List of Figures.....	vii
List of Tables.....	vii
List of Abbreviations	ix
Abstract.....	xi
Abstrakt.....	xiii
1. Introduction	1
2. Literature Review	4
2.1. Fruit Juices: Global Importance.....	4
2.2. Microbial Spoilage, Conventional Preservation and Concerns with Synthetic Additives	6
2.3. Importance of Natural Preservatives, Particularly in Low- and Middle-Income Countries	10
2.4. Traditional Preservation of Juices and Beverages in LMICs.....	12
2.5. Modern Juice Preservation Strategies: Synthetic vs Natural	14
2.6. Clean-Label Consumer Trends and the Shift to Natural Preservatives	18
2.7. Plant-Derived Antimicrobials: Importance, Modes of Action, and Dual Functions.....	20
2.7.1. Modes of Action of Plant Antimicrobials.....	21
2.7.2. Dual Functionality: Antimicrobial Plus Antioxidant (and Other Benefits)	23
2.8. Methods for Testing Antimicrobial Efficacy in Beverages	25
2.8.1. Agar Diffusion Assays (Disk and Well Diffusion).....	26
2.8.2. Broth Dilution Methods (Macro- and Microdilution)	28
2.8.3. Agar Dilution (Poisoned Food Technique)	31
2.8.4. Challenge Testing in Beverage Matrices	32
2.8.5. MTT/XTT Viability Assays	34
2.8.6. Specific Adaptations for Food Matrices (e.g., Fruit Juices) ..	37
3. Objectives of the Research.....	39
4. Materials and Methods.....	42

4.1.	Adaptation and Validation of a Modified Broth Microdilution Method for Screening the Anti-Yeast Activity of Plant Phenolics in Apple and Orange Juice Models	42
4.1.1.	Tested Plant Phenolic Compounds and Control	42
4.1.2.	Yeast Strains and Growth Media	42
4.1.3.	Preparation of Juices.....	43
4.1.4.	Anti-Yeast Assay	44
4.1.5.	Statistical Analysis.....	45
4.2.	Adapted MTT Colorimetric Assay.....	46
4.2.1.	Chemical compounds.....	46
4.2.2.	Juice sample preparation	46
4.2.3.	Yeast and culture media.....	46
4.2.4.	Food matrix MTT assay.....	46
4.3.	Antimicrobial efficacy of lemongrass (<i>Cymbopogon citratus</i>) and fingerroot (<i>Boesenbergia pandurata</i>) essential oils against foodborne pathogens.....	48
4.3.1.	Essential Oils	48
4.3.2.	Bacterial strains and culture conditions	49
4.3.3.	Determination of minimum inhibitory concentration (MIC) and minimum bactericidal concentration (MBC)	49
4.3.4.	Microbial assay	50
4.4.	<i>In Vitro</i> Growth-Inhibitory Effect of Plant Extracts Against Beverage-Spoiling Microorganisms.....	50
4.4.1.	Plant material	50
4.4.2.	Extracts preparation	51
4.4.3.	Yeast Strains and Growth Media	52
4.4.4.	Microbial assay	52
4.5.	Practical Application of Natural Preservatives in Low- and Middle-Income Countries.....	52
4.5.1.	Field Trial Design and Processing Protocols	52
4.5.2.	Mango Juice Processing	53
4.5.3.	Preservative Treatments and Controls	54
4.5.4.	Monitoring and Evaluation	54

5. Results and Discussion	55
5.1. Adaptation and Validation of a Modified Broth Microdilution Method for Screening the Anti-Yeast Activity of Plant Phenolics in Apple and Orange Juice Models	55
5.2. Adapted MTT Colorimetric Assay Food Model	63
5.3. Antimicrobial efficacy of lemongrass (<i>Cymbopogon citratus</i>) and fingerroot (<i>Boesenbergia pandurata</i>) essential oils against foodborne pathogens.....	67
5.4. <i>In Vitro</i> Growth-Inhibitory Effect of Plant Extracts Against Beverage-Spoiling Yeasts.....	72
5.5. Practical Application of Natural Preservatives in Low- and Middle-Income Countries.....	74
6. Conclusion	82
7. References	84
List of authors publications	100
List of research and development projects	101
List of EU projects	103
8. Appendices	104
8.1. Appendix A. Additional results (Chapter Lemongrass and Fingerroot EOs against tested food-borne pathogens at different temperatures (4 °C and 25 °C) over the time.....	104
8.2. Appendix B. Scientific poster based on the chapter 5.2 was presented at the International Conference on Advanced Production and Processing, Novi Sad, 10th – 11th October 2019.....	108
8.3. Appendix C. Scientific poster based on the chapter 5.3 was presented at the Tropentag Conference, Gent 2018.....	109
8.4. Appendix D. Shortened Curriculum vitae.....	110
Education.....	111
Relevant memberships, courses and workshops	112
