PART 4

How to develop digital supply chains 147**1 Typical paths of supply chain evolution** 149

1.1 *Trend-sonar digital supply chains* 149

1.2 *Market development and supply chain evolution* 151

1.3 *Technology development and supply chain evolution* 156

1.4 *New business models and digital supply chains* 157

1.5 *LogTechs – start-ups in the logistics service provider market* 158

1.5.1 *Asset-light business models* 158

1.5.2 *Typical LogTech clusters* 160

2 Key principles of supply chain evolution 162

2.1 *Perspectives of organizational theory* 162

2.1.1 *Industry perspective* 162

2.1.2 *Corporate perspective* 165

2.1.3 *Self-organization and autopoiesis* 169

2.1.4 *Cybernetics* 172

2.2 *Integration of perspectives and key design principles* 174

2.2.1 *Umbrella for key design principles* 174

2.2.2 *Design principles of self-organization* 175

2.2.3 *Supply chain fitness* 177

2.2.4 *Strategies of supply chain evolution* 179

3 Next steps for the digital supply chain 181

3.1 *Overall approach to digitalization of the supply chain* 181

3.2 *Baselining and assessing maturity* 182

3.3 *Defining the target operating model* 182

3.4 *Planning the implementation roadmap* 185
