
14.4	Checklist	250
